

# ST. ANDREW'S NEW PASTOR

REV. J. M. ROBINSON INDUCTED INTO PRESBYTERIAN PULPIT.

Addressed by Rev. W. H. Anderson, Rev. Henry Young and Rev. Hector Mackay. Welcome by the Congregation.

The ceremony of inducting the Rev. J. M. Robinson into the Presbyterian pulpit of this city took place last Thursday, the services beginning at 8 o'clock. The church was well filled with a large and interested congregation, and several of the clergy of the other denominations were present. Rev. A. D. Menzies, of Kaslo, the moderator of the Presbytery, presided, and after the opening exercises Rev. W. H. Anderson, M.A., of Greenwood, preached a vigorous sermon from the 10th chapter of the Gospel by St. John, drawing a parallel between the good shepherd and the Christian pastor.

Rev. Henry Young, of Ymir, then addressed the minister, and spoke of the work which Mr. Robinson would have to perform in this new Western country, showing that his strength must ever be in God.

The Rev. Hector Mackay, B.A., who has filled the pulpit since the departure of Mr. Gandier, then addressed the people. In the course of his remarks he pointed out the necessity of cordial and sympathetic co-operation on the part of the congregation with their new pastor, dwelling with special emphasis on the necessity for adequate financial support by the congregation. In elaborating this point he showed very clearly that Mr. Robinson in coming here was not influenced by financial considerations, as he received the same stipend in Montreal as he is to receive in Rossland. Again, with a view to enforcing the need of the congregation giving Mr. Robinson every encouragement in his ministry, he said they must be faithful in their attendance on his ministrations. To emphasize this fact he pointed out that Mr. Robinson was accustomed to address a weekly prayer meeting as large as the audience that witnessed his induction here. He further pointed out that the congregation could only grow as they took an active personal interest in enlisting the sympathies of others who for the present are outside of the congregation. At the same time he cautioned them not to expect the impossible. He dwelt on the necessity for mastery sermons if thinking men were to be attracted to his ministry, and that therefore they must not expect too much from him in the way of pastoral visitation. From the outset great things were expected of Mr. Robinson. The speaker here said that already he felt that their expectations were in anticipation realized. Apropos of this he recalled the remarks of his own professor of practical theology in speaking of the qualifications of a successful minister: To begin with the minister must be good looking. "Some of us," Mr. Mackay said, "would keep on writing 'half' each thinking of his own thoughts in my judgment, at least, Mr. Robinson abundantly satisfies that requisite. Nor does he lack in physical proportions; but even with these advantages it might be possible to handicap him with your expectations."

He further pointed out that their new pastor scarcely pretended to omniscience. Now and again a man is met who approximates to the attributes of deity being invisible six days in the week and incomprehensible on a part of the week. But Mr. Robinson acknowledged himself subject to the limitations of ordinary humanity. Therefore should a woman be sick or a man be dying, do not suppose he can divine the fact; go and tell him of it.

"Is any sick among you let him call for the elders of the church," is the injunction of the apostle.

Mr. Mackay then dwelt with special emphasis on the necessity for a prayerful spirit on the part of the congregation, showing how a sentence in the minister's own prayer, or a phrase in his sermon, may be instrumental in putting new life into some despairing soul, such sentence or phrase being itself even unconsciously to him the echo of their own breathings. The speaker in illustrating this point called up the graphic picture of Moses supported by Aaron and Hur on the mountain top while Israel fought with Amalek on the plain below. The Gentile yielded the battle, while Moses interceded in Israel's behalf; but when he wearied victory perched on the banners of the Anakim; then was it that Aaron and Hur brought them to uphold Moses' arms till the enemy was quite vanquished. He expressed the hope that there were Aarons and Hurs not a few in St. Andrew's church, and that the pastor's arms would be upheld till the battle for righteousness was fought out.

Rev. C. W. Hedley, M.A., the Anglican clergyman, being called upon to speak, expressed in a few graceful sentences his pleasure in making the acquaintance of a new brother worker, and extended to Mr. Robinson a cordial welcome to Rossland. A wish of the Eastern breeze, he said, would act as a healthful stimulus, and might prevent them from running too deep in Western ruts.

After singing a hymn Mr. Robinson pronounced the benediction when the congregation availed themselves of the opportunity to welcome Mr. and Mrs. Robinson. A formal reception will be tendered by the congregation on Monday evening.

## A PARTING TRIBUTE.

Mr. and Mrs. W. T. Oliver Entertained by Friends Last Evening.

