Imported Shorthorns

We have, in quarantine, 16 imported bulls, four cows with bull calves at foot and safe in calf again and one good two-year-old heifer. These cattle were selected for us by one of the best judges in Great Britain. They are a good lot and represent the very best Scotch breeding. They will be released from quarantine early in November. We have eight young bulls some of which we would like to sell before our imported stock comes home. There are some choice ones among them. J. A. & H. M. PETTIT :: FREEMAN, ONTARIO

Escana Farm Shorthorns

Burlington Jct. G.T.R.

A Reasonable Chance to Buy a Well-bred, Good, Young SHORTHORN BULL

at a small price; I have three January calves which I want to move at once. Also four or five a little older.

Will A. Dryden, Maple Shade Farm, Brooklin, Ont. Brooklin, G. T. R., C. N. R. Myrtle, C. P. R.

Robert Miller pays the freight, and in addition he is offering a roan 2-year-old bull that has bull, first the only time shown, direct from imported stock, also proven sure and right, and several younger bulls of the very highest class, in beautiful condition, at great value for the money asked. Females of all ages, some of them prizewinners, some of them great milkers and bred that way, some of them of the most select Scotch families that will start a man right. If you let me know your object, I can price you a bull to suit your purpose, at a price that you can pay. Shropshire and Cotswold rams and ewes for sale as usual. Our business has been established for 79 years, and still it grows, there is a reason. ROBERT MILLER, Stouffville P.O. and Station, Ontario.

the men will be taken is North-east and Middle England. Lord Feversham will command it, and wants 1,200 men, and this will be a rare opportunity for farmers and farmers' sons to serve together. It is thought that this battalion will help to revive the tradition of the days when the farmers of the country were the backbone of British infantry.

Exportations of Lincoln and Kent sheep are being sent out to British East Africa. The idea is to test the merit of these types when crossed with native ewes. Greater development of carcase and more wool are felt as still being necessary on the native sheep of that brilliant country.

I will conclude with the comment of a German savant in one of his own papers: "The bodies of dead horses are being turned into an admirable margarine.' These are his deductions after some experiments. Oh, to be in Canada, now that winter's coming !

London, England. G. T. BURROWS.

New Grades of Seed Grain.

Special grades for seed wheat, oats and barley are now authorized by Orderin-Council as follows:

No. 1 Manitoba Northern seed wheat shall be composed of 85 per cent. Red Fife or of Marquis wheat, sound, clean, free from other grain, and free from noxious weed seeds within the meaning of the Seed Control Act, weighing not less than 60 pounds to the bushel.

No. 1 Canada Western seed oats shall be composed of 95 per cent. white oats, sound, free from other grain, and free from noxious weed seeds within the meaning of the Seed Control Act, weighing not less than 36 pounds to the bushel.

No. 3 Extra Canada Western seed barley shall be composed of the six - rowed barley, sound, plump, of fair color, free from other grain, and free from noxious weed seeds within the meaning of the Seed Control Act, weighing not less than 48 pounds to the bushel.

These special grades will be given for the crop of 1915 only on car lots of grain that are inspected into the Government interior terminal elevators at Calgary, Moose Jaw and Saskatoon, and the seed will be made available to farmers and seed merchants at the close of navigation, or about December 1. The advance in prices over commercial grades will be just sufficient to meet the extra dockage required and the cost of cleaning, storing and sacking when the latter is desired by purchasers.

It is not anticipated that the operation of these seed grades will perceptibly alter the quality or value for milling of the commercial grades grain, as cars of grain for seed will be selected primarily on the basis of freedom from noxious weed seeds.

SEED BRANCH, OTTAWA.

MORE MONEY FOR SEED GRAIN AT THE WINTER FAIR.

Those who have been exhibitors of grain and seeds at the Ontario Provincial Winter Fair, as well as any who contemplate doing so this year, will observe that the amount of wheat, oats, barley, rye, buckwheat, and field peas, to be shown in the open class, is one bushel instead of one and one-half as formerly. The amounts to be offered for sale, which must correspond to sample exhibited, are the same as before except for field corn; 50 bushels grain in ear will be required from each exhibitor of corn other than sweet. Oats and barley are the chief grains grown in Ontario, and the classes for these are always well filled, and the competition very keen. The management of the Fair have greatly increased prizes given for oats and bar ley, and this year \$8, \$6, \$5, \$3, \$2 and \$1 will be given in each of the three classes of white oats, and \$10, \$8 \$6, \$5, \$4, \$3 and \$2, for six-rowed barley. Late round white potatoes will receive \$8, \$6, \$5, \$4, \$3, \$2 and \$1, as against \$7, \$5, \$4, \$2 and \$1 last year, and the corn prizes are \$6, \$4, \$3, \$2 and \$1, instead of \$4, \$3, \$2 and \$1. Members of the Western Ontario Seed Growers' Association will have the privilege of shipping their exhibits by freight, charges to be paid by the Association. A new feature in the Seed Department will be the championship classes in which exhibits from the open classes will compete with those from the Field Crop Competition classes, and others from the C. S. G. A.

Anastigmatic and Autographic

The 3A KODAK

Has the autographic feature whereby you an date and title your films at the time of exposure, is fitted with the new Kodak Anastigmat f.7.7 lens—a lens that leaves nothing to be desired in definition (sharpness) and flatness of field and has more speed than even the best of the Rapid Rectilinear lenses.

The shutter is the Kodak Ball Bearing with instantaneous speeds of 1-25, 1-50 and 1-100 of a second and, of course, the usual time and "bulb" actions. High grade in every detail.

No. 3A Autographic Kodak, pictures 3½ x 5½, Kodak Anastigmat lens f.7.7 \$27.50 Do., with Rapid Rectilinear lens, - - 22.50 Ask your dealer or write us for our beautifully illustrated booklet, "Kodak on the Farm."
