

WEAK LUNGS

RESTORED BY PSYCHINE.

"PSYCHINE" has restored thousands of people to buoyant health and strength, whose condition had been regarded as hopeless. It is a tonic and flesh-builder, containing remarkable properties as a blood purifier and stimulant. It will strengthen and heal the weak lungs, force out the phlegm, and drive away the cough, no matter how long standing.

"PSYCHINE" tones up the whole system and drives out disease, heals the degenerated lungs and restores lost energy. Its use daily will prevent and ward off all most acute disease consumption.

PSYCHINE

PRONOUNCED SI-KEEN

EDMONTON WILL BUILD THE BRIDGE

Strathcona Will Not be Again Asked For a Contribution to the Bridge Structure.

The Edmonton council will not ask Strathcona for a contribution to the high level bridge structure. Instead, Edmonton will take measures to pay the entire cost of the high level portion altogether independent of the southern city which will not again be asked for a contribution.

Mayor Lee and members of the Edmonton council feel that the Strathcona aldermen have been guilty of a serious breach of faith in the attitude which they have recently taken.

"When we were preparing to submit our agreement," said Mayor Lee to the Bulletin on Monday "the Strathcona council informally offered \$30,000 or \$40,000 with single fares.

Later I met the Strathcona council in committee and they passed a resolution condemning the previous offer. They offered \$30,000 and now they have backed down. I think they have broken faith with Edmonton in this matter."

Promised \$30,000.

It was also pointed out that in the conference with Edmonton, the Strathcona aldermen, Mr. Bush, had gone so far as to say that Strathcona could be depended upon for \$30,000 if necessary.

Mayor Lee states that the refusal of Strathcona to contribute except on impossible terms will not affect the amount that Edmonton people will be asked to pay.

"We will eliminate for the present one of the sets of rails for the street cars in the bridge and this will mean a saving of \$42,500 which is more than the larger sum that Strathcona offered for single fares. A further saving can be made, if necessary, by leaving off one of the sidewalks which will lessen the cost \$22,577 more."

Would Bankrupt System.

I have no doubt but that a single fare between the two cities, or at least a reduction, will come before many years. We cannot, however, bankrupt our system by promising a single fare immediately up on the completion of the bridge.

What about getting connection from the south end of the bridge? Why not?" Mayor Lee was asked.

"I don't anticipate any trouble over that," was the reply. "That is a long way off, and if necessary we will have to settle it in the future."

POWER TIE-UP TO END.

Today or Tomorrow, Winnipeg Will Again Have Light.

Winnipeg, Man., Nov. 28.—The tie-up of the street railway power and light system occasioned by the bursting of a flume at the Lac du Bonnet plant in all probability will be ended Monday or Tuesday, the water being available, sufficient in fact with the steam plant of the city to vigorously upgrade all their franchises. Manager Phillips gave out the following statement: "The water is now entirely out of the power house at Lac du Bonnet, which is now as dry as ever. Dynaprops, Nos. 3, 4, and 5 are all running but are short circuited. Testing instruments from Toronto arrived this afternoon and as soon as the tests are completed we will be able to state when we can get the machines on the line. If the machines show all right, it will be only a matter of five or six hours to prepare them for operation. Everything seems favorable for an early start."

Ottawa Press Gallery Association.

Ottawa, Nov. 28.—The annual meeting of the parliamentary press gallery was held on Saturday, officers being elected as follows: President, Paul Hinkle, Toronto Telegram; vice-president, Arthur E. Farny, Montreal Herald; secretary, E. W. Grange, Winnipeg Free Press; executive, F. Hamilton, Toronto News; J. L. Fortner, La Presse, Montreal; G. A. Garvin and Jas. Muir, Ottawa Journal; S. W. Duffer, Western Associated Press.

Ventured on Thin Ice.

Kingston, Nov. 28.—Elwood Ingram, aged 6, and Gerrie Ingram, aged 3, sons of Mrs. Richard Ingram, of Bathurst, were playing on the ice on Westlake, when it gave way, and both went through. The boys were quickly pulled out, but Elwood was beyond relief and Garret's life is despaired of.

