THE LAWRENCE - WILLIAMS CO., Cleveland, Ohio, and Toronto, Ont.

SOLE AGENTS FOR THE UNITED STATES AND CANADA.

Gombault's CAUSTIC BALSAM IS THE **ONLY GENUINE** AND ABSOLUTELY SAFE AND RELIABLE BLISTER.

The Razor Steel, Secret Temper, Cross-cut Saw.

WE take pleasure in offering to the public a saw manufactured of the finest quality of steel, and a temper which toughens and refines the steel, gives a keener cutting edge and holds it longer than by any process known. A saw to cut fast "must hold a keen cutting edge."

This secret process of temper is known and used only by ourselves.

These saws are elliptic ground thin back, requiring less set than any saws now made, perfect taper from tooth to back.

Now, we ask you, when you go to buy a saw, to ask for the Maple Leaf, Razor Steel, Secret Temper Saw, and if you are told that some other saw is as good, ask your merchant to let you take them both home, and try them, and keep the one you like best.

Silver steel is no longer a guarantee of quality, as some of the poorest steel made is now branded silver steel. We have the sole right for the "Razor Steel" brand.

It does not pay to buy a saw for one dollar less, and lose 25 cents per day in labor. Your saw must hold a keen edge to do a large day's work.

Thousands of these saws are shipped to the United States and sold at a higher price than the best American saws.

St. Jerome, Terrebonne Co.,

THE SUNLIGHT GAS CO., LTD., 3rd September, 1900.  
1 Little St. Antoine St., Montreal:

GENTLEMEN,—I have been using one of your "Acme Sunlight Gas Generators" for the past two years, and can tell you that up to the present it has given me entire satisfaction, and the cost of the light is much less than with coal oil and electric light. The machine, being automatic, gives very little trouble. Hoping that you will be satisfied with this information, I remain,

Yours truly,  
(Sgd.) P. F. E. PETIT, Notary Public.

### GOSSIP.

The auction sale of Shorthorn cattle and Oxford Down sheep, the property of Wm. R. Elliott, advertised in our Nov. 15th issue to take place Nov. 28th, was a pronounced success, \$370 being received from W. D. Platt for Isabella 7th, and over \$200 for each of a few other females. Capt. Robson bought Isabella 8th at \$205, and Geo. Mitchell, Port Hope, paid \$210 for Rosalinda. The bulls sold up to \$185, the price paid for Masterpiece by G. Mitchell, Clark, Ont. The sheep sold satisfactorily, ewes reaching \$25 and rams \$15 per head. The 33 Shorthorns and 50 Oxfords realized \$5,000. Mr. Elliott considers the FARMER'S ADVOCATE a good advertising medium, and returns thanks for its helpfulness.

JAMES McARTHUR'S SHORTHORNS AND YORKSHIRES.

Twenty years' constant attention along one line is a period in which a casual observer can strengthen many weak places if such exist. Mr. McArthur, the subject of our review, established his Shorthorn herd over 20 years ago, on his farm near Goble's, Ont., and from the pedigrees which we were shown we would judge that Mr. McArthur has constantly kept an eye open to the future popularity of the Scotch pedigree Shorthorn. The present stock bull is Robert Bruce 31030, by New Year's Gift, and out of Fanny B. 31st 28891, by King of Wales, and in him we found an animal of good character, of even roan color. Having received a liberal outside patronage, his owners prefer to keep him in the best breeding form. Preceding Robert Bruce, Mr. McArthur employed the imported Duthie-bred bull, Sirius 15281, by Leonidas (3349), and out of Sagasm, tracing to the famous Secret tribe through various noted Scotch sires. He did two years' service in the herd, and figures conspicuously in the pedigrees of many of the younger matrons. Plato 18827, a Miller-bred bull from Duthie-bred parentage, also did service in the herd. As he carried a liberal amount of the Languish blood, he impresses his progeny with that rangy conformation and size peculiar to that race. Among the female pedigrees, we were impressed with the frequency with which we saw the name of Languish, a line of breeding which largely predominates, although a number of good, strong and useful Duchess cows are doing service. The Gwynne family is also represented, and those most familiar with such pedigrees will recognize at once that under ordinary conditions one would expect to find a list of useful and prolific cows, carrying size and beefing conformation. The past dry season made Mr. McArthur's pastures unusually short, hence the cows are not in the high flesh that characterizes his good care and facilities; yet they are in the best of breeding form, and able to rear a good calf each annually. Among the young things offered for sale are a few young bulls of the correct sort, true in beefing type, short legged, thick-fleshed, good feeders, with an abundance of good quality, and in prime form.

The Yorkshires were founded upon O. A. C. and Brethour's breeding. In glancing over the pedigrees, we recognized at once that they carry chiefly the blood of such strains as Marion, Haskett, and Cinderella, with an occasional English pedigree thrown in. A strong, useful imported boar is now standing at the head of the pedigree, which is a good individual. A few young Yorkshires, ready for shipment, are also included among the firm's offerings.

THE LAWRENCE WILLIAMS CO., Toronto, Ont.

## Cheese and Butter.

Makers of these articles, in many instances, do not pay the necessary attention to the quality of the salt they use. Some people think that "Salt is Salt," and it does not matter where it comes from or who makes it. This is a great mistake, for it is essential that to produce the best Butter or Cheese nothing but the purest Salt should be used. The number of prizes obtained by users of—

COLEMAN'S OR RICE'S

## Dairy Salt

at the various exhibitions is conclusive proof that these brands of Salt stand unrivalled.
