## COUNT SHUVALOFF SHOT

Assassin Fired Five Shots Through the Chief's Body.

Dead Official Was Prefect of Police at Moscow—His Assassin Was Dressed as a Peasant, and Entered the Audience Room With Petition to the Man He Slew—The Assassin Was Arrested.

Moscow, July 12.—Major-Gen. Count Shuvaloff, prefect of police here and formerly attached to the Ministry of the Interior, was assassinated yesterday morning, while receiving petitions. One of the petitioners drew a revolver and fired three shots at the prefect, who fell dead.

The assassin, who was dressed as a peasant, has not been identified. He was recently arrested as a political suspect, but escaped from the police station before his examination.

The assassin waited in the ante-room of the prefecture till the other petitioners had been received, and then entering the audience room he advanced towards Count Shuvaloff, firing five shots at close range. The bullets passed through the body of the prefect. The assassination is considered to be a purely personal crime, as the count was not yet 40 years old, and was regarded as being the best type of the Russian official. He came from one of the most famous families in Russia. The count was a son of Count Peter Shuvaloff, the statesman who represented Russia at the Berlin conference.

Quiet Under Martial Law. Tiflis, Caucasasia, July 12.—The streets and squares are occupied by troops, but the city has been quiet since the proclamation of martial law. At Batum business is at a standstill. The shops and banks, with the exception of the Imperial Bank, are closed.

Fear Another Mutiny. Kustentji, Roumania, July 12.—The Russian squadron seems to be delayed here, owing to the fear that another mutiny will break out should the vessel be put to sea.

The fact that fifty-five sailors from the Khas Potemkin, who surrendered, have been imprisoned on board the different vessels of the squadron, awaiting trial for rebellion, has caused intense indignation among the crews, and as a consequence there are fears for another mutiny.

## JAP ADMIRAL REPORTS.

Japanese Troops to the Number of 12,000 Land at Korasakovsky.

Tokio, July 12.—The Navy Department has received the following report from Admiral Katka: "Two cruisers and four torpedo boats left Korasakovsky on July 10, with orders to proceed for the purpose of landing and occupying Cape Noto. After some bombardment the place was taken. The lighthouse and buildings were left undestroyed. Four prisoners were taken."

Nikolai, Asiatic Russia, July 12.—The Japanese have already landed over 12,000 troops at Korasakovsky, Island of Sakhalin.

Betrayed Military Secrets. Tokio, July 12.—The judgment in the case of Capt. A. E. Bouguin, the French resident who was sentenced Monday to 10 years' imprisonment at hard labor, on the charge of being a Russian spy, declares the accused was engaged in searching for and reporting military secrets.

The judgment recites that Bouguin sent Maki, a Japanese clerk, who acted as Bouguin's assistant, to Nagoya, to ascertain the movements of troops. Maki confessed his guilt.

The comment on the judgment says that the information covered by two counts related to the movement northward of the Port Arthur investing army after the capitulation of the fortress, previous to the battle of Mukden. Therefore the movements constituted important military secrets.

Japs Send News of Mutiny. Sipinghai, Manchuria, July 12.—The news of the mutiny in the Black Sea reached the Russian army through the Japanese, who fired night shells charged with proclamations covering the information into the Russian advanced posts, scattering the proclamations broadcast. Rain is falling in torrents and all activity at the front has ceased.

Over-subscribed Twelve Times. Montreal, July 12.—The Bank of Montreal received a cable last evening stating that the \$50,000,000 London allotment of the Japanese loan had been oversubscribed twelve times.

## ENGINEER IS CHARGED.

Manlaughter Accusation Follows a Coroner's Jury Verdict.

Sault Ste. Marie, July 12.—William Tuer, an engineer on the Bruce Mines Railway, will face a charge of manslaughter at the next assizes. When the evidence was heard at the inquest following the accident, which resulted in the death of Engineer James Duncan on Saturday last, Crown Attorney Simpson had a warrant issued for Tuer's arrest.

He was brought to the Soo from Bruce Mines yesterday by Constable Rush, and appeared before Stipendiary Magistrate Quibell, waived examination, was committed for trial and released on \$2,000 bail.

Hon. Adam Beck Chosen. Toronto, July 12.—The Ontario power commissioners, Hon. Adam Beck, George Pattinson, M. P. P., and P. W. Ellis, held their first meeting yesterday afternoon, in Mr. Beck's private office, in the Parliament Buildings. Mr. Beck was elected chairman, and it was decided to meet again to-day, to complete the organization. A three-hour conference was held, but the talk was not productive of action.

## PUPILS MEET WITH SUCCESS

Entrance Results Through-out the Entire Country—Good Showing Secured.

Various Centres Show Fine Records—Worthy Work of County Schools.

The following are the entrance examination results from the various county centres:

Highest at Wallaceburg, Ray Martin, 523 marks. Wallaceburg Public School, Miss Walker, teacher. Second, Noreen Spencer, 514 marks. S. S. 13, Chatham, Miss Lettie Howe, teacher.

## MAJOR SANKEY DROWNS

Was a Divisional Engineer of the Grand Trunk Pacific.

With Two of His Party He Went on a Long Struggle on Overturned Canoe For Three Hours—"Good-bye, Fred," He Cried as He Went Down Beneath the Waters.

Winnipeg, July 12.—Major Villiers Sankey, divisional engineer of the Transcontinental Railway, with two of his party, were drowned Monday morning near Kenora, formerly Rat Portage, Ont.

