# The entire decorative atmosphere of a room may be unbalanced by a discordant color.

NOTHING freshens and brightens the home more than pretty wall coverings. But the decorative art must adhere to certain rules regarding harmony and contrast or your whole plan will be spoiled through the use of papers that clash with draperies, furniture, etc. Our method of showing papers will give you a perfect idea of how the designs will match up and how the papers will look on the wall. Come in and take plenty of time to inspect our stock thoroughly. We can help you in planning any decorative scheme which you may have in mind. Spring is the best time to paper. We have our new stock all prepared for your inspection. Come in to-day while our assortment is complete.
