SOILS AND COMPOSTS

Best Suited for Pot Plants, Hot
Beds, Seed Sowing, Etc.

Well-rotted, Tough, Fibrous Sod the
Best Basis—How to Prepare It—
Substitute Potting Soil—Bone
Meal a Valuable Fertilizer.

(Contributed by Ontario Department of
Agriculture, Toronto.)

SECURING suitable soil or com-
post for all features of flor-
iculture or horticulture is a
very important matter. The
best results are to be obtained

The best basis for all ordinary pot-
ting soils is well-rotted, tough, fibrous
sod, taken from loamy or light
clay loam soils. Sod from an old
pasture field, or from the roadside,
from where the grass has been kept
fed or cut down constantly, will give
the closest growing sod, with lots of
fibrous roots attached. These fibrous
roots are one of the very necessary
essentials in potting soils to keep
the soil open and friable. The sod
should not be cut from heavy clay
soils, or where noxious weeds, espe-
cially "couch," "spear" or "witch"
grass is growing. The sod should
not be cut from near pine or cedar
trees as the turpentine in the leaves
or pine needles, and the resinous ter-
trimental to plant life. It is also
best not to cut the sod from very
swamp soil. Well-rotted barnyard
manure such as from an old hot bed,
or cow manure, are both good ferti-
lizers to use for a soil compost. Horse
manure alone is not a good fertilizer
for a compost. About one-third horse
manure and the balance cow manure
will be adequate. Then another layer
of straw or dried down weeds over
early spring is the best time to pre-
pare the soil compost, autumn pre-
ferred.

How to Prepare.—The sod should
be cut about four inches thick, and
about eight to ten inches square. It
should be stacked out of doors in an
out-of-the-way part of the garden or
grounds. A space six or eight feet
long by one foot wide would be a
good supply for a small green-
house, or for a few hot beds for a
year or two. Start by placing one
layer of sod packed close together
over the ground, and then cover
the space selected. Then add a se-
cond and third layer on top of the
first layer. About four or five inches
in depth of either of the fertilizers
mentioned should now be spread
evenly over the third layer of sod.
Another three layers of sod should
then be placed on top of the ferti-
lizer as before. Then another layer
of the fertilizer as before, and so on
until the pile is four or five feet in
height. About two inches in depth of
soil should be placed on top of the
pile to finish the sod.

Preparation for Use.—When ready
for use, trim or slice down, with a
sharp spade, the quantity required
from top to bottom of the pile so as
to secure the proper proportions of
sod and fertilizer. For potting pur-
poses this should be put through a
coarse sieve having a 1/2-inch mesh.
The decayed fibrous part and the
fertilizer should be worked through
the sieve. The partly decayed fibrous
or organic matter that will not pass
through the sieve readily should be
chopped or pulled finely to pieces and
put into the soil, if at all decom-
posed.

Tempering or Mixing Soils.—If the
soil is of a heavy clay loamy nature
about one part sand should be added
at the time of using, with eight or
nine parts of the soil compost for re-
potting purposes, for plants such as
geraniums, roses, chrysanthemums
and similar plants. If the soil is
sod is taken from is of a light
loamy nature, a very little sand, if
any, will be required.

Beans, Cabbages, Callas
(Arum Lilies), Gloxinias, Salvia,
Ferns and similar plants one part of
leaf soil, (rotted leaves) or black soil
from the bush (decayed leaves), may
be added to the compost and used
before mentioned. Black leaf soil
from the bush alone does not make
a good potting soil for but very few
plants, it should be mixed with other
soil as stated.

Substitute Potting Soil.—A good
substitute potting soil or compost may
be made by mixing about seven or
eight parts of good, light, loamy gar-
den soil, or loamy sub-soil taken
from underneath sod, with one part
sand and one part leaf soil as before
mentioned, mixed well together. One
part of dry cow manure, which can
be secured from the fields where
cows have pastured, or one part of
pulverized sheep manure should be
added as a fertilizer for this substi-
tute potting soil. The pulverized
prepared sheep manure can be pur-
chased at almost all large seed stores
at the rate of about \$2 per 100
pounds. Or about one pound of the
bone meal or bone flour to each
bushel of soil may be used as a sub-
stitute fertilizer for those named.

Sheep and cow manure are two of the
best fertilizers to use in connection
with all horticultural work, whether
incorporated in potting composts as
stated, or used out of doors as liquid
solutions for flower borders or the
vegetable garden during summer, if
the ground is not rich enough in fer-
tilizers. Soaps from the barnyard
diluted one-half with water makes a
good liquid fertilizer for outdoor use
where the soil is poor.—Wm. Hunt,
U. A. College, Guelph.

Canadian General Electric had a
sharp advance on the Toronto and
Montreal exchanges.

A New Blood-Food Has Been Discovered That Works Wonders

For years doctors have been search-
ing for a combination that would
enable them to inject into thin blood
the elements it lacked. This can
now be done, and any weak-blooded
person can quickly be made stronger
and well.

Already a small army of ailing
people have proved the merit of tak-
ing after each meal with a sip or
two of water two chocolate-coated
Ferrozone tablets. This is easily
done, and even one week's use of
this wonderful blood-food will prove
how nourishing and strengthening
and flesh building the treatment is.

Just think of it—Ferrozone up-
lifts the entire nervous system, re-
moves the blood, makes it rich and
red—gives the sort of aid that's
needed in throwing off weakness and
languor.

Tens of thousands enjoy the ad-
vantages of renewed health through
Ferrozone; if you'll only use it, you
will surely grow strong, too; its ben-
eficial action is noticed even in a
week. You see it goes right to
work, removes the causes of the
trouble and then quickly makes a
cure.

For those who sleep poorly and
have nervous apprehensions, Ferro-
zone cases.