Mr. and Mrs. W. T. Oliver were the guests at a complimentary dinner tendered them at the Allan house by a number of personal friends last evening. Mr. Oliver, who has been the manager of the Rossland branch of the Bank of British North America, leaves on Tuesday to assume the more important duties of manager of the London, Ont., branch of the same institution. The table was tastefully decorated with flowers. Mr. John M. Smith, of the Royal Bank of Canada, presided, the vice-chair being occupied by Mr. G. H. Bayne of the Homestake Mines, Limited. The other hosts included Mr. James Anderson, the successor of Mr. Oliver, Mr. A. H. MacNeill, K. C., and Judge Schofield.

After the elaborate menu provided by

Col. King had been disposed of reminiscences and repairs were exchanged "over the wine and walnuts." The chairman after a few appropriate remarks called upon Mr. Bayne, who in one of his characteristically eloquent efforts, paid a high tribute to the regard entertained for the honored guests. After a long business interlude he could testify to the sterling worth of Mr. Oliver for whose opinion, judgment and discernment and business acumen he entertained the highest regard. After recalling many incidents of his acquaintanceship extending over five years, he called upon Mr. Oliver. In a feeling reply, which occupied fifteen minutes, the guest, on behalf of Mrs. Oliver and himself, expressed their deep regret at leaving Rossland, the pleasant memories of which they would ever retain. He said that "any visitor with Rossland and sand on his feet" would be accorded a warm welcome if, perchance, his footsteps led to London, Ont. He, as well as his wife, would ever be mindful of their Rossland friends and the true Western hospitality which they had enjoyed.

Mr. A. L. MacNeill, introduced in a neat speech, his remarks being of a complimentary character. He said he hoped to be in the east ere long and would certainly avail himself of Mr. Oliver's invitation and would endeavor to visit him in his new home. Then Judge Schofield spoke very felicitously, expressing the regret of all classes in the community at the loss Rossland was about to sustain.

Mr. Anderson also spoke in a happy vein, and wished the guests "God speed." After a few facetious observations by Mr. John M. Smith, the vice-chairman, Mr. Bayne, concluded the proceedings by wishing Mr. and Mrs. Oliver bon voyage.

## SUFFERING FROM PARESIS.

Dr. Cornell Is Removed to the New Westminster Asylum.

Dr. C. E. Cornell, a well-known veterinary surgeon, who has practiced here for the past two years, was removed to the New Westminster asylum for the insane Wednesday. He has been suffering from mental hallucination for some time past, and his condition of late having become more serious, it was decided by the board that he should be removed to the asylum. He was beginning to develop homicidal tendencies.

The commitment was signed by Dr. Reddick and Dr. McKenzie, who, on studying his case, came to the unanimous conclusion that Dr. Cornell was suffering from a form of paresis. The demented man resisted arrest and bit Chief McPhee on the hand. He left for the coast in custody of Officer Bradshaw.

It is hoped that the doctor will regain his reason. He is suffering from the illusion that he is being persecuted by imaginary enemies and had made out a list of citizens whom he had threatened to kill. Among his papers were found a number of incoherent writings, expressing his views on the smelter question, the Coast-Kootenay railway project and other timely topics.

Dr. Cornell is about 38 years old, and after graduating from a Toronto college came west, practicing at Nelson for a number of years before locating here. He is spoken of as having been very proficient in his profession before his reason became affected.

## A VETERAN FIREMAN.

He Has Been in Active Service for the Past 32 Years.

Mr. Patrick Griffith, known as the daddy of the Portland fire department, and the oldest fireman on the Pacific coast, arrived here yesterday for the purpose of spending a part of his month's vacation. For 32 years he has been in active service and is now a member of the Portland fire department. He has seen service in Philadelphia, Chicago and Portland. The first fire which he attended as a fireman in Denver, fourteen blocks were burned. He visited the fire headquarters yesterday and expressed himself as surprised at the excellent equipment and the many efficient time-saving devices in use in the department here. It is his intention to remain in Rossland for ten days and during this time he will be entertained and shown around by the members of the Rossland fire brigade.

## DELEGATES ELECTED.

They Go to Ottawa to Urge a Bounty on Lead.

