

**TORONTO S. O. E. NOTES.**

The following notes reached us too late for insertion in our last issue:

—The garden party held at Small's Grove under the auspices of Hammersmith Lodge was a decided success. The weather was everything that could be desired. The grounds were tastefully decorated with Chinese lanterns and electric lights, which gave the place a beautiful appearance when lit up at night. The kindness of Bro. ex-Ald. Small in throwing open his grounds will not be forgotten, and Hammersmith must be congratulated on this their first attempt.

—Sherwood Lodge, Eglinton, intend running an excursion to Niagara Falls via steamers Chippawa, Cibola and Chicora, on August 18th. The committee are hustling and quite a number have signified their intention of taking it in.

—Albion lodge had a good turn out at their quarterly meeting on the 21st ult., considering the hot night. One proposition was received. Bro. H. T. Benson was elected delegate to the Hospital Board. Other general business went through with a rush, and the lodge closed at 10 o'clock the earliest on a quarterly night since the foundation of the Order. Receipts for the evening, \$427.

—Two candidates were initiated and three proposed for membership at the last meeting of Avondale Lodge. Bro. Evans, D.D. for Centre Toronto, presented Bro. Minns, the treasurer of the lodge, with a beautiful jewel, and passed a few complimentary remarks on his fidelity to the Order. At the close of the meeting a most enjoyable time was spent.

—We regret to hear of the death of Mrs. Elton, the wife of our esteemed Bro. Harry Elton. We are sure Bro. Elton has the heartfelt sympathy of all the members of the Order in this sad trial.

—Brighton Lodge has been again unfortunate in losing another member by death—Bro. Geo. Day. He joined the Order a little over three years ago, and immediately after joined the beneficiary.

—London Lodge celebrated their anniversary by having a dinner and a jolly time was spent. Bro. Johnson occupied the chair. Bro. Jas. Lomas, one of the founders of the Order, Bro. Dr. Ryerson, M.P.P., and a large number of visitors were present. After the good things provided were disposed of several rousing and patriotic speeches were delivered, intermingled with songs. The affair broke up at an early hour.

—Preston Lodge held a very successful meeting a few nights ago. Five candidates were advanced to the higher degree, and a great amount of business transacted in both degrees. Addresses were delivered by the newly initiated. It was decided to hold a basket social at some future date, when old English sports and games will take place.

**SAY GOOD WORDS.**

The teacher who educates your children toils on year after year doing her duty and often more than her duty. She may train them in a perfect way, making them grow to noble manhood and womanhood, but never a word of appreciation does she hear. Let her make a mistake, however; let something go wrong, and you denounce her in terms of the severest blame.

The newspaper writer gives his lifetime to writing things that will be helpful to his reader. It is his daily and nightly thought how he will interest them, instruct them and give them new courage when they are weary and disheartened. Never a word of praise do you give him. If he says anything you do not like, however, like lightning descend the bolts of your wrath. He hears from you then—he does indeed.

The office boy and the little errand girl—mere children, ignorant, blundering and timid—come into your employ when they ought to be playing outdoors. They grow pale and nervous, like overworked grown people, while they are yet children. You score them for their mistakes and shortcomings; you threaten them with discharge; you talk cruelly. Do you ever praise them when they do well? Do you ever say one kind, appreciative word to those whose task it is to please you? Such a word would sweeten life to them. It would be like manna in the wilderness. It might inspire their whole future lives. Do you ever say it?

It is a cruel, heedless world. "God save the Queen" is sung in nearly twenty different languages.

**JOHN BULL WILL TAKE A LOOK IN.**

A curious development of Russian activity on the frontier in the latest Nihilist panic is engaging the attention of the British postal authorities. On May 20 the registered mail bag for England containing over one hundred letters was delivered by Russian mail agents at the Austrian frontier with the explanation that it had accidentally been drenched with water.

On examination at London the letters were not only soaked through and most illegible, but in a number of cases the solid end of the envelope had been cut with a knife. It is clear that the officials had ransacked the bag, read all suspicious letters, and then dumped the whole in water to provide an excuse for the mutilated condition of the envelopes. The matter has been referred to the British Foreign Office, and correspondence on the subject is in progress.

**THE SCIENCE OF MEDICINE.**

**WONDERFUL ADVANCE MADE IN THE LAST FEW YEARS.**

Mr. John McGovern of Toronto Relates an Experience of Deep Interest—Utterly Helpless and Suffered Greatly Before Relief Came.