Where there is patience, poor ap-
petite and languor, Ferrozone makes
the patient feel like new in a few
days.

In tired, nervous exhaustion,
spring fever and debility, the power
of Ferrozone is known from coast
to coast and universally used with
grand results.

Let Ferrozone build you up, let it
win you back to robust health—it
will do so quickly if you give it the
chance. Sold by all dealers. 50 cents
per box or six boxes for \$2.50. Re-
member the name Ferrozone.

It was unofficially announced on
Saturday that the Newcastle United
soccer team will accept the invitation
of the D.F.A. to tour Canada this
coming summer.

**EMPLOYMENT SERVICE
OF CANADA**

EMPLOYERS

**THE
EMPLOYMENT SERVICE
OF CANADA**

The PROFESSIONAL and BUSINESS SECTION
has been established to assist professional, business and
technical men and women.

Many officers, soldiers, sailors and war workers, who
sacrificed their positions during the war, now desire to
secure employment in the occupations for which they have
been specially trained.

Employers should not wait until increasing business
forces them to employ anybody they can obtain, but should
look ahead and avail themselves of this unusual opportunity
to enlist the services of highly trained workers, ordinarily
secured only with difficulty. On application there can be
referred to you, for example:—

ENGINEERS **LAW CLERKS**
ARCHITECTS **COMMERCIAL ARTISTS**
BUSINESS EXECUTIVES **SALES MANAGERS**
ACCOUNTANTS **TRAVELLING SALESMEN**
SECRETARIES **CHEMISTS**
TEACHERS **YOUNG COLLEGE GRADUATES**

These workers are returning to civil occupations with
increased initiative, a broader view of life, and a greater
capacity for work.

EMPLOYERS

Please state your requirements to the nearest office of the
EMPLOYMENT SERVICE OF CANADA
PROFESSIONAL AND BUSINESS SECTION

In each office the
INFORMATION AND SERVICE BRANCH
DEPARTMENT OF SOLDIERS' CIVIL RE-ESTABLISHMENT
has a representative to render special service in the
re-establishment of the returned soldier.

TORONTO, 43 King St. West Tel. No. M. 3201

DOCTOR WARD, The Specialist

SPECIALIST IN THE TREATMENT OF NERVOUS CONDITIONS, NERVE EXHAUSTION,
BACKACHE, LUMBARGO, RHEUMATISM, STOMACH AND LIVER TROUBLES, ACNE, SKIN DIS-
EASES, CATARRH, ASTHMA, RECTAL TROUBLES, PILES, FISTULA AND BLOOD CONDITIONS.
The knowledge gained from many years' experience in treating diseases just like yours is of much benefit
to you and assures the ailing man of prompt relief. When a man knows that he is again feeling well—that
he is rid of his ailment—he feels that a heavy load has been lifted from his shoulders. I give every patient
the benefit of the knowledge acquired through the long experience of a graduated, licensed and registered
specialist, in order to bring about the most satisfactory results in the shortest possible time.

NERVE EXHAUSTION
A CONDITION AFFECTING MANY MEN—THE GREAT AM-
ERICAN DISEASE— IT IS BROUGHT ON BY OUR MAN-
NER OF LIVING—OUR WORRY AND HURRY— AMERI-
CANS EXHAUST MORE NERVOUS ENERGY THAN ANY
OTHER RACE OF PEOPLE.

There are a great many men who need treatment for their
nervous system. These men do not know what is the reason they
don't feel right—why they can't work like they used to—why they
rest so easily and why they are irritable, nervous, despondent,
weak, pale and lack ambition. These conditions require the ex-
pert knowledge and treatment of a specialist who has had many
years' experience in just such ailments. A specialist learns by
experience to know just the right treatment at the right time so
that the patient can be dismissed at the earliest possible time. Men
affected with nervous exhaustion have no endurance—no ambition
—everything they attempt is an effort. Life to them appears as a
long, gloomy future. Their appetite is poor and variable—they be-
come irritable, cross and discouraged. They have pains and aches
in various parts of the body and there is often indigestion and
pains in the stomach. Sleepless, wakeful and restless nights fol-
low.

RHEUMATIC AILMENTS
SCIATICA AND OTHER FORMS OF RHEUMATISM, LUMBA-
GO, PAINS IN BACK, SWELLING, ACHING, PAINFUL
CONDITIONS IN ANY PART OF THE BODY—INFLAMED
AND SWOLLEN JOINTS OF LEGS AND ARMS— MANY
OTHER SYMPTOMS.

Hundreds of men are suffering with some form of Rheumat-
ism. Many of these men go from day to day suffering untold agonies
thinking they cannot be cured. They have tried liniments, rub-
bing, massage, salts and other treatments without experiencing any
relief, and they are now going through life thinking they
are martyrs to that burden called Rheumatism. If these men could
only know how easy it is to get rid of many rheumatic conditions
I know they would not suffer another single day. Then all suffer-
ers of rheumatism would be strong and healthy if they could
get rid of the condition. Rheumatic patients are nearly all strong
and robust before being attacked by this ailment, and therefore
it is so hard for the man to understand why he should suffer the
agonies of such a condition. When a man gets rid of such a condi-
tion he feels that a heavy burden has been lifted from his life, and
he starts, right out to make up for lost time both in money and
pleasure. When a man comes to my office suffering with the
above condition he is given a most careful examination, and he is
given treatment that he feels is giving him great benefit.

Quick and Lasting Results Assured the Ailing Man
BLOOD YOUR WHOLE HEALTH OF BODY AND MIND DEPENDS ON YOUR BLOOD. Any
"building process" of the body and mind, of the muscle and tissue formations, of any of the various vital
organs, can be accomplished only by working direct through the blood stream.