The council of the Board of Trade has selected Dr. Edwin Bowes, Mr. M. S. Logan, and Mr. Henry Roy, as the delegates to represent the board on the delegation which goes from East and West Kootenay and Yale to Ottawa for the purpose of urging upon parliament the necessity of giving a bounty of \$5 per ton on lead manufactured in Canada from ore from Canadian mines. The delegation, which will include representatives from other Boards of Trade, are to rendezvous at Kootenay Landing on April 4. It is possible that several others may be selected in Rossland. The fare for the round trip is to be \$50. Tickets can be obtained at the C.P.R. ticket office. The delegates must, when they apply for tickets present to the agents credentials from the secretary of the Board of Trade which they represent.

## RED MOUNTAIN EXTENSION.

Grading Finished as Far as It Can Be for the Present.

Mr. W. A. Jackson, engineer for the Spokane & Northern railway has been in the city to the past three days and returned yesterday to Spokane. While here he accepted the work done by Messrs. Winter, Parsons & Boomer in the way of grading for an extension of the Red Mountain railway to the War Eagle and the Black Bear. Portions of the grading are not finished as the land has to be expropriated before it can be used. The contractors have finished the work for the present and yesterday were engaged in removing their outfit. No tracks have been laid as yet, the work done by the contractors having been confined to grading.

## A Successful Smoker.

The Eagles Smoker committee wishes to submit to the friends of Brother Squires, who so kindly contributed toward the success of the recent smoker, the following statement: Tickets sold, 449; gross receipts, \$224.50; expenses, \$89.25; balance, \$135.25. A cheque for \$135.25 was last evening handed to Mr. Squires at the regular meeting of the local series of Eagles.

# HAS ORDERED THE BIG PLANT

GENERATORS AND WATER WHEELS FOR BONNINGTON.

It Will Take 250 Men a Year to Build the Dams and Install the Monster Machinery.

Mr. L. A. Campbell, manager for the West Kootenay Power & Light company, has returned from the East after an absence of two months, and makes the important announcement that he has let the contract for the machinery necessary for the extension of the plant at Bonnington Falls to 12,000 horse power. A portion of the new plant will be in operation in about ten months. The contract for furnishing the generators and transformers and switch-boards was let to the Canadian General Electric company. The Stillwell, Pierce & Smith Valve company will furnish the water wheels. The Jencks Machine company of Sherbrooke, was awarded the structural iron work. Some idea of the size of the plant may be formed when it is known that it will weigh 1,400,000 pounds and it will take 50 cars to carry it. In laying the work 2,400,000 pounds of cement will be used. This alone will make 110 carloads, so that the plant, with the cement used in the foundations and dams, will load 140 cars.

The water wheels to be put in are to be the largest of their type in use, having an output of 4,800 horse power. The generators are each of 4,000 horse power. They are almost up to the largest sized generators in use. The transformers to be used for the "stepping up" of the power from a low voltage to a higher are also the largest in use, each having an output of 1,700 horse power. When the new apparatus is in operation it is the intention to raise the voltage from 20,000, which is the voltage operating at present, to 30,000 volts. This will greatly decrease the amount of copper used and also lessen the losses.

At present a small force is employed in the preliminary work, but operations will start up full blast on the 20th of April. From then on a force of 250 men will be employed for a year in putting up the dams and in installing the plant. The first 4,000 horse power of the additional plant will be ready in ten months and the remainder within a year from date.

While in the east Mr. Campbell took up with the C.P.R. the question of the operation of the road from Trail to Rossland by electricity. "The different electrical companies were requested to get up data and outline plans by which the road could be so run and the steep grades surmounted by electric traction. There is no doubt, Mr. Campbell says, that ultimately the road between Robson and Rossland will be operated by electric power furnished by his company.

Electric power is being put to a large number of uses and the demand for it is daily increasing, and Mr. Campbell says, without a doubt it will not be a great while after the 12,000 horse power is installed before it will be called into service.

Times in the east are very brisk, he says, and manufacturers are independent on account of a majority having more orders on hand than they can fill.

## WATER RATES SCHEDULE.

City Engineer's Report, Which Was Adopted by City Council.

The new schedule of water rates was adopted by the city council as a result of the following report submitted by City Engineer W. G. Van Buskirk: "The Mayor and Council, City of Rossland. Gentlemen: I have the honor to report that I find the rates paid for water are very unequitable and I am of opinion that they should be changed at as early a date as convenient.

I find that the rates are generally reduced to a higher than warranted, but I cannot recommend that they be much reduced unless it is considered advisable to charge a portion of the operating expenses (including part of the interest and sinking fund payments) to the general fund. This would, of course, increase the general tax rate on all property in the municipality.

