

The Silver Lining to the Clouds  
 Humanity's Gift to the People of Brantford

Located on a Beautiful Site in Mount Hope Cemetery

Brantford is to to Have the Grandest and Most Beautiful

**COMMUNITY MAUSOLEUM**

To be Found in the Whole Dominion

Opportunity for the Masses to Obtain the Privileges of Above Ground Entombment at No Greater Cost than for Ordinary Earth Burial

The present high state of civilization demands for the people a more humane and sanitary method of taking care of the dead, than that found in earth burial. Kings, princes, potentates, the favored rich and the honored heroes of all ages have been entombed above ground as a last mark of respect by the living. Modern science now gives to the masses this same privilege, for with the **COMMUNITY MAUSOLEUM** as proposed for Brantford a large number of bodies may, for a nominal charge, be entombed within the walls of a single building, which for beauty, grandeur and sanitary features has never been surpassed.

**A Practical Masoleum**

However, must be more than a palatial monument for its occupants. It must be clean, dry and sanitary at all times, and to accomplish this result to perfection requires a peculiar method of construction, which is a complex science in itself. By a complete system of dry air ventilation, perfect sanitation is obtained, and a body placed and sealed in its individual compartment will remain there forever in perfect condition, retaining its human form, free from decay, decomposition and putrefaction. Within this mighty structure, a monument, which for magnificence, dignity and durability, cannot be surpassed, fathers, mothers, sisters, brothers, husbands and wives can lie side by side through the long eternal sleep, each preserving the human form, separated only by the walls of their chambers, calm, peaceful and a source of constant satisfaction to those of the living who know that they have done the best thing possible for their loved ones, and are themselves saved from the pangs of sorrow incident to the thought of the horrible consequence of earthly burial.

**Over 200 Cities and Towns**

In the United States and Canada have erected community mausoleums within the past five years, these buildings containing nearly 50,000 crypts or compartments, and while Brantford is, therefore, far from being first in adopting this progressive idea, the building proposed for this city is without doubt one of the most imposing structures of its kind in the Dominion. The style of architecture is classical, grand, solemn and imposing. The exterior is Granite, massive and indestructible, and durable throughout all time. The interior is one vast expanse of polished marble, beautiful beyond description and everlasting. Massive bronze doors and cathedral glass, set in metal for the windows, make the structure particularly attractive to the eye, while the whole combination offers a building as beautiful, imposing and everlasting as is possible for human ingenuity to construct. The Brantford Mausoleum will be a delight and inspiration to every loyal citizen.

**Limited Number of Crypts**

Owing to the limited number of crypts contemplated for the proposed Mausoleum, it will be well for those interested to so signify at once, as it is highly probable that the allotted number will be subscribed within a few days.

The plans and specifications have already been approved by the city council, and the contract will be awarded as soon as subscriptions are in, and the Company will shortly begin building.

It is estimated that the building will be completed and ready for occupancy within the year.

**Cost Within Reach of All**

The proposed Mausoleum will be erected entirely by popular subscription, and the building will contain approximately 312 crypts or compartments, the exact number, however to be determined by the demand. Prices for crypts will vary according to location, but all will be moderate, and compare favorably with the cost of an ordinary ground burial. The entire project is under the supervision of the city officials of the City of Brantford, Ont. The building will be erected under the Patented Construction of the American Mausoleum Company, for thirty years the leading Mortuary Architects of the United States.

**Support the Movement**

This is one of the most progressive movements ever presented to the people of Brantford, and it is the duty of every citizen to give the matter his careful consideration and support. Here is your opportunity to provide now a palace for your loved ones to sleep through eternity within this mighty structure, with the knowledge that they lie there secure against the ravages of time and the elements, each in his individual chamber, clean, dry and sanitary, and retaining the human form you loved so well, and the peaceful satisfaction in the thought that when you, too, shall have answered the great call, the living will place you in your chamber side by side with the others, united again, even in death.

**No Money Required Until Building is Started**

Building will not be started until sufficient subscriptions have been obtained. Building is Bonded by the Canadian Surety Company. After the building is completed it will be substantially endowed and thereafter under the complete control of the City of Brantford.
