

**CONCRETE MIXERS.**

The Gould, Shapley & Muir Company, Limited, Brantford, Ont., exhibited at the Toronto Industrial Exhibition the "Ideal" automatic concrete mixer, which they are now manufacturing in Canada under patent rights secured from the Buffalo Concrete Mixer Company. It is claimed that this mixer will automatically measure the proper amount of cement with a given quantity of gravel and also automatically insert sufficient water inside of the machine to properly wet the mixture to any desired consistency. It is mounted on a steel truck and can be readily moved from place to place.

Messrs. Gutteridge & McConnell, of Hamiota, Man., also exhibited an automatic cement concrete mixer, for which they claim a capacity of upwards of 60 yards a day. It is understood that they have disposed of the right to manufacture this machine in Western Canada. They also showed a concrete building block machine.
