Synopsis of Canadian Northwest
Land Regulations.

Any person who is the sole head of a family, or any male over 18 years of age, may be granted a quarter section of land in the Northwest Territory, Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Subagency for the district. Entry by proxy may be made in any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties: Six months residence upon a 160-acre section of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section, alongside his homestead. Price \$1 per acre.

Duties: Must reside upon the homestead or occupation six months in each of six years from date of homestead entry including the time required to earn homestead patent and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right cannot obtain a pre-emptive right for a purchased homestead in certain districts. Price \$3 per acre. Duties: Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$500.

CAMPBELLTON LODGE ROOM DEDICATED

Grand Officers Here Last Evening and Conduct Ceremony.

The fine new lodge room in the Masonic Hall was duly dedicated according to the rites of the Masonic fraternity to the use of Masonry Thursday evening. There were present a number of the Grand officers and a very pleasing evening was spent.

After the ceremony of dedication the work of the second degree was gone through and the officers of Campbellton lodge were complemented by the visitors on the smoothness with which the degree was worked.

After adjournment the members of the fraternity repaired to the banquet hall where a sumptuous repast was served, after which toasts were proposed and heartily responded to.

Campbellton lodge is growing rapidly and it is expected that the membership will shortly reach the hundred mark.

JACQUET RIVER

Nov. 17—The social dance and whist party held on the evening of Nov. 13, by the ladies of the R. O. congregation of Jacquet River in aid of St. Gabriels church, was voted by all present, the most enjoyable event of the season.

It was held in Sauter's Hall which was well filled but not overcrowded, the stage and the rear of the hall being occupied by the absorbed players while the centre of the hall with its polished floor and the splendid music formed an irresistible attraction to be majority. The violinists, Messrs Frank Young, Ernest Boudreau and John Cook, and the accompanists, Messrs Alex DeGrasse and Walter Levesque, furnished music gratuitously. Much credit is due to the floor manager, Mr. John Cook (who also had charge of things in general) for the excellent order which prevailed.

Refreshments were served at midnight, after which the prizes were awarded to the players, Miss Ella Murphy carrying off the ladies' prize, a handsome shopping bag Master Sandy Firlotte the gentlemen's prize, an embroidered tobacco pouch and last but not least Mr. Wallace Murphy found himself the triumphant possessor of the booby.

Most of the credit for the success of the evening is due to Mr. Charles Daley of Durham Centre, who, with her co-workers of that place worked indefatigably to make it the success that it was both socially and financially, the sum of \$64.00 being realized.

WEDDING BELLS

O'KEEFFE—VANHORNE

On Tuesday evening a very quiet wedding was performed when Mr. Don Vanhorne, son of Mr. and Mrs. C. Vanhorne was united in marriage to Miss Greta O'Keeffe, youngest daughter of the late Daniel and Mrs. O'Keeffe. Only the immediate relatives of the families were present, and the young couple were the recipients of many useful and costly gifts. The Rev. E. P. Wallace performed the marriage ceremony. — Campbellton Graphic.

THE PANAMA CANAL

The declaration of President Taft on October 14 last that the first ship will pass through the Panama Canal on July 1, 1913, (instead of in January, 1915), was really an open secret. More than one well-authenticated statement has appeared from time to time, promising the completion of the great inter-oceanic waterway about the date now indicated. The Suez Canal, cut through sand, took ten years to complete and cost ten millions; the Panama Canal, begun in 1906, will in all probability, cost nearly nine times that amount, and as a great proportion of its length of fifty miles runs through hilly country, the work is correspondingly more arduous and expensive. Seven-ninths of the total excavation has already been finished, and the heavy work on dams, locks and locks is reported to be well in hand. It is hardly necessary once more to emphasize the fact that the shipping trade of all the world—not least that of Great Britain and the Overseas Dominions—will be radically affected by the great new waterway. It would be up profitable here to enter upon a discussion of the vexed question of the reduction in sea distances to be anticipated. It is clear, however, that the Eastern and Western seaboard of the great American Republic will be united, that the former littoral and the western one of South America will be brought close together, and that the distance from New York to San Francisco will be reduced many thousands miles. The whole Pacific will be brought within the current of world traffic, bringing with it a fresh interest and fresh ambition, political and commercial. A new highway will be opened to China and Japan to Australia and the Pacific Islands. For Great Britain but especially for Canada, the results must be far-reaching. The West Indies will be deeply influenced by the new route, and amongst other things their attraction as a winter resort will receive a great stimulus. The effects of the canal are at present incalculable, but it requires little imagination to see that we are to witness within a couple of years a revolution in the routes and currents of the world's commerce. Meanwhile an American transportation company has been founded with a capital of \$3,000,000 with the object of securing the Post Office contract for an independent mail from New York to Colon, and from Seattle to Panama. The vessel using the canal to pass from one ocean to another. The proposal is to build fifteen fast mail steamers and a fleet of auxiliary steamers, besides a number of steam barges to navigate the shallow rivers and harbours of Central America.

SOCIETY ENGAGEMENT

Be Fair. Buy a sack or barrel before judging PURITY FLOUR

SOME people have attempted to judge PURITY FLOUR before knowing the facts about it—before using it. So we ask you to be fair and to buy a sack or barrel of PURITY FLOUR and give it a thorough try-out before attempting to arrive at a judgment.

Look at the beauty and loftiness of the golden-crusted, snowy-crumbed loaves, fit for a king. Count them and see how many more of them PURITY yields to the barrel than ordinary flour does.

Taste the creamy, flaky pie crust, and the deliciously light cakes PURITY FLOUR rewards

you with. My! How they make your mouth water!

Such high-class results can only be obtained when using a flour consisting exclusively of the high-grade portions of the best Western hard wheat berries.

And remember, that, on account of its extra strength and extra quality, PURITY FLOUR requires more water when making bread and more shortening when making pastry, than you are accustomed to use with ordinary flour.

PURITY FLOUR

"More bread and better bread"

Buy a bag or barrel of PURITY FLOUR. Test it for a week. Then pass judgment.

Add PURITY FLOUR to the grocery list right now.
