The hind legs have reached their full size before the front ones appear, and, while the feet grow slowly, the hands are ready made and can be used at once. For a day or two they can be seen under the skin before they venture forth, and their possessor is very restless and excited. He rushes madly about, jost-ling his comrades, and no doubt being voted a bore; then a more vigorous effort breaks the skin and the tiny hand and arm appear.

There seems some rule about the order of precedence here, as there is when the whiskers go, for last year my tadpoles, almost without exception, had their right hands some hours before the left, while on previous occa sions I have had an entirely left handed crew.—Chambers' Journal.

The Discipline of Failure. The best skating is always on thin ice—we like to feel it crack and yield under our feet. There is a deadly fascination in the thought of twenty or thirty feet of cold water beneath. Last year's mortality list cuts no ice with us. We must make our own experiments, while Dr. Experience screams himself hoarse from his bonfire on the bank. He has held many an inquest on this darkling shore of the river of time, and he will undoubtedly live to hold many another, but thus far we have not been the subjects, and when it comes to the mistakes of others we are all delighted to serve on the coroner's jury. It isn't well for us to be saved from too many blunders. We need the discipline of failure. It is better to fail than never to try, and the man who can contem-plate the gre reyard of his own hopes without bitterness will not always be ignored by the gods of success.—Mereditt Alcholson in Reader.

Trondhjem, June 23.—Coronation Day Trondhjem, June 23.—Coronation Day opened yesterday with a glowing but cold sun shining. The city was alive at an early hour, and by 8 o'clock the avenues reaching to the cathedral were filled with straggling lines of people making for the choicest points of vantage from which to see King Haakon and Queen Maud, both in ermine robes, and the distinguished guests enter the cathedral. The doors were opened at 10 a.m., and soon afterwards, three bishops, robed in black and white, drove up in a phaeton. The crowd uncovered most insidious way.

The Ceremony.

When the royal party entered all present in the cathedral arose and the No Peace For Discoverers. It is remarkable how few of the disceremonial began immediately, which was conducted by the Bishop of Trondh-jem and the Chief Justice, Prime Min-ister, Minister of Foreign Affairs, Min-ister of War, and concluded by the It is remarkable how lew of the the discoverers and conquerors of the new world died in peace. Treating Wrong Disease.

Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous exhaustien or prostration, another with pain here and there, and in this way they all present alike to themselves and their easy-going and indifferent, or over-busy doctor, separate and distinct diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only symptoms caused by some uterine disease. The physician, ignorant of the cause of suffering, encourages this wractice until large bills are made. The suffering patient gets no better, but probably worse, by reason of the delay, wrong treatment and consequent complications. A proper medicine like Dr. Pierce's Favorite Prescription, directed to the cause would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native medicinal roots and is perfectly harmless in its effects in any condition of the system.

As a powerful Invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For overworked, "worn-out," "rundown," debilitated teachers, milliners, dressmakers, seamstresses, "shop girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is unequaled and is invaluable in allaying and subduing nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea, St. Vitus's dance, and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and cathedral. God Save King and Queen. When the newly-crowned King and Queen returned to their thrones after the Episcopal benediction all the royal guests and special ambassadors saluted their Majestles with deep reverences.
At the termination of the proceedings the president of the Storthing called out "God save the King and Queen," and the whole distinguished company heartly took up the cry.

Nothing occurred throughout the ceremony to cause the principal participants the slightest uneasiness.

Congratulations.

On their return to the palace the King and Queen received the congratulations of a deputation from the Storthing and the members of the Government.