Under the plan at present in operation there is a charge to the general fund for supplying water for fire protection. This, of course, is wrong in principle, but is not at present unjust in practice, since the greater part of the revenue is derived from that part of the city which is assessed most heavily.

Absolutely just and correct methods of taxation are seldom arrived at in practice. Any change in the method of raising money for one branch of the municipal service necessarily involves disturbance to all other branches. Consequently radical changes should not be made without thorough consideration. Whatever changes are made should be such that in course of time the cost of a public service should be borne by the municipality as a whole, leaving the balance of the expense to be distributed among the private consumers in proportion to the quantity of water used by each.

I find that the cost of maintenance and operating the works in the year 1900 was \$13,506.20. Of this sum \$8,614.20 was paid for interest and sinking fund and \$1,022.00 was paid for temporary mains. The net cost of operating and maintenance was, therefore, \$3,870.00.

I am of opinion that it will be necessary to expend the balance of the money voted. Consequently the interest charge will be increased in future. I can give no assurance that the cost of operating and maintenance will be reduced, as much work will be required to be done on the same pipe line, dams, etc.

The amount that it will be necessary to raise this year will, therefore, be: Interest and sinking fund on \$150,000.....\$11,614.20 Maintenance and operating..... 3,870.00 Total to be raised.....\$15,484.20

I find that the total amount raised in 1900 was \$14,126.20. A portion of this was due in 1899, but on the other hand a large number of services were put in during the summer and rates were collected for a part of the year only. It is, therefore, probable that the rates at present in force would produce an amount in excess of the amount required for this year.

I have carefully examined the rates at present in force, and submit herewith a schedule of rates which I think would be equitable. I recommend that the discounts on rates paid in advance be as follows:

For a payment of one month rate in advance 25 per cent.  
For a payment of three months rate in advance 30 per cent.  
For a payment of six months rate in advance 35 per cent.

The schedule of rates and rents is attached hereto.  
I have the honor to be, gentlemen, your obedient servant,  
W. G. VAN BUSKIRK,  
City Engineer of the City, February 16, 1901.

Then follows the schedule, which will be found in another column.

## BOUND FOR MANILA.

Mr. Eber C. Smith Reaches Yokohama on His Long Voyage.

Judge W. C. Morris, district attorney, Republic, Wash., who is in town, yesterday received the following communication on a post card, dated Yokohama, Japan, March 3, from Mr. Eber C. Smith, formerly owner of the Rossland Record, and more recently a practicing attorney at Republic: "Arrived here this morning O.K., but had a rough voyage. Will stop several days in Kobe, Japan, and go to Hongkong. Expect to be in Manila about the 20th of this month. Regards to all inquiring friends. Will write you fully from Manila."

Before leaving for the Orient Mr. Smith informed his friends that he had three different plans in view after reaching Manila. He would preferably run a newspaper, and failing that, he would teach, or, if possible, practice law or teaching school. All members of the American bar are admitted to practice in the colony without the formality of passing a qualifying examination.

When quizzed and assured that if he ran a newspaper his expulsion would follow, he laughingly replied that he had "learned a thing or two by experience."

## BOUNDARY BOOMING.

Mining Active and Considerable Prospect of Railway Building.

Mr. Louis Blue has returned from the Boundary country, where he has been for several days looking after his lumber business. He says that times are being better there, with the increase that is being made in the ore shipments, and that there will ensue a considerable increase in activity in mining as soon as the dry season opens. The people there are all talking railways, and there promises to be considerable activity in this direction there. The road to Republic is certain to be constructed. If the Great Northern does not build this line, Mr. Jay P. Graves, the managing director of the Granby Consolidated Mining and Smelting company, says his company will undertake to construct it. Then it is confidently anticipated that Messrs. Mann & Mackenzie and Mr. James J. Hill will be granted the charter for the construction of the V. V. & E., and thus give the people a short line to the coast. Even if Mann & Mackenzie and Mr. Hill do not secure the charter, it will be given to the C.P.R. or some other company, and it is a foregone conclusion that work upon the railway will be started and considerable work will be done during the present season. Moreover, Grand Forks, Minn., and Midway all seem to be sharing in the prosperity which the Boundary country is enjoying.

## KEEP OFF THE TRACKS.

School Children Who Daily Endanger Their Lives.

Children going to and coming from school use the tracks of the Red Mountain railway. This is particularly the case with those who reside on Nickel Plate flat. They walk along the track and over the bridge in preference to travelling by the streets. With the increase in the traffic there is considerable switching done and of late there have been several accidents. In some instances trains have been stopped while on the bridge so that children might not be run down. Agent H. P. Brown has called the attention of the police to the matter and thinks that the principal and teachers of the public schools, as well as the parents, should warn the children to keep off the tracks or a fatal accident is certain to ensue.

