

About a year ago the Association took steps to secure from the "Old Boys" subscriptions for a Motor Ambulance to be used in Red Cross work. The response was such that the Ambulance is now in use and is being driven by an "Old Boy," S. L. Crowther.

As in the case of the School, so with the Association, its strength depends upon the co-operation and the adhesion of the "Old Boys." Happily a large and ready response was made to the recent appeal for new members. But it is hoped that the membership will grow to be much larger still, seeing that the Association has for its main object the advancement of the School.
