ELECTRIC TIME SAVER WASHER

THIS IS THE SAFE WAY TO DO YOUR WASHING

Many housewives prefer to keep the washing in the home. This is the safe and sanitary way. Clothes sent out to be washed are mixed with everybody's, and come in contact with contaminated linen. Also by keeping the washing in the home you can supervise it closely and often prevent the ruin of some delicate garment. Clothes last much longer when washed in the home.

With a Time Saver Electric Washer you can easily get all the washing done in your own home. It saves three whole hours on wash day and makes the day an easy one. Both washer and wringer are driven by electric power and run for 20 minutes an hour. It is moderate in price. It pays back its cost in a year in the saving of laundry bills or washer woman's wages. We have a machine in the store for you. Let us demonstrate it in your home. Phone or call.

"THE GODS OF MARS"
(Continued from Page 6.)

"A thern!" whispered Tars Tarkas.

south. The fleet of battleships would overtake them on the morning of the second day.

At Hastor we found all in readiness, and so perfectly had Kantos Kan planned every detail of the campaign that within ten minutes of our arrival the first of the fleet had soared aloft from its dock. And thereafter, at the rate of one a second, the great ships floated gracefully out into the night to form a long, thin line which stretched for miles toward the south.

The expedition could yet do much besides rescuing Dejah Thoris if it could but teach the people of Barsoom the facts of the cruel deception that had been worked upon them for countless ages and thus save thousands each year from the horrid fate that awaited them at the conclusion of the voluntary pilgrimage.

If it could open to the red men the fair valley Dor it would have accomplished much, and in the land of lost souls, between the mountains of Otz and the ice barrier, were many broad acres that needed no irrigation to bear rich harvests.

Children Cry FOR FLETCHER'S CASTORIA

"Just can't work any more!" The faded, faded, over-worked woman, with pains here or there; should ask her neighbor for advice. Ten-to-one she was dragged down by the pains and ailments of her sex, and was completely cured by that temperance tonic made from wild barks and roots, and known for 50 years as Dr. Pierce's Favorite Prescription. When a woman complains of back-ache, dizziness or pain—when everything looks black before her eyes—a dragging feeling, or bearing-down, with nervousness, she should turn to this "temperance" herbal tonic, known as Dr. Pierce's Favorite Prescription. It can be obtained in almost every drug store in the land and the ingredients are printed in plain English on the wrapper. Put up in tablets or liquid. Dr. Pierce, of Invalids' Hotel, Buffalo, N. Y., will send a trial size for 10-cents.

Toronto, Ont.—"Dr. Pierce's Medicine has been a wonderful help to me and I recommend it in hope that others may be benefited by its use. When I was a girl I was always delicate. My mother thought she could never raise me. As I got older I grew worse; doctors said I would have to have an operation. I suffered at times untold agony. My mother started giving me 'Favorite Prescription,' and it finally cured me of all my trouble. After I married I used it again. My children are all healthy and strong. This medicine did wonders for me, saved me much suffering, and I can highly recommend it to weak women or those raising a family."—Mrs. A. W. Ross, 118 Tecumseh Street.

Here at the bottom of a dying world was the only naturally productive area upon its surface. Here alone were dew and rains; here alone was an open sea; here was water in plenty—and all this was but the stamping ground of fierce brutes, and from its beautiful and fertile expanse the wicked remnants of two once mighty races barred all the other millions of Barsoom.

Could I but succeed in once breaking down the barrier of religious superstition which had kept the red races from this El Dorado it would be a fitting memorial to the immortal virtues of my princess—I should have again served Barsoom, and Dejah Thoris' martyrdom would not have been in vain.

On the morning of the second day we raised the great fleet of transports and their consorts at the first flood of dawn and soon were near enough to exchange signals.

I may mention here that radio-aerograms are seldom if ever used in wartime or for the transmission of secret dispatches at any time, for as often as one nation discovers a new cipher or invents a new instrument for wireless purposes its neighbors bend every effort until they are able to intercept and translate the messages.

For so long a time has this gone on that practically every possibility of wireless communication had been exhausted, and no nation dares transmit dispatches of importance in this way.