From the Toronto Globe.

Very little is heard by the general public of the great discoveries in medicine, and the countless scores of lives that are saved by the advancing knowledge of medical science. People who a few years ago were left to drag out a miserable existence as hopeless invalids, or helpless cripples, are now, thanks to the advances medicine has made, restored to the fullness of health and strength. Mr. John McGovern, who resides at No. 2 Alpha avenue, in this city, has good cause to appreciate the truth of the above statements. Mr. McGovern was formerly an agent for agricultural implements, and is well known in different parts of Ontario. A Globe reporter who had heard that he had been restored to health, after an illness which threatened to leave him a hopeless cripple, called upon him at his residence recently, and was given the following interesting account of his case:—

"My trouble first began," said Mr. McGovern, "two years ago, when I was living in the Village of Bolton, in the County of Peel. The trouble was all in my elbows and knees, and the doctors thought it was rheumatism. I couldn't walk a block without wanting to sit down, and even to walk down stairs was hard work. It afflicted me terribly. I was all right in other ways but for this terrible weakness. For a year and a half I suffered this, but by sheer force of will held out against it, and managed to get about; but six months ago I broke down completely, and had to give up my business. I then removed to Toronto, and for three months after I was in terrible shape. I was almost always confined to my bed, being able to come down stairs for a little while perhaps once a day. I suffered all the time from a terrible soreness in the joints, and at this juncture my appetite began to fail, and I was only able to eat the lightest food, and not much of that. I could find nothing to help me or give me relief. All this time I was unable to do anything, and had I not fortunately had a little money laid by which enabled me to go on, I would have been dependent upon my family for support. Well, while I was in this terrible shape, my eldest son prevailed upon me to try Dr. Williams' Pink Pills, and early in last July I began to use them, and I used them steadily during that month and the two following months. Before the first box was finished I began to get relief, and from that out I steadily improved until I was able to discontinue the use of the Pink Pills, feeling that I was fully restored to health. I am satisfied in my own mind that had it not been for Dr. Williams' Pink Pills I would have still been helpless and suffering, and I have much reason to be thankful that my son persuaded me to use them. Thanks to Pink Pills I am now a new man and intend soon to resume my work."

Dr. Williams' Pink Pills are a perfect blood builder and nerve restorer, curing such diseases as rheumatism, neuralgia, partial paralysis, locomotor ataxia, St. Vitus' dance, nervous headache, nervous prostration and the tired feeling therefrom, the after effects of la grippe, diseases depending upon humors in the blood, such as scrofula, chronic erysipelas etc. Pink Pills give a healthy glow to pale and sallow complexions, and are a specific for the troubles peculiar to the female system and in the case of men they effect a radical cure in all cases arising from mental worry, overwork, or excesses of any nature.

Bear in mind Dr. Williams' Pink Pills are never sold in bulk, or by the dozen or hundred, and any dealer who offers substitutes in this form is trying to defraud you and should be avoided. Ask your dealer for Dr. Williams' Pink Pills for Pale People and refuse all imitations and substitutes.

Dr. Williams' Pink Pills may be had from all druggists, or direct by mail from the Dr. Williams' Medicine Company, Brockville, Ont., or Schenectady, N.Y., at 50 cents a box or six boxes for \$2.50. The price at which these pills are sold makes a course of treatment comparatively inexpensive as compared with other remedies or medical treatment.

**THE TRADE OF GREAT BRITAIN.**

In 1840 the foreign trade (exports and imports) of Great Britain amounted to £123,000,000. In 1880 it reached the colossal sum of £748,000,000. It is as large to-day as the combined commerce of Austria, France, Germany and Italy, though those countries have an aggregate population of 160,000,000 against 40,000,000 in the United Kingdom. In no European country has the population increased so rapidly as in Britain, and in none is the average of comfort so high. Wages have increased in money value over 100 per cent., and the cost of living has been greatly reduced. In 1849 the navigation laws were repealed. The tonnage of the British mercantile marine was then 3,500,000 tons. It is now 7,750,000. She owned one-third of it now, and of the steam tonnage about 75 per cent.

The savings bank deposits are larger per head than the deposits in the United States. In 1842 there was one able-bodied pauper to every 38 of the population of England and Wales. In 1880 the rate was one to 300, notwithstanding the enormous multiplication of the people. Mr. David A. Wells says, "there is not a city or town in England in which the percentage of returned pauperism is as large as in the city of Hartford, New England." Crime has greatly diminished in Great Britain. In 1885 one person in every 4,100 of the population of the British Isles was a convict; in 1880 the proportion in Massachusetts was one to every 461.

