# THE UNION ADVOCATE, WEDNESDAY, MAY 19, 1880.

The Union Advocate. Established 1867. NEWCASTLE, MIRAMICHI, N. B. WEDNESDAY, MAY 19, 1880.

THE PUBLIC HEALTH. Among the many matters which should engage the attention of those who take an interest in the welfare of the town, that of its sanitary con-dition is perhaps one of the most im-portant, and yet in how many in-stances is this neglected, to the in-jury of the health of the inhabitants. It does appear to us, that as a people we seem to close our eves against the downed as a people we seem to close our eves against the downed as a people we seem to close our eves against the downed as a people we seem to close our eves against the downed as a people we seem to close our eves against the downed as a people we seem to close our eves against the downed as a people we seem to close our eves against the downed as a people we seem to close our eves against the downed as a people we seem to close our eves against the downed as a people we seem to close our eves against the downed as a people we seem to close our eves against the downed as a people we seem to close our eves against the downed take a people we seem to close our eves against the downed take a people we seem to close our eves against the downed take a people we seem to close our eves against the downed take a people we seem to close our eves against the downed take a people we seem to close our eves against the downed take a people we seem to close our eves against the downed take a people we seem to close our eves against the downed take a people we seem to close our eves against the downed take and the terest to the seem to close our eves against the downed take a terest the tot the towned take at the downed take a It does appear to us, that as a people we seem to close our eyes against the possibilities of the future, when we allow to remain undisturbed, in the convenience of the future of the f allow to remain undisturbed, in the very heart of the town, a large pool of stagnant water, which is detrimentail to the health of the community.

We call the attention of the County Another subject to which I would also reproduced in marble. We call the attention of the County Councillors for this Parish to that piece of swampy land in the rear of Councillors for this Parish to that like to direct the attention of the Ministhe houses on the westerly side of Pleasant Street, known as the "Hamill" property. Some years ago "Hamil' property. Some years ago mer loo lbs. by the Occidental line, the this field was properly drained, but Intercolonial would charge 60 cents per of late years the drain has fallen into hundred from Point Levi. These rates decay, and the land is now partly and can only tend to cause shippers to Renous River, by Messrs. D. W. Mccovered with stagnant water, upon look for other means of forwarding. I would like to ask if it is the intention by above fund :-the surface of which are to be seen quantities of rotten wood. By reason would like to ask if it is the intention by the Government to restore to the Inter-colonial workshops at Campbellton the

machinery and workmen removed from there some time since? I am sure it of this land remaining undrained, the cellars of the houses in the vicinity must have proved a very convenient place for carrying on the work, and I hope the are continually flooded with this dis-Government will soon see their way clear ease-producing water, and the won- to have the works kept up there as in der is that the residents in that lo- times past. The Minister will remember that I had

cality have not been smitten by some some communication with him some time ago regarding two oxen killed on epidemic -- typhoid fever, diphtheria, the line between Dalhousie and Campbell or some other malignant disease, ton, for which the owners have not been which might very naturally be ex-paid. They got on the line from land not owned by the owners of the animals, pected to spring from so foul a source. and for that reason the superintendent There have already been cases of diphtheria in the vicinity, one of which resulted fatally, and it is not law, they cannot recover, because the for any one to say that this swampy animals got on the line from a neighbor's pool was not the immediate cause of land. MR. MACKENZIE-That is the law.

the trouble. We fear that unless MR. HADDOW-The ex-Minister says something-is done. and that without that is the law; well if it is so, I think he will agree with me that though it may delay, diphtheria will make its ap-pearance in our midst. This dread-the will agree with me that though it may be law, it does not seem like justice. If the oxen had got on the line from the lands of their owners then I conclude ed disease has been attended with that compensation would have be the most fatal results in other sec- coverable. I trust the Ministers of Railtions of the Province-heartrending ways will see that justice is done in the matter, and that while seeking to carry accounts have reached us through out a system of increased economy on the Intercolonial, he will not allow the the press almost daily of homes left settlers along the line to be treated unchildless-and yet, while other places fairly.

would give or do almost anything to banish the scourge from their midst, we by our negligence or indifference, The Funeral-A fitting tribute to the are actually clearing the way for the much-to-be-dreaded visitation.
