THE LEGISLATURE

The Killing of Deer in the Water to Be Permitted.

A RECONSTRUCTED GAME LAW.

Hon. Mr. Gibson Says Moose Are Plentiful and Suggests May Have a Week at Them in 1900-Brewers' and Railways' Objections to the Game Act.

Toronto, March 7.—The announcement made by Hon. Mr. Gibson yesterday afternoon that it is his intention to introduce a bill this session giving effect to the recommendation of the fish and game commission for the repeal of the section of the game act prohibiting the shooting of deer in the water will be welcome news to many sportsmen.

Amongst the measures that received a second reading in the House yesterday were: Mr. Foy's, respecting the Toronto Hotel Company; Mr. Crawford's, respecting Knox Church, Toronto; Mr. Crawford's, to incorporate the Toronto Western Hospital; Mr. Pardo's, to authorize and confirm a deed of agreement between the Toronto General Trusts Company and the Trusts Corporation of Ontario, and to unite the companies under the name of The Toronto General Trusts Corporation.

In reply to Mr. J. S. Duff (West Simcoe), Hon. Mr. Dryden said the Department of Agriculture authorized the publication of the report entitled "The Newer Districts of Ontario." The cost of publication of 1,000 copies was \$100. Mr. Duff said he had received \$400 for services rendered in connection with the compilation.

Hon. J. T. Garow—Bill for an act respecting the closure and sale of cemeteries by municipalities.

Hon. J. T. Garow—Bill for an act to amend the Municipal Act respecting local improvement.

Hon. J. T. Garow—Bill for an act to amend the law respecting the liabilities of municipalities.

Hon. J. T. Garow—Bill for an act to provide that priority wages in an insolvent estate shall be paid within one month by the assignee or liquidator.

Shooting Deer While in the Water. In reply to Dr. Payne (East Toronto), Hon. Mr. Gibson said that 3,000 circulars were sent out from the office of the chief game warden, soliciting answers to a series of questions as to shooting deer while in the water. All who had taken out licenses to shoot deer in 1897 were thus notified. The replies to 400 or 600 replies were received, and the answers given were very conflicting. The committee on the subject of the game act, and having in view the strong views held by a large number of people, had come to the conclusion that the prohibition of shooting deer while in water should be repealed. It is satisfactory to know that the revenue department receives from the deer shooting license more than the amount expended in the administration of the law. Much had been done in the past to enforce the law more vigorously, but the department has been put in operation a considerable increase in the number of deer. Some years ago there was a large number of deer, but these had vanished. So great had been the increase of deer in the eastern section of the province that the hunters there might be an open season for moose in 1900. Other fur-bearing animals were also increasing, and the operation of the game laws. A bill was in preparation by the Government which would be more or less a revision of the present law, and the commissioners thought the act might be usefully amended.

Protection of Insectivorous Birds. Dr. Payne secured an order of the House for a return of permits granted during 1898 to collectors of birds, nests and eggs, under the provisions of the act of 1889, for the protection of insectivorous and other birds.

Hon. Mr. Gibson said the number of permits had been greatly restricted, in accordance with the representations of the game commissioners. There was no doubt that the permits for scientific purposes had been greatly reduced.

Hon. Mr. Harcourt was interviewed yesterday afternoon by Messrs. Kugene O'Keefe and R. B. Taylor, of the Ontario Fish and Game Commission. Mr. Harcourt said that the number of permits had been greatly restricted, in accordance with the representations of the game commissioners. There was no doubt that the permits for scientific purposes had been greatly reduced.

RAILWAY ACCIDENTS.

Collision of a Train Running 80 Miles an Hour.

A RUNNING ENGINE EXPLODES.

Dreadful Occurrence on the Manitoba and Northwestern Railway Near Milwaukee—Engineer and Fireman Killed—Seven People Killed by a Russian Explosion on a Russian Railway.

Buffalo, March 7.—Lack shove train No. 10, of the Chicago, New York and Boston special, while running at a speed of 80 miles an hour, struck a switch engine at Westfield, N. Y., last night, just before midnight. Both engineer and fireman of the light engine were so badly injured that they were pronounced dead on arrival at the hospital.

St. Petersburg, March 7.—Last evening a carbox of benzol exploded in a third class railway carriage on the line to Dvinsk, south of St. Petersburg. The carriage was burned, six women and one man were killed and 18 others were injured.

Winnipeg, March 7.—A dreadful accident occurred near Milwood station on the Manitoba and Northwestern Railway yesterday morning. The engine, a 4-6-0, W. Hill and Fireman Donlon were instantly killed. At the crossing of the Asiniboine there is a very steep grade and it was while climbing this about 6 o'clock that the engine slipped and the boiler struck taking the engine right off the track.

None of the passengers were injured. The company's officials as yet cannot explain the cause of the explosion.

Mr. W. Hill, the deceased engineer, was one of the most highly respected employees of the company. Although but 38 years old, he had been in the company for nearly an engineer for the past ten years. He formerly came from Oshawa, Ont.

Funeral of Lord Herschell. A Message from the Queen Remains in Washington. The Faber at New York Ready to Receive Them.

Washington, March 7.—The body of Lord Herschell was taken to New York on the midnight train of the Pennsylvania Railroad last night, when it is to be taken to England on the British cruiser Talbot. Messrs. Cartwright and Williamson, the secretaries, accompanied the remains.

Message from the Queen. The following message from the Queen Victoria to the President has been received at the Executive Mansion: Windsor, March 6.—I thank you sincerely and the American nation for the honors and the friendly sympathy shown to my country in its bereavement. Victoria, R. I.

