

By Dr. Ottosy :

Beginning with the session of 1896-97, the following shall be the requirements for the admission of students to the colleges of this association :

*a.* A certificate of having successfully completed at least one full year's course of study in the collegiate department of any college or university registered by the regents of the State of New York as maintaining a satisfactory standard.

*b.* A certificate of having passed, in a registered institution, examinations equivalent to the full collegiate course of the freshman year, or to a completed three years' academic course.

*c.* Regents of the State of New York pass cards for any forty-eight counts.

*d.* A certificate of having passed the matriculation examinations of any university in Great Britain or Ireland, or of having completed a course of study recognized as an equivalent therefor.

*e.* A certificate of graduation from any registered gymnasium in Germany, Austria, or Russia.

*f.* A certificate of the successful completion of a course of five years in a registered Italian *ginnasio*, and three years in a *liceo*.

*g.* The bachelor's degree in arts or science, or substantial equivalents, from any registered institution in France or Spain.

*h.* Any credential from a registered institution, or from the government in any foreign state or country, which represents the completion of a course of studies equivalent to graduation from a registered New York high school, academy, or from a registered Prussian gymnasium.

By Dr. Gray :

*Resolved*,—That law 7 of the by-laws, which now reads "attendance upon three full courses of not less than five months each in separate years shall be required before examination for graduation," be amended by substituting "six" instead of "five," to take effect on and after the year 1896-97.

By Dr. Willmott :

*Resolved*,—That at least twenty-nine months intervene between the beginning of the freshman year and the date of graduation.

The Committee on Text-books presented the following report, which was adopted :

Your Committee on Text-books would report that only two works of this character have been presented for its consideration :

One, a work on "Dental Anatomy and Pathology," by Dr. C. F. W. Budecker, of New York, 700 pp.; and the other, a smaller and less pretentious work of about 75 pp., on "Operative Technics," by Dr. Thomas E. Weeks, of Minneapolis.

Both of these works are in press and nearly completed. The treatment of their subjects is full, clear and concise, and the illus-
