

"YOUR HEALTH IS— —YOUR WEALTH"

DO NOT TRIFLE WITH THE HEALTH OF YOUR FAMILY

THE BROOM NO LONGER IS GOOD FOR ANYTHING BUT FUEL. INSTEAD OF CLEANING, IT JUST STIRS DIRT UP INTO THE AIR. THE DIRT NATURALLY SETTLES BACK ON THE FLOOR OR FURNITURE, THEN YOU MUST "DUST"—A TERRIBLE STRAINING PROCESS.

THEN, TOO, THIS DIRT YOU STIR INTO THE AIR IS VERY DANGEROUS. IT IS LADEN WITH DISEASE GERMS AND YOU AND YOUR TOTS BREATHE THEM. THINK OF THAT!

THINK WHAT IT MEANS to the housewife to have the Cleaner run over her floors once or twice a week instead of sweeping them with a broom or carpet sweeper. Realize how absolutely clean she will keep every inch of her carpets with less effort than the old efforts require, dispensing forever with house-cleaning days, keeping her home clean ALL THE TIME, just the same as it was right after house-cleaning time of yore.

Men's Work Has Been Lightened and Systematized by Means of Labor-Saving Machinery Why Not a Woman's?

Dr. Kellogg, President of the Battle Creek Sanitarium in One of His Lectures, Stated:

"Excessive loss of life of infants, aged from three months to four years, is caused mainly by the mother permitting the child to play on a carpeted floor, filled with street dirt, which contains millions of microbes that are brought in on the feet and ground into the carpet. It is criminal to let a child play on a carpet unless it has been 'vacuum' cleaned."

Prof Rodugres, United States Expert Consulting Engineer, After Thoroughly Examining Our Machine Says:

"It is the first hand-power cleaner that I have examined that pleases me. The principal is mechanically correct; the construction is based on exact scientific principles. It not only removes all dirt and dust, but, on account of the excessive air displacement and continuous suction, removes the dirt and filth from under as well as from the top of the carpet with less effort than any other vacuum cleaner I have ever examined. In fact, it is the most complete dirt eater I have ever seen. The material used and the construction are both so nearly perfect that it is practically indestructible. If you will think for a minute, you will realize that a number of diseases are caused by germs and microbes in the filth brought into the house by dogs, cats, rats, flies, and the filth off your feet. Among the diseases that can be mentioned are diphtheria, typhoid fever, smallpox, scarlet fever, measles, whooping cough, grippe, spinal meningitis, pneumonia, erysipelas, cholera, yellow fever, malarial fever, tuberculosis, tonsillitis, cholera infantum, and a number of others. Were it possible to show you by means of the magnifying glass the filth and germs that are lodged in your carpets and rugs, you should be so frightened that you would immediately order a vacuum cleaner or abandon your carpets and rugs. Do not trifle with the health of your family!"

If you have no vacuum cleaner, in justice to your family's health, have a demonstrator call to-day. It will cost you nothing, and you will have a sanitary home. It is a health saver, labor saver, and money saver. It can be used every day, and does not wear the nap off the carpet, like ordinary sweeping; nothing to get out of order, runs quietly, a child can run it, and will last for years.

J. M. Werzke, A.M., M.D., the world's recognized authority on bacteriology, in a recent lecture, said:

"If all carpets and rugs were kept thoroughly cleaned, and all windows and doors thoroughly screened, our mortality from infectious diseases would be reduced 90 per cent; in fact, all Municipalities should enact laws to compel each householder to adopt and use a vacuum cleaner."

The Brantford Daily Courier has made arrangements to secure a large number of 1913 WIRELESS VACUUM CLEANERS. These cleaners are equipped with three bellows which are operated from backward and forward motion of the machine. If you have no Vacuum Cleaner, order one to-day. For free demonstration telephone the Courier Office. Both Phones 139.

Dr. Roche

Says Immigration to the Cities is by No Means Desirable.

[Canadian Press Despatch] OTTAWA, July 25.—Hon. Dr. Roche, Minister of the Interior, stated to the Canadian Press to-day that though there is much wisdom in the part of the Dominion trades and labor congress in warning prospective emigrants in Great Britain against coming to the cities of Canada unless they have positions waiting for them, he believes that there is still a demand for farm laborers all over the country. Dr. Roche emphasized that every immigration agent in Great Britain had received instructions to rather discourage any emigrants not having positions awaiting them from coming to the cities of this country. In all the literature published by the department of the interior and circulated freely in the old country, the following warning is printed in bold type and headed "Important." "Farmers, farm laborers, and female domestic servants are the only people whom the Canadian immigration department advises to go to Canada. All others should get definite assurance of employment before leaving home, and have money enough to support them for a time in case of disappointment."

Fatally Crushed.

LONDON, Ont., July 25.—Arthur Bird, an Englishman, who arrived here two weeks ago from England was probably fatally crushed this morning while at work in Leonard's foundry. He was working beneath a boiler when the crane broke. He was hurried to the hospital. He has a wife and three children in England, whom he intended to bring out when he earned enough money for the purpose.

NEW ZEALAND'S GIFT TO EMPIRE IS AT OUR DISPOSAL

Gray Battle Cruiser I Anchor for First Time in a Canadian Port

A WONDERFUL SIGHT

Ministers Out to Wel Officers—Coast Cities Give Reception.

VICTORIA, B.C., July 26.—gray ship on a dull gray sea, the battle cruiser Zealand reached Esquimalt day after a smart run from H. She will leave here to-day to cover to remain a week. Incidentally the whole entertainment program Vancouver had to be changed as she arrived, for her officers declared that they wanted the first days for cleaning up and coal declared that they had been with luncheons and dances in cities of the Antipodes, where has just come.

The battleship first hove in the straits this morning at 10 o'clock. Within an hour she anchored down in Esquimalt her boats and steam cutter over side and Captain Halsey receiving calls from Captain H. M. S. Shearwater and Algonquin.

Pathetic Contrast

H. M. S. New Zealand, the New Zealand to the empire, anchor in a Canadian port. Two lengths away was the Rainbow her guns dismantled, her bridge and a skeleton crew left to keep up the paint work. The arrival of H. M. S. New Zealand was in accordance with navy traditions. She was into the harbor by a fleet of craft. The Princess Charlotte out with over a thousand sight and a band, and led the way fleet, which sailed from Victoria to greet the New Zealand.

The Quadra took out a large of Government officials. Hon. Hazen, minister of mines, Richard McBride, premier, H. I. Houser and members of the provincial Government, embarked steamer, which was gaily decorated with bunting.

"Apparently you Vancouver do not expect us to do any aboard, or eat aboard, on board," commented Captain as he laughingly scanned the spiring schedule of luncheons then that he intimated that Tuesday would have to be tied to ship's work.

The first on board was Hon. Hazen of the Rainbow. After Captain Halsey came ashore paid a call on Lieutenant-G. Patterson, and about 3 o'clock call was returned, the premier, Hon. Mr. Hazen also going. The officers were entertained at the Empress Hotel at 7 last night, after which a publication was held at the executive meetings.

Flies Across Alps. BASEL, Switzerland, July 26.—other flight across the Alps to-day by the French aviator Bider, who flew from Milan to this city, a distance of 4 miles in three hours and 15 minutes. He made one brief descent to replenish his fuel, the greatest height attained by the plane was 10,000 feet.