The Talbot at New York. New York, March 7.—The third-class British cruiser Talbot, commanded by Captain Gambell, last night arrived from Bermuda and anchored in the Upper Bay. The Talbot was ordered here to transport the body of Lord Herschell, first south of Liberty Island, by the cutter.

As soon as the cruiser got her anchor the Manhattan came alongside, and Percy Sanderson, the British consul general at New York, boarded the cruiser. He was received at the side of the ship by Captain Gambell. In the meantime the guns of the cruiser began to boom for the international salute, which was answered by the saluting battery on Governor's Island.

The Talbot will take on coal and water this morning, and leave port about 11 o'clock.

The remains of the late Lord Herschell will arrive over the Pennsylvania road at 6.30 this morning. A room has been prepared on board the cruiser to receive the remains.

Fire Salts of 17 Guns. Washington, March 7.—After conference with the Secretary of State, Secretary Alger has given orders that Fort Wadsworth at the entrance to New York harbor shall fire a salute of 17 guns when the British cruiser Talbot passes out of the harbor with the remains of the late Lord Herschell.

PURELY PERSONAL. The Queen of Belgium is gravely ill. Her Majesty is suffering from bronchial pneumonia.

It is reported that Lieutenant-Governor Forget of the Northwest Territories is a very sick man at Regina, and his friends are apprehensive.

The announcement is made in the London newspapers that the Senate of Glasgow University has resolved to confer the degree of LL.D. upon Sir Henry Irving.

The new Italian priest-composer, Porro, is the hero of the hour at Paris. Porro declares that all his talent shall be devoted to sacred music. He has refused offers for an opera.

The mysterious disappearance of A. E. Beach is still the sensational topic at Dartmouth. An agitation is on foot to petition the Attorney-General for the enquiry into Beach's strange disappearance.

JOSEPHINE KIPLING DEAD.

The Author's Eldest Daughter Died on Monday, But He Has Not Been Told.

Mr. Kipling Improving.

New York, March 7.—Josephine Kipling, the 6-year-old daughter of Rudyard Kipling, and the eldest of his three children, died shortly after 6 o'clock yesterday morning from pneumonia.

The child's death took place at the home of Miss Julia DeForest in this city. Miss DeForest is a friend of the Kiplings, and Josephine had been taken to her home so she could be near, but apart from her father.

The girl became ill the day after Kipling took to his bed. The doctors soon discovered that the disease was the same as that which had brought her father to death's door. She had all the attention and all the skill employed to save the father's life, but it was not enough to withstand the onslaughts of the disease, and while her father was slowly winning his life, Josephine died.

Kipling had paid daily visits to the girl, and it was for her in this multiplicity of her sorrows that she died.

It was generally believed that Mr. Kipling's condition was such that the physicians would not tell him until he should be stronger of the loss he has sustained. Elsie, the younger daughter of the author, who is sick in an out of the way apartment in the hotel, was doing nicely, according to the morning's report of Mr. Doubleday.

Regret in London. London, March 7.—Deep regret is expressed here on all sides at the death of Josephine Kipling, who is announced to have succumbed to pneumonia in New York, and since hopes are expressed that the shock and bereavement will not retard the progress of the father or seriously affect the health of his mother, already wearied with nursing.

Telegram From German Emperor. New York, March 7.—Mr. Kipling has received the following telegram from Emperor William of Germany: "As an enthusiastic admirer of the unrivalled looks of your husband, I am most anxious for news about his health. God grant that he may be spared to you and to all who are dear to him, and the world's admiration for his work, which has sung about the deeds of our great common race."

Mr. Kipling Had a Good Day. New York, March 7.—Mr. Doubleday at 7.30 o'clock last night said: "Mr. Kipling has had a splendid day. He is beginning gradually to take nourishment of a more substantial kind. He has not been told of his daughter's death."

Sympathy in England. London, March 7.—The morning papers almost universally express sympathy for the bereavement that has befallen the Kipling family through the death of Josephine.

ALLEGED BILKING. Man Arrested at Ridgeway Turns Out to Be George Steves.

Toronto, March 7.—Frank Harrison, one of the men arrested at Ridgeway charged with raising a bill to \$10,000, turns out to be George Steves, a much-wanted man here, partly for the same offense, and also for the theft of 100 shotguns from various local parties. Inspector Stark read the accounts of the arrest yesterday and wired a accurate description of George Steves. The prisoner was easily identified by several individuals who had seen him in the past. He was tried at Chatham on Thursday, and if acquitted of the charge of raising the note there, a warrant will be issued for his arrest here for the charge of passing raised bills and stealing shotguns.

Macron, the other prisoner at Chatham, holds from this city, and appears to have been doped with whiskey and morphine and used as a tool. He was released yesterday and will appear on Thursday for trial. He will turn Queen's evidence.

Why the Chaplain Was Fined. Chicago, March 7.—A yesterday's meeting of the Baptist Ministers' Association Rev. D. O. Odell of Joliet, Ill., chaplain of the 8th Illinois in Porto Rico, declared that he had been temporarily detained from his regiment because he had dared to show his superior officers a sample of the "nauseous rations which the men had to eat." He made a number of other charges, which he said he could corroborate, if requested to.

Is Sanderson a Robber? Ottawa, March 7.—A report of an \$800 postoffice robbery at this city has reached the Dominion police headquarters here. The information was obtained at 9 o'clock Friday