The amount of life insurance in Britain is greater than in any other country in the world. Of all the countries of the world Britain and the United States are the only ones that are reducing their debts.

Miss Florence Nightingale has been confined to the house by ill health for a number of years. She lives at home with her kinsman, Sir Harry Vernon, in Devonshire, England. She has passed her seventy-third birthday.

An illustration of the agricultural depression in England is afforded in the fact that the rent of a farm of 800 acres, in Kent, for which the owners paid £32,000 and which rented for £1,200 a year for many years has fallen to £300 a year. Another farm said to be the best in the county, rented in 1886 for £900, now rents for £300.

Electricity played an odd prank in Margate, England, a few days ago when a telephone wire crossed a fire alarm circuit and brought out the engines. The firemen were greatly mystified on reaching the box from which the alarm was supposed to come to find the door unbroken and it was sometime before the mystery was cleared up.

In the manufactures of Great Britain alone the power which steam exerts is estimated to be equal to the manual labor of 4,000,000,000 of men, or more than double the number of males supposed to inhabit the globe.

Ten thousand tons of salmon, 30,000,000 cans, were put up this season in the canneries on the Fraser River, B.C.

**JOB PRINTING**

When you want printing of any kind done on short notice and at fair prices give the ANGLO-SAXON the order. Our facilities are such that we can turn out book and poster work of any size. We make a specialty of commercial printing and guarantee all work to be first-class. Society Work receives our special attention. Call and get prices and see samples of our work at 36 Elgin Street, or send to Box 296, Ottawa.

THE ANGLO-SAXON.

**Picture Frame MANUFACTURER.**

It will pay you to call at my Store and try me, and see for yourself. The class of Mouldings I keep in stock are of the best design and finish. Prices low enough to suit everyone.

**DEALER IN**

Fancy Cabinet and General Art Goods, etc., ETCHINGS, ENGRAVINGS, ETC.

**F. JARMAN,**

103 Bank St. . . . Ottawa.

**EVERYONE** is liable sometime to get out of sorts, feel sick without knowing just what ails them, lack appetite, have no ambition and are easily fatigued, need a tonic, etc. When ever anyone feels in this condition they

**SHOULD USE RADAM'S MICROBE KILLER.**

It is just the thing required. It purifies the blood by destroying the disease germs in the system, gives an appetite, restores lost strength and vitality, and aids nature to throw off lassitude and reassert its usual vigor. It is the name given to this great remedy in England by those using it, and if you just give it a trial I am sure you will agree with them that it exactly fits the case. Put up in stone jars; small size, \$1; large size, \$3. For sale at all druggists, and by

**J. S. Dingman, General Agt.,**  
67 O'Connor St., Ottawa.

**DO YOU WANT IT.**

Just before the writer took up a pen to write this item, the following editorial article, from the Chicago Ledger, was brought to his attention. It says: "Nearly every day the newspapers give an account of some eminent man falling suddenly dead at his desk from heart disease. As a rule, no middle-aged man in active business dies thus suddenly unless poisoned, and that poison, in the majority of cases, is tobacco. Meanwhile the slaughter goes on. The press and pulpit seem muzzled, the majority being participants in the popular vice, and those who are not seem hypnotized and afraid to speak out."

Right here is the time and place for you to decide if you want a cure for the tobacco habit, and determine that you will forever rid yourself of this disease. A package of No-to-bac, sufficient to cure an ordinary case, will cost you \$1. Three packages are guaranteed to cure any case, or money refunded. As a tobacco user you go on feeding the diseased nervous system, at a cost of 5 to 50 cents a day, or even a \$1 a day or more in some cases, so it is surely not the cost of No-to-bac that will cause you to continue to be a tobacco user. No-to-bac is put up in tablet form, is pleasant to take, and will be sent free by mail to any address for \$1 per box. Address J. S. Dingman, 67 O'Connor street, Ottawa, Ont. Pamphlets showing why and how No-to-bac cures the tobacco habit, and giving testimonials, etc., mailed free on application.

**R. S. WILLIAMS & SON,**

MANUFACTURERS OF HIGH CLASS PIANOS AND Church Pipe Organs.

Quality in Every Respect is Unsurpassed. Inspection and Comparison Invited.

**BRANCHES:**
