State Closes Its Case Against Haywood To-Day.

Prosecution Shows Direct Connection Between Orchard and Pettibane-Remittances Sent at Time of Murder - Denounced Steunenberg-Proof of Animus Afforded by Magazine Articles.

Boise, Idaho, June 21.—Unless nine o'clock should bring unforeseen delay in obtaining a few final pieces of evidence, the state will close its case to-day against Wm. D. Haywood, whom it charges with the murder of Frank Steunenberg.

This announcement was made yesterday afternoon by Senator Borah of the prosecution, and when Clarence Darrow of the defence took up the discussion of the arrangement of time he made it clear that directly the state closed, he and his associates would move the court for an ciates would move the court for an instruction directing a verdict of ac-

The prosecution succeeded again yesterday in showing a direct connection between the store of George Pettibone in Denver, and Harry Orchard while he was at work on the Bradley crime in San Francisco, and promised to prove the connection which Orchard says he had with Pettibone personally by handwriting experts who will be called to-day. Original records of the Pacific Postal Telegraph Co. were produced, showing that in September and October, 1904, remittances of \$97.50 and \$48 respectively were made, the first by "J. Wolff" and the second by "P. Bone."

Judge Wood admitted as evidence many of the strongly-worded articles of The Miners' Magazine, in which Steunenberg was bitterly denounced. Mr. Borah read thom to the jury. These were admitted as showing the animus of the federation officials against Steunenberg and against Jus-tices Goddard and Gabbert of the Su-preme Court of Colorado, whom Or-chard swore he tried many times to kill.
The state introduced in evidence

The state introduced in evidence the decisions of the judges on the Colorado eight-hour law, and the habeas corpus application of Charles H. Moyer. To practically every piece of evidence offered during the day the defence took an exception.

FIRES WERE TO PLEASE GIRL.

Queer Tale Related by Lad—Planned Many Blazes.

Belleville, June 21.—Dorland Foote, the 10-year-old boy who set fire to the police station on Wednesday, appeared in the Police Court yesterday before Magistrate Masson, on a charge of incendiarism.

The lad said that Amy Stewart, a girl of 16, said to be weak-minded, had put the idea in his head some time before May 24, and had proposed burning all the barns and frame buildings along the east side of the river between the lower bridges, a distance of about 200 yards.

Both of them, Foote said, set fire to Jenkin's livery stable twice, but each time the fire was extinguished. He said he told Chief Newton to ring

Jenkin's livery stable twice, but each time the fire was extinguished. He said he told Chief Newton to ring the fire bell.

Sergt. Hayes took the boy to the scene of the fire at the Queen's Hotel, where the largest barns were burned. He showed the officer how he had set that barn on fire by throwing lighted matches in the rear door, which tallied exactly with the description given by those who first saw the blaze.

He then showed where he had set fire twice to piles of straw next to Jenkin's livery and sales stables, but these were discovered and put out. The boy admitted that he did all this

The boy admitted that alone.

There were three other suspicious fires in the vicinity, but the boy denies all knowledge of their origin. On information received the girl was arrested.

The case was adjourned till Monday the accused going home with

were kept warm and comfortable last winter by Hecla Furnaces. They chose the Hecla in preference to all others, because it is the only furnace that cannot leak gas, smoke or dust into the house through the joints between the iron and steel.

Hecla Fused Joints, which are covered by patents and which are used exclusively in Hecla Furnaces, guarantee this sanitary and healthful condition. There are no bolts to work loose or cement to dry and drop out. Fused foints are the only permanent joints. The Hecla Furnace, here illustrated, shows the galvanized

casing turned back, giving a view of the corrugated tin lining and of the Fused Joints.

Fused Joints keep the air in a house always sweet and pure, and free from any taint of smoke or gas. Water Pan is placed where it will eva-

a springlike atmosphere in the house. Fire Doors-large enough for any fuel and fitted with Gravity Catches which can

porate the right amount of water to keep

Ash Pan-large and roomy.

MOUNTEER'S, KENTRY ***********

London, June 21.—Despite an angry Irish protest the House of Commons, by a vote of 125 to 121, carried a motion permitting the introduction of a bill for the appointment of a commission to enquire into the need of inspection of monastic and conventual institutions.

Mr. Redmond, the Irish leader, declared that this action implied a gross offence and insult to Roman Catholics in Ireland and England. On learning the result of the division, Mr. Redmond declared:

"This puts an end to the Liberal alliance anyhow." to ensure proper handling. That is why Labatt's Ale campeting about mining and the development of mining properties, you cannot well afford to be without "Spear's Mine Development." It will be sent wree, postpaid, to all who write for it. Just ask for "Spear's Mine Development" by dropping a postal card or a letter to P. V. FRASER & COMPANY, Financial Agents, 23 Toronto Street, India Pale Ale is equal to the finest, surpassed by none, though it costs consumers only about half as much as imported goods.
