Deputy of the Minister of the Interior

## Fertilizer

It is hard to make most of the farmers realize that there is a great possibility of them not being able to get what commercial fertilizer they will require this spring. But never the less it is an absolute fact and the wise farmer will take home his fertilizer soon. As if you wait till spring you may not be able to get any. As even now it is very hard to get what you want as transportation is so bad we have only a few more cars of Basic Slag to sell.

## THE JEWS AT WAR

Sixteen thousand Jews have gone into the ranks of the Allied armies from Great Britain alone three have already won the Victoria Cross. Five Jews are in the British cabinet and one holds the position of lord chief justice. In France more than ten thousand Jews are in the ranks and five hold important cabinet positions. In Belgium, fifteen thousand Jews are suffering unto death; while the ambassador to the court of St. James from Belgium is a Jew. In Germany 3,167 German-Jews have won the Iron Cross. In Austria-Hungary it is estimated that 180,000 Jews are in the ranks while six Jews are generals.

### The Work of Coughing

If you cough once every fifteen minutes for ten hours you expend energy equivalent to two hundred and fifty units of heat which is equivalent to the nourishment contained in three eggs or two glasses of milk. So says a German who has specialized on the waste of energy in coughing.

At a normal rate we expel air from the chest at the rate of four feet per second but in violent coughing we expel it at the rate of three hundred feet a second. Thus a persistent cough not only weakens the constitution according to the same authority. Such weighty statistics lead to a reiteration of the oft-repeated injunction "never neglect a cough."—Popular Science Monthly.

A German submarine sank five Dutch fishing vessels, eight miles from the Dutch coast between Scheffeningen and Ymuiden.

## Watch For German Money

German agents and German money have caused the partial collapse of Russia. They are now engaging in trying to paralyze France and the United States, and there are many indications of their presence in Canada. Millions of dollars of German money have been spent, and are still being spent, to arouse hostility towards Great Britain in many American States. Similar expenditures will undoubtedly be made in Canada during the next few months. The duty of every loyal Canadian is to watch for evidences of such outlays and to report all suspicious indications to the police or the military authorities.

A Sydney motorist charged with exceeding the speed limit in Glace Bay was fined \$25 and costs by Stipendiary Magistrate A. B. McGillivray, of Glace Bay. It is alleged that not only did the defendant exceed the speed limit but he also kept a couple of Glace Bay policemen on the jump for a minute or two in their efforts to get out of his way that is the way to "soak" the speeders.

### Always a Reason.

The price of honey has gone up. It's the war of course. The vibration in air caused by the firing of the big guns in Europe caused the bees in America to treble so that they spill most of the honey in flight from the blossom to the hive.—Albany Herald.

A despatch from Petrograd says that Russian women have offered to train themselves as crews for battleships, and the Minister of the Navy, Kerensky, has accepted their offer.

## One in Thirty Killed in Warfare

Boston, July 31—Roger Babson, the eminent statistician of Wellesley, has gathered the following figures from a close study of war casualties:

Fourteen men out of every fifteen so far have been safe. Under present conditions, where man power is being saved no more than one in thirty is killed.

Only one in 500 loses a limb—a chance no greater than in hazardous conditions at home.

Mr. Babson's conclusions are based on the mortality figures of the French army for the full three years of war. Attention is called to the fact that present fighting is not claiming anywhere near the number of dead recorded for the first two years.

He says: Most of the wounds sustained in the trenches are clean cut and of a nature that a few weeks in the hospital makes the subject as fit as ever. But 300,000 French soldiers have been discharged on account of wounds during the three years of the war.

"Most of the wounds received in the trenches are on top of the head, simply scalp wounds. Practically speaking, a wound is either fatal or slight, with but a few in between these two extremes."

### TO BUSY TO EAT

Once upon a time there was a man too busy to eat.

In the morning he swallowed a cupful of coffee and smeared half a soft boiled egg on his mustache where he could lick it off on his way downtown in the cars.

At noon he allowed himself fifteen minutes for luncheon, and as it takes the average waiter longer than to walk to the kitchen and back, the fifteen minutes was about all the nourishment he got.

He usually got home late for dinner in the evening, because he hated to tear himself away from his place of business so long as there was the slightest possibility of making another nickel before he closed down his desk, and when he did sit down to the table he devoured the stock market reports in the evening paper instead of digging into the fodder.

He couldn't see any sense in wasting his time on food while there was so much money in the world that did not belong to him.

At the age of forty he died of what the doctors called acute indigestion but I know better. It was just plain starvation.

Anyhow, he left his family well provided for.

The moral is: Perhaps it was all for the best.

**Boston Advertiser**—The best friends of Sir Wilfrid Laurier are begging him to call off his politics and join with Borden in a coalition ministry for the unflinching prosecution of the war. It is the counsel of wisdom. Any other course will leave his party and his province stranded. Not only Laurier, but all Canadians should call off their politics and join "for the unflinching prosecution of the war."

## Willing, But Not Anxious

Ministers sometimes observe some curious phases of human nature among persons soliciting their services in the performance of a marriage ceremony.

"Will you take this woman for your wedded wife?" asked a clergyman of a would be bridegroom.

"Yes; I'll take her," remarked the man in a half dejected tone, "but," he added, with surprising frankness, "I'd rather it were her sister."

### The Bunco Game

You can't fool all the people all the time.

"You don't need to. If you can fool half of the people some of the time you can make a good living."—Exchange.

A \$350,000,000 crop from vacant and home gardens is the way the people of the United States responded to the early spring call of the National Emergency Food Garden Commission.

The Duke of Connaught, uncle of King George, has arrived at the Italian front, where he was received by King Victor Emmanuel, who accompanied him on a visit to the advanced positions.