## Returned from the War.

Lieut. Jack Ickie, of the Strathcona Horse, has arrived in Rossland from South Africa. He made an enviable record for dash, bravery and generally efficient service during the year of service in South Africa. He participated in a score of engagements and occupied with a sword. Indeed, he made such a brilliant record that he has been recommended to the Distinguished Service Order, a reward which is much sought after.

## To Be Crown Granted.

Mr. Kenneth L. Burnet, P. L. S., left last night for Fort Steele, where he goes for the purpose of surveying for a crown grant six properties owned by the Colwell Mines, Limited. The control of this company is owned by Mr. Reddick and other residents of Rossland. Considerable work has been done upon the claims and there is a good showing of ore of a pay grade. Mr. Burnet says it will take him ten days to complete the survey.

## Visiting the City.

Mr. A. Finlayson, a large timber dealer and land owner of Western Ontario and a nephew of Dr. Sinclair of this city is in Rossland on a visit and is the guest of the doctor. Mr. Finlayson has been on a trip through Oregon and Washington examining timber limits in those states. He is on his way home and called here to see his uncle. He will leave for the East on Monday. He purposes visiting Alberta to enquire into the conditions of ranching in that territory with a view to investment.

## Blown to Atoms.

The old idea that the body sometimes needs a powerful, drastic, purgative pill has been exploded; for Dr. King's New Life Pills, which are perfectly harmless, gently stimulate liver and bowels to expel poisonous matter, cleanse the system and the fame of Bucklen's Arnica Salve, as the best in the world, extends round the earth. It is the one perfect healer of Cuts, Corns, Burns, Bruises, Sores, Scalds, Boils, Ulcers, Felons, Aches, Pains and all Skin Eruptions. Only infallible Pile cure. 25c a box at T. R. Morrow and Goodere Bros.

## Leaves for Montreal.

Mr. R. H. Kirkpatrick, who for a year past has been the traveling representative of the Ingersoll Sergeant Machinery Company and the James Cooper Manufacturing Company, leaves on Monday for the purpose of accepting the position of outside man with the head office of the Ingersoll Sergeant Co. in Montreal. Mr. Kirkpatrick has made a large number of friends during his stay in this section and they will regret to see him leave here, but at the same time they are pleased to see so worthy and energetic a young man promoted.

## Tennis Club Reorganized.

A large and enthusiastic meeting of the Rossland Tennis club was held at Mr. Marsh's residence on Friday night, when the following officers were elected for the ensuing year: Honorary president, Hon. C. H. Mackintosh; president, J. M. Smith; vice-president, E. Long; secretary, J. H. Watson; committee, Messrs. Roth, Walker, Severs, and Kewick. The financial statement shows a balance on hand of \$59. A motion was passed that the membership should be limited to fifty playing members for the present courts will not comfortably accommodate more than this number.

## Suffering Women.

A MESSAGE OF HOPE TO THE WEAK AND DISTRESSED.

A Grateful Woman Tells of Her Release from the Agonies That Afflict Her Sex After Three Doctors Had Failed to Help Her.

The amount of suffering borne by women throughout the country can never be estimated. Silently, almost hopelessly, they endure from day to day afflictions that can only fall to the lot of women. The following story of one suffering and release of Mrs. Charles Hoeg of Southamptom, N.S., ought to bring hope and health and happiness to other sufferers. Mrs. Hoeg says: "For nine out of the thirty-two years of my life I have suffered as no woman, unless she has been similarly afflicted, can imagine. I could suffer and yet have lived. Three weeks out of four I would be unable to move about and, indeed, at no time was really fit to attend to my household duties. I consulted physicians—three or four of the most skillful doctors in the county of Cumberland at different times had charge of my case. These all agreed in their diagnosis, but the treatment varied; and while at times I would experience some relief, at no time was there any hope given me of a permanent cure. Alas! a night when I went to bed I would have been glad if death had come before morning. I never had much faith in proprietary medicines, but at one time I took a half dozen bottles of a blood-making compound that was highly recommended. This, like everything else, failed to help me. There seemed to be not a particle of blood in my body. My face was absolutely colorless, and my appetite almost entirely deserted me. I often saw in the newspapers letters testifying to the merits of Dr. Williams' Pink Pills, but nine years of suffering and discouragement had made me too skeptical to see any hope of relief, when doctors had failed across the story of a cure near home—that of Mr. Moses Ross, of Rodney. I knew that at one time he had been regarded as a hopeless consumptive, and his cure through Dr. Williams' Pink Pills determined me to try them. I had not taken two boxes before I began to feel better, and grew confident of a cure. I kept on taking the pills, all the time feeling new blood in my veins, activity returning to my limbs, and the feeling of depression gradually wearing away. To many women it may seem incredible that the mere making of new blood in my veins could restore to a healthy condition misplaced internal organs, but this has been my happy experience. My pains have all left me, and I am now as healthy a woman as there is in this place. This health I owe to Dr. Williams' Pink Pills, which have rescued me from a life of suffering, if not from the grave."