LEGISLATURE TO OPEN ON FEB. 10

Date of First Session of Second Legislature Decided at Meeting of Provincial Cabinet.

The first session of the second legislature of Alberta will open on Thursday, February 10th.

This information was given to the Bulletin this morning by Premier Rutherford. The date was decided at a meeting of the cabinet on Saturday, and it is supposed that the preparation of matters which are to come before the legislature at this session has postponed the date of meeting longer than was expected. The opening last year was in the last week in January.

There will sit in the legislature this session forty-one members, in place of the twenty-five under the first legislature. Of these, thirty-eight will be "straight government" supporters. R. B. Bennett, M.P.E., will be the leader and only straight Conservative. E. E. Michener, M.P.P., of Red Deer, will be an independent Conservative, and C. M. O'Brien will be the leader and sole representative of Socialism. It is expected that J. R. Boyle, M.P.P., will take the Speakership, in the place of Hon. C. W. Fisher, member for Cochrane, who acted in that capacity last session.

The legislature will probably meet in the assembly hall in the rear of the Government Buildings. These quarters are at present occupied by the telephone branch of the Public Works Department, but will have to be vacated before the 10th of February.

WATSON TO JOIN CABINET.

Vancouver Member to Become Finance Minister in B.C.

Victoria, B.C., Nov. 28.—A special meeting of the executive council is to be held Wednesday when it is expected that all the ministers will be again in the capital excepting Dr. Young. Arrangements probably will not be announced for some weeks later. There is no authority for the statement made in a morning paper that Cotton will become finance minister. As a matter of fact H. H. Watson, of Vancouver, may offer the cabinet as well as W. R. Ross, of Penticton.

A Liberal convention is to be called shortly to decide the course to be followed in the coming year. It is probable that Brewster will resign in Alberta to permit the placing of the party leaders shortly after the election. His determination to withdraw from politics. Premier McBride will go Monday to Vancouver to testify in the Grein vs. the World case, and will shortly after visit Yale to confer with his constituents. It is not yet announced which seat he will retain, but it is believed he will hold Victoria, throwing the Yale seat open.

TRAFFIC ON C.P.R. MAIN LINE TIED UP BY FLOOD

Heavy Rain on Coast Have Caused Serious Mudslides, Which Obstructed Tracks—In Vancouver a Section of the City is Cut Off by Floods.

Vancouver, B.C., Nov. 28.—Several mudslides in the vicinity of Barpet last night and early this morning caused an interruption of traffic on the main line of the C.P.R. The transcontinental express No. 97, due in Vancouver at 12:20 o'clock this afternoon, was held up on the east side of the slides while express No. 2, which left Vancouver at 7:50 o'clock this morning, is held west of the obstruction. It is expected the slides will be cleared from the track this evening, when traffic will be resumed. There is also a small washout on the New Westminster branch of the C.P.R., and traffic is interrupted on that line.

The worst tie-up occurred on the Farmview line. Here the culvert, taking water under Ninth avenue at Heather street, either became blocked or was unable to take the flood pouring down from South Vancouver and Point Grey. The water rose to the top of the high embankment and over Ninth avenue, making its way to False Creek, along the streets to the west. At Heather street, fully a foot of water rose above the street level at the low spot near Pontreux avenue and a flood poured down Main street. It was found impossible to operate the DeVi street car to Sixteenth avenue and they were turned back at Ninth avenue and a junkwater service established south to Fourteenth avenue, beyond which passengers had to transfer.

A flood of almost unprecedented volume is pouring down Capilano and great anxiety is felt as to the safety of the water works system along the creek. No report can be obtained from the intake or stations along the Capilano as the telephone wires have been thrown down, probably by the slides. Connection with Seymour Creek was lost at noon and everything was reported alright at that point. It is feared, however, that the heavy rain will cause extensive slides along the Seymour Creek pipe line.

Where is Mrs. Harry Johnson.

