

## THE AMERICAN VISITORS.

The American visitors at the Fair during the week were loud in their praise of our exhibition, extolling the display and taste in arrangement, the music and other attractions provided. They were evidently surprised at the magnitude and excellence of the show, and evinced interest in all the exhibits. They were unanimous in declaring that the manufactures were on a par, if not superior to those at the Tacoma Fair. During their stay, their comfort and pleasure were attended by His Worship Mayor Teague, President Milne of the Horticultural Association, President Flumerfelt and Mr. Joshua Davies of the Board of Trade. Quite a number of the guests were introduced to His Hon. the Lieut. Governor and Mrs. Dewdney, and after accepting of the hospitality of President Milne and his associate directors, a large party, headed by Presidents Flumerfelt and Milne and Alderman Keith Wilson, including General Roberts, U. S. Consul, and accompanied by the reception committee, paid an informal visit to Government House, and the satisfaction expressed by our American visitors at the kindly and open-handed manner they were entertained by His Honor, Mrs. Dewdney and niece were pleasant to hear. The visitors expressed delight at the fine view from the Government House grounds, the lowering clouds having lifted sufficiently to catch a view of the American shore. Afterward, they had a look through the conservatory, and examined articles typical of British Columbia. The party were escorted to the Driard, and, after dinner, were taken around the city sight-seeing. They left on the City of Kingston at 10 o'clock, the steamer delaying her return trip to Tacoma so as to afford all the time possible to the excursionists. The committee having charge of the visitors were untiring in their attention, and have the satisfaction of knowing that they succeeded in thoroughly entertaining and interesting our American friends, who expressed their thanks. This interchange of courtesies between Seattle, Tacoma and Victoria will do much to cement the bonds of friendship and good-will that have always marked the relations between our neighbors of the Sound and our city. Among the visitors were: Mayor Orr and wife, Mr. and Mrs. Collyer, Mr. and Mrs. Coldwell, Mrs. Frank, J. Moffit, Miss Jaffe, Miss Cleveland, Hodgkins, A. Gross, W. A. Donaldson, Geo. C. Bott, and wife, G. C. Sawyer, H. Roitan, Miss S. Pinkham, Fred. S. Kersey, Mrs. J. R. Wolcott, A. C. Young and wife, Mrs. Judge R. Osborn, G. G. Jenkins and wife, Chas. Dawson and wife, A. M. Dean and wife, W. H. Harris and wife, E. S. Orr and wife, S. A. Hartwell, Mrs. G. W. Delamatu, Lewis Walker, Edwin Phillips, S. S. Brooks and wife, J. B. Morse and wife, G. E. Cleveland, Chas. Hutchings, Mrs. H. S. Eddy, Henry Beedy, Miss Moran, A. A. French Virgis, E. G. Johnston.

Now that garden parties and picnics are pleasures of the past, and socials, dances, balls, etc., are present, it would be well for those entertaining to keep on hand a few dozen of SAVORY'S splendid Champagne Cider. It is a delicious beverage for the supper table. Use champagne glasses and ice for those who are in need of a cool refreshing drink. SAVORY'S CHAMPAGNE CIDER, being strictly the pure, highly refined juice extracted from home grown apples, is a healthy and temperate substitute at all times for champagne, claret, etc., and is superior to all cheap concoctions sold under the name of champagne.

MISS J. E. HARRIS,

Dressmaking Parlors,

Tailor-Made Gowns, Riding Habits, Bridal Trousseaus, Evening Toilettes, Tea Gowns.

Rooms 41, 42, FIVE SISTERS' BLOCK.

## VICTORIA COLLEGE

First-class Teaching Faculty—British University Graduates. University, Professional, Commercial and Modern Courses.

Reasonable fees. Cricket, football, swimming, athletics, etc.

PRINCIPAL: J. W. CHURCH.

Autumn Term begins Sept. 10th, 1894.

## The Chase Metallic Roof-Plate.

## POINTS OF SUPERIORITY:

A Metallic Conducting Plate, covering the roof of the mouth.

Thinness and perfect adaptation of the same.

The accuracy of adaptation to that portion of the alveolar ridge with which the rubber or celluloid comes in contact.

A plate when made by this method is much lighter than an all gold plate, hence more pleasing to the patient.

The metallic roof-plate cannot become detached from the rubber, as the peculiar construction renders it impossible.

It is one of the most cleanly, durable, comfortable and beautiful dentures ever devised.

The metallic plate can be reswaged in case of absorption or shrinkage of the mouth, thus saving the expense of new metal.

These plates can be fitted to any mouth, however irregular or ill shaped.

Enunciation is much better than when the roof of the mouth is covered by a rubber or celluloid plate.

Perfect conduction of heat and cold, thereby preventing inflammation of the mucous membrane.

The peculiar and original method of making these Plates renders it possible to give to the patient the advantages of both a Metallic and Rubber Plate at a price within the reach of all.

## DR. A. C. WEST, DENTIST,

Adelphia Building cor. Government and Yates streets, Victoria, B. C.

## S. F. TOLMIE, V.S.,

Graduate Ontario Veterinary College, Fellow Ontario Veterinary Medical Society.

Diseases of all Domestic Animals treated
