Holstein Breeders -- Attention!

At considerable expense we recently sent one of our editors to New York to visit leading breeders of Holstein cattle.

We secured a great deal of most valuable information from these Holstein Breeders. Beginning with Farm and Dairy this August 8th issue, we commence a series of articles based on information gathered while on this trip.

Turn to the article on page three this week. Read it over carefully. Bear in mind that each one of the breeders we called on will be written up individually in Farm and Dairy, and then ask yourself: "What will these articles do in the way of creating a new interest, a deeper interest and a broader interest, in Holstein cattle?"

These experience articles, of real human interest, and putting forth invaluable information, will be sure to put still greater life into the Canadian Holstein business.

As a breeder, with Holsteins to sell, you can profit directly and right now from the publication of these articles.

When the next article appears it will pay you to be in Farm and Dairy with an advertisement of your Holsteins. For a few weeks during the course of these articles it will pay you to use liberal attractive space, larger than usual.

John Arfmann, a successful Holstein breeder of note, we visited in New York State, told us that, until he knew better, he advertised in local papers, and sold his Holstein bull calves at \$35. Now if one of his calves is worth at least \$100 when born he does not think much of it. He places his advertisements now in dairy papers like Farm and Dairy, and they have helped greatly in making for him satisfactory sales.

We are ready to do our part in service for you. It is for you to make the connection. It will pay you to do it to-night.

MARKET REVIEW AND FORECAST

7-today. Monday, August 5-Interest nowadays centres in the wheat crop of the North-West. Considerable uneasiness has been caused by reports of a heavy crop in numerous sections. As the crop is well advanced, however the damage done will probably not be great. The most danger now lies in early the fall.

In spite of the late spring, followed by drought, crops in Eastern Canada will be up to the average. The wheat crop continues, above the average. The outlook for fall trade therefore is good. This is a slack season so far as price in farm produce is concerned, and price changes are not numerous.

WHEAT

There has been a fairly good foreign inquiry for Manitoba spring wheat. With crop conditions so uncertain, however, dealers all show a tendency to hold wheat and wait for developments. No. 1 Northern is quoted, \$1.12 1/2; No. 2, \$1.08; No. 3, \$1.04; feed wheat, \$2.00 to \$2.05. Ontario millers report that foreign bids are so low that they cannot afford to pay the prices asked for wheat, and quotations consequently have declined. Millers are paying \$80 to \$1 for Ontario wheat.

COARSE GRAINS

There is a good foreign inquiry for coarse grains, but bids generally are too low to do much business. More has changed hands, however, than for some weeks. Quotations for No. 1, \$1.05; No. 1 extra feed, 45c; C.W.