Toronto, Nov. 28.—Who is the wife of Harry Johnson, late of Toronto? The chief of police received today a telegram from Mayor Gregory, of Bathurst, Saskatchewan, asking that Mrs. Johnson be located, as her husband had died there and her address was unknown. So far the police have been unable to locate Mrs. Harry Johnson. The Mayor Bathurst wishes instructions in regard to burial.

BASK. DEBATING LEAGUE

Provincial Organization Formed—Will Contest for Trophy.

Regina, Sask., Nov. 28.—At a meeting held here Saturday representatives of Saskatoon, Regina, Moose Jaw, Indian Head, Wolsley and Grenfell, the Saskatchewan Debating League was organized with the object of holding a series of public debates on important questions during the winter. The league was divided into two sections, Grenfell, Wolsley and Indian Head forming district "A," and Regina, Moose Jaw and Saskatoon district "B." The champions of each district will debate for a provincial trophy. The officers elected are: Hon. president, Hon. J. A. Calder; president, A. H. Tasker, Indian Head; first vice-president, Rev. E. J. Chenwin, Moose Jaw; second vice-president, Rev. E. Smith, secretary, treasurer, A. S. Trotter, Regina.

Telephones in Constantinople.

Constantinople, Nov. 28.—A commission, which has been making investigations with the object of placing a telephone system in Constantinople, has decided to accept the tender of a British, French and Italian group which desires to install the system.

FARMERS HAVE CHANCE TO STUDY AGRICULTURE

Three Points, Lethbridge, Olds and Vegreville Will See Short Course in Agriculture This Year Instead of Tomorrow, Where Course Was Held Last Year.

Three points in the province, Lethbridge, Olds and Vegreville, have been selected by Hon. Duncan Marshall, minister of agriculture, for the holding of short-course schools in agriculture similar to what was held in Lacombe last year. The success of the school at this single point was considered so satisfactory that it was decided to extend the usefulness of the course by giving instruction at the three different points consecutively instead of one.

The subjects dealt with by the short-course schools will be stock-raising, stock-judging, soil-culture, dairying, etc. Unless requested by the farmers in the south, the instruction in dairying will be confined largely to the two northerly points. The staff of the department of agriculture will be called into service, together with such experts as are supplied by the Dominion live stock commissioner.

Before leaving for the east on Saturday Mr. Marshall told the Bulletin that arrangements have been made to open the schools of instruction at Lethbridge, Olds and Vegreville in turn. Two weeks will be spent at each point. Mr. Marshall said that it was his intention to vary the location of the schools from year to year. It is thought the location of the three schools this winter will be found very satisfactory. Lethbridge will be the congregating point of the farmers throughout the south. Olds will be the central point, and a great stretch of country in every direction as far north as Edmonton, and Vegreville will be easy of access to the farmers along the C. N. R. line and north of the Saskatchewan river.

NOVA SCOTIA STRIKE BROKEN.

Deputy Minister of Labor Says Military Force Still Needed.

Ottawa, Nov. 28.—F. A. Ackland, deputy minister of labor, who investigated conditions in Nova Scotia relative to the strike at the collieries there, brought about by the United Mine Workers of America, says "That the strike at Glace Bay appears to be practically broken, but the military force is likely to be retained for some time to come." At Inverness the strike is still more definitely broken and military protection is still considered desirable. There is a considerable number of men on the United Mine Workers relief lists. At Springhill, no attempt is made to work the mines for an indefinite period, with a promise of worse results to the industry and the community concerned.

Regina's Civic Inquiry.

Regina, Sask., Nov. 27.—Saturday's sitting of the commissioners of inquiry into the conduct of certain city track jobs, saw the conclusion of the examination of ex-City Clerk Kelso Hunter, after four days in the witness stand. The only point of interest in the day's proceedings were the rulings of the court to the effect that it was not for the witnesses to decide whether the sole responsibility for having done something wrong rested, as he declared, in the letter to the Morning Leader with himself. That, said Judge Hannon, was one of the questions the commission had to decide. It is expected that the next witnesses to be called will be Aldermen Wilkinson and Everett.