Major Sankey, who had charge of the Transcontinental engineering party, left Kenora with three of his men, Hull, Beauchamp and Temple, for their camp on Clear Lake, 20 miles east of here. On reaching Manitou Lake the party experienced a heavy wind and the canoe took in water, with the result that a quarter of a mile from shore they were upset. All four, with presence of mind, clung to the upturned boat, but after clinging for over two hours they gradually sank from exhaustion. First Beauchamp, half an hour later Hull and finally the major, who had hung on for over three hours. With a "Good-bye, Fred," he sank to rise no more when within 200 yards of the shore. Temple half an hour later made shore and, covering three portage and two small lakes, reached camp at 11 o'clock and reported to the party, who immediately set out to recover the bodies. So far they had not been successful.

Two of the party came into Kenora at 2 o'clock yesterday afternoon to report to the chief divisional engineer, Major Madeline, who has wired Major Sankey's family in Toronto. Major Sankey was to have taken up his residence here and expected his family in about three weeks.

Was Universally Respected. Toronto, July 12.—Major Villiers Sankey was in the prime of life, and while in the employ of the city was one of the most popular and well-liked of city officials.

On January 19 of this year he resigned his post as city surveyor, which he had held since 1889, to direct a large surveying party for the G. T. P. between Lake Nipigon and Winnipeg, and his retirement from civic employ was at that time generally regretted by all who were brought into business relations with him. He was widely known, not alone in municipal and military circles, but by the general public of the Province.

Major Sankey will be remembered as having had charge of some very important undertakings in his official capacity as city surveyor, among them the Don improvements and the Esplanade and waterfront works.

Of the military career of Major Sankey much might be said. For over twenty years he has been connected with the militia and the military of this city in various capacities.

Col. Galloway who for years has been a close comrade of Major Sankey, when told of his sad end last night, could not say too much in commendation of the man who had achieved so much in the circle of the military.

"Always painstaking and an ideal officer, Major Sankey was a friend of all who knew him."  
"He was one of the most wonderful men I have known. In the annual field camps held at Niagara he would travel all over the peninsula in search of information. Always making maps and studying the geographical formation of that part of the country, I have no fear in saying that he knew more of that part of this Province than any other man in it."

News of his sad taking off was received last night by Mrs. Sankey at the family residence, 385 Huron street. She learned of the death of her husband from the telegraph office at Montreal, a deckhand on the steamer City of Montreal, while scrubbing the side of the vessel lying at the dock here yesterday morning, fell overboard and was drowned.

Boy Drowns; Father in Prison. Amsterdam, N. Y., July 12.—Harry Rotond, aged 11 years, was drowned while bathing in the Erie Canal Monday night. The boy's father is in prison for shooting a man, and an application was made yesterday to give Higgins his pardon, inasmuch as he had only a month to serve.

Launch Cut in Two. New York, July 12.—One man was fatally hurt and six others had a narrow escape from drowning early yesterday, when the tug Oneida ran down the 40-foot naphtha launch Edna, off 26th street Brooklyn. The owner of the launch escaped injury. The launch was cut in two and sank.

## INTOXICATED FEMALE

A woman who claimed Detroit as her place of residence caused considerable excitement around Roberts' boat house Saturday night.

This woman, who was under the influence of liquor, announced her intention of showing Canadians how to row a boat. She hired a row-boat but soon got into difficulties and nearly fell out of the boat. Mr. Roberts started out in another boat to get her to shore and when he got to her she was sitting at one end of the boat with her feet dangling in the water.

Mr. Roberts landed her on the dock before she had a chance to drown herself.

Lost!—Sunday, July 2nd, ladies' gold-filled hunting case watch, between corner Louise and Emma Sts. and Wm. Stacey's, River Road, Dover. Finder will be rewarded by leaving at this office.

## One Cent Sale

Our third Bargain week will consist of some One Cent Bargains. We know this is a small price for a Bargain, but see what we will give you for one cent.

1 Paper good Pins 1c

We want to sell the small Goods that are used in Chatham and we intend to get the business if price and quality will go for anything.

## Sulman's Beehive...

Corner of King and Sixth St.

## TRAMPS

Three Sorry Looking Specimens Make Their Appearance in Police Court—Caught on C. P. R.

Three young tramps, Geo. Shore, John Cooper and Albert Longtree, all answered to their names at the Police Court, yesterday morning charged with vagrancy.

Yesterday morning about half past nine o'clock when the C. P. R. freight pulled in from Windsor the brakeman on the train noticed three men in a box car. He promptly looked them in and telephoned for the police. Alex. Carter, baggageman at the depot, arrested the men and escorted them to the Police Station.

Shore claimed to be a plumber of Windsor, Cooper a hotel waiter and Longtree a general workman. They were working their way to London when they were robbed. They had no money on them when arrested. They were remanded until Monday to see if they could get any references.

Lemme Purdie was charged with indecent exposure on Sixth street while on a drunken spree. If he does not raise \$10 by Monday he will spend his summer vacation and part of the winter in the Central Prison.

The young boy charged with stealing a spirit lamp was allowed to go on probation and judgment was reserved for two weeks.

## GRADE CROSSING

Engineer Crowley, of the Grand Trunk, is in the city to-day attempting to come to some arrangement with the electric road regarding the Queen and William St. crossings. The G. T. R. would much prefer to have a sub-way at this point, that is, have the electric road's tracks go under their own. It is hardly likely that the electric road will meet this idea with favor on account of the great expense attached to it. To get to the necessary depth grading would have to be started quite a distance back.

Ordinary traffic would follow the same road as the electric line. This would mean wagons coming into the city would have quite a stiff grade to negotiate.

We cannot but think that to make one wide crossing where the two are at present would mar the appearance of the street less, would be more convenient and would be quite safe enough, if provided with gates, for a city of this size.

Several of the King street merchants took in the excursion yesterday. Mayor Cowan, C. A. Austin and Fred. Somerville were among them.
