There is bread and BREAD

Because there is a difference in flour Bread is no better than the dough from which it is made, and the dough can be no better than the flour used. A vast army of particular Canadian women always use PURITY FLOUR.

Because loaves made with PURITY are more nutritious than those they can make with any other flour. PURITY home-made bread contains the blood-enriching, body-building elements of the world's strongest wheat. Order a trial sack of PURITY at your Grocer's, If , he does not handle PURITY FLOUR he'll be glad to stock it for you.

N.B. Remember-the guarantee.