Tars Tarkas reported all well with the transports. The battleships passed through to take an advanced position, and the combined fleets moved slowly over the ice cap, hugging the surface closely to prevent detection by the therns whose land we were approaching.

Far in advance of all a thin line of one man-air scouts protected us from surprise, and on either side they flanked us, while a smaller number brought up the rear some twenty miles behind the transports.

In this formation we had progressed toward the entrance to Omean for several hours when one of our scouts returned from the front to report that the conelike summit of the entrance was in sight. At almost the same instant another scout from the left flank came racing toward the flagship.

His very speed bespoke the importance of his information. Kantos Kan and I awaited him upon the little forward deck which corresponds with the bridge of earthly battleships. Scarcely had his tiny flier come to rest upon the broad landing deck of the flagship ere he was bounding up the stairway to the deck where we stood.

"A great fleet of battleships south-southeast, my prince!" he cried. "There must be several thousands of them, and they are bearing down directly upon us."

"The thern spies were not in the palace of John Carter for nothing," said Kantos Kan to me. "Your orders, prince."

"Dispatch ten battleships to guard the entrance to Omean, with orders to let no hostile vessel enter or leave the shaft. That will bottle up the great fleet of the Black Pirates."

"Form the balance of the battleships into a great V, with the apex pointing directly south-southeast. Order the transports, surrounded by their convoys, to follow closely in the wake of

"A great fleet of battleships south-southeast, my prince!" he cried.

which the transports, with their convoys, must race at top speed that they may gain a position above the temples and gardens of the therns.

"Here let them land and teach the holy therns such a lesson in ferocious warfare as they will not forget for countless ages. It had not been my intention to be distracted from the main issue of the campaign, but we must settle this attack with the therns once and for all or there will be no peace for us while our fleet remains near Dor, and our chances of ever returning to the outer world will be greatly minimized."

Kantos Kan saluted and turned to deliver his instructions to his waiting aides. In an incredibly short space of time the formation of the battleships changed in accordance with my commands, the ten that were to guard the way to Omean were speeding toward their destination, and the troop ships and convoys were closing up in preparation for the spurt through the lane.

The order full speed ahead was given, the fleet sprang through the air like courting greyhounds, and in another moment the ships of the enemy were in full view. They formed a ragged line as far as the eye could reach in either direction and about three ships deep.

A WOMAN can do a thing she doesn't want to without making unprintable remarks, but few men can.

Miller's Worm Powders are not surpassed by any other preparation as a vermifuge or worm destroyer. Indeed, there are few preparations that have the merit that it has to recommend it. Mothers, aware of its excellence, seek its aid at the first indication of the presence of worms in their children, knowing that it is a perfectly trustworthy medicine that will give immediate and lasting relief.

For the first time in New York's history a woman now holds the position of executive secretary to the mayor in that city. The new secretary is Miss Francis W. Rogers, who will receive a salary of \$4,800 a year.

Members of the newly organized Women's Police Reserves of New York city, are being placed on a war footing and are now undergoing courses of training to fit them in all manner of war emergency work. The organization now has a membership of 4,400.

CITIZENS' LIBERTY LEAGUE

Is Absolutely Opposed to a Return of the Old License System

The Citizens' Liberty League, consisting of prominent men and women in Ontario, place themselves on record as being unqualifiedly opposed to any measures that tend to bring back the bar and the unrestricted sale of spirituous liquors.

On the other hand, the Citizens' Liberty League sincerely believes that the present situation demands a repeal of the unsatisfactory Ontario Temperance Act, and the inauguration of sane, moderate temperance legislation.

These leading men and women, with no selfish ends to serve, and having in mind only the best interests of all the people in Ontario, are convinced that the true solution to the temperance problem is to allow the general sale of more appetizing, non-intoxicating beer and light wines, with the sale of spirituous liquors placed under proper Government regulations and restrictions.

Unite with the Citizens' Liberty League in its earnest, sincere endeavor to obtain temperance legislation which meets the needs of all but curtails the liberties of none.
