Mail Courses

Which we are now Prepared to offer for Home Study

Our new and improved Course in **Bookkeeping** and **Business Practice** is just what every student should have. Let us send you sample lesson with particulars.

Then there is nothing better than our **Revised Course in Shorthand and Typewriting**. Many students are good writers and operators now who began this course only a few months ago.

You may search the whole world and find nothing superior to our **Course in Illustrating**. If you have any talent for Drawing this course will lead you to success. Two of our last year students are getting \$25.00 a week right now.

So it is with all our Mail Courses. They are good. They are helpful. They will give the intelligent, ambitious person the right start. Just look over this partial list, select a choice, mark X after it, clip it out, and give us a chance to help you by enclosing it to us with request for particulars.