Dr. Williams' Pink Pills are especially valuable to women. They build up the blood, restore the nerves, and eradicate those troubles which make the lives of so many women, old and young, a burden. Filippation of the heart, nervous headaches and nervous prostration speedily yield to this wonderful medicine. These pills are sold only in boxes, the trade mark and wrapper printed in red ink, at 50 cents a box, or six boxes for \$2.50, and may be had of druggists, or direct by mail from Dr. Williams' Medicine Company, Brockville, Ont.

## CATARH

## SUFFERERS

## READ!

O. G. Archer of Brewer, Maine, says: "I have had catarrh for several years. Water would run from my eyes and nose for days at a time. About four months ago I was induced to try Dr. Agnew's Catarrhal Powder, and since using the wonderful remedy I have not had an attack. It relieves in 10 minutes. 10. Sold by Goodere Bros.

## CERTIFICATE OF IMPROVEMENTS.

Notice.

Burlington mineral claim, situate in the Trail Creek mining division of West Kootenay district. Where located: Between Sophie mountain and O. K. mountain on Ivanhoe ridge.

Take notice that I, F. A. Wilkin, acting as agent for Robert Lamont, free miner's certificate No. B 30,868, intend, sixty days from the date hereof, to apply to the mining recorder for a certificate of improvements, for the purpose of obtaining a crown grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such certificate of improvements. Dated this 12th day of March, A.D. 1901.

F. A. WILKIN.

## CERTIFICATE OF IMPROVEMENT.

Notice.

Esquimalt Fraction mineral claim, situate in the Trail Creek mining division of West Kootenay district. Where located: Adjoining the Palo Alto mineral claim in the south belt.

Take notice that I, Kenneth L. Burnet (agent for Ernest William Liljegan, F. M. C. No. B 13,610, Louis Blue, F. M. C. No. B 30,801, Swan Nelson, F. M. C. No. 31,032 and J. P. Travers, F. M. C. No. B 41,205) free miner's certificate No. B 31,110, intend, sixty days from the date hereof, to apply to the Mining Recorder for a certificate of improvements, for the purpose of obtaining a crown grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such certificate of improvements. Dated this seventh day of March, A. D. 1901.

KENNETH L. BURNET

## CERTIFICATE OF IMPROVEMENTS.

Notice.

Latest Out mineral claim, situate in the Trail Creek Mining Division of Kootenay district. Where located: Adjoining the Nest Egg mineral claim.

Take notice that I, J. A. Kirk, acting as agent for John Powers, Free Miner's Certificate No. B 30,665, intend, sixty days from the date hereof, to apply to the mining recorder for a certificate of improvements, for the purpose of obtaining a crown grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such certificate of improvements. Dated this 10th day of January, A. D. 1901.

J. A. KIRK

## CERTIFICATE OF IMPROVEMENTS.

Notice.

City Fracton mineral claim, situate in the Trail Creek mining division of West Kootenay district. Where located: In the city of Rossland.

Take notice that I, Kenneth L. Burnet, (agent for Louis Linemann, F.M.C. No. B 31033, and Charles Schmidt, F.M.C. No. B 31039), Free Miner's Certificate No. B 31,110, intend, sixty days from the date hereof, to apply to the mining recorder for a certificate of improvements, for the purpose of obtaining a crown grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such certificate of improvements. Dated this 28th day of March, A. D. 1901.

KENNETH L. BURNET.

## NOTICE-LOST CERTIFICATES.

Notice has been served on the Gold Bug Mining Company and the St. Mary's Mining Company that certificates of stock in each company issued in the name of Broadhurst has been lost, therefore said certificates have been ordered cancelled on the books of each company. Signed, BROADHURST.