Carried Away, Danger Signals.

Halifax, N.S., Nov. 28.—The fierce storm that swept the Nova Scotia coast last night was followed by a double danger signals along the western shore, and steamers bound from Halifax and the United Kingdom are in danger of being carried on dangerous ledges at Cape Sable and Seal Islands, where the buoys were anchored.

Calgary Customs Returns.

Calgary, Nov. 30.—Customs returns for the month have reached the total of approximately \$62,000, showing an increase of \$23,597 over the same month of 1908, and nearly \$18,000 over the previous banner month of the year in 1907. The increase of entries were 400.

GREAT LIVE STOCK SHOW OPENS TODAY

Distinguished Live Stock Judge From London Says Chicago Exhibition Surpasses Anything in the World—Exhibition Opens Formally To-day.

Chicago, Nov. 28.—Exhibitors and groomers of the blooded animals at the International Live Stock Exhibition, which will open formally at nine o'clock this morning, found no time for rest yesterday. The entire day was consumed in the finishing touches of preparation, a final ribbon in the tail of some great Percheron stallion, a warm soap and water wash for a Hereford bull, a combing for the sheep and the last delicate touches by which each owner is confident his particular stock will return from the ring bearing blue ribbons. Although the show opened informally Saturday, the real start will be made today.

William Heap, president of the National Federation of Meat Trades Associations, of London, England, who will judge the grade and cross-bred steers and award the grand championship of the exposition, inspected the stock for the first time.

"The show surpasses anything I have seen for magnitude," he said. "Nowhere on earth, except in Chicago, can be seen the great four breeds of horses—Shire, Clydesdales and Percheron—in such numbers and of such class."

Lumberman Killed Near Maynoth.

Belleville, Nov. 28.—David Hamilton was accidentally killed while at work in a lumber camp north of Maynoth. Hamilton was driving a team and was standing at a skidway when another team drove up to unload. The end of the log struck a tamarac stump and broke about twenty feet off the top of it. Hamilton's companions called to him to run, but thinking that it was his team which was in danger, he sprang for the lines and ran directly under the falling top, which struck him killing him instantly.

GET AN I.H.C. GASOLINE ENGINE TO WORK FOR YOU

I.H.C. engines and prosperity are going hand-in-hand on thousands of farms. I.H.C. gasoline engines are the farmers' willing workers that do not ask for wages or days off or refuse to work when the weather is bad.

Just give the wheel a turn—and a whole string of your other machines will get busy. You can run half a dozen of them at once, if you like—sawing, grinding, churning, separating cream, pumping water, etc. Your simple, powerful I.H.C. gasoline engine will furnish power for them all.

One great advantage of these engines is their ever readiness. They enable you to do your hardest jobs faster, better and easier than ever you have been able to do them before.

There are hundreds of places where you would like to use a power—something for just a little while, other times for a long, steady run. Many a time you can have the job done with your I.H.C. gasoline engine before you could even get ready with your old-style power. If it is a long, steady run, like a day's job of sawing wood, the engine will keep your saw going steadily hour after hour. The engine will take care of itself—all you have to do is to just "saw" wood.

The expense is only a few cents for gasoline for the whole day's work. There's no waste of time and fuel in starting up. And all expense stops the instant the engine starts.

You need an I.H.C. engine to take the short cut on your work. Figure on the matter—see how soon it will pay for itself by getting full service for you out of the engine. The engine will take the short cut on your work. You will have no trouble in learning to operate one of them.

Go to our local agent and look over the line. It includes an engine for every section and every problem of all sizes and all costs for all farm use, vertical and horizontal (both stationary and portable), engines on skids, sawing, pumping and grain elevators, and all the best of all—round farm tractors—the best prize gold medal winners—the best all-round farm tractor by test.

Call on our local agent in your town and talk the matter over with him. He will supply you with catalogues and information. Or, if you prefer, write nearest branch house for catalogue and full particulars.
