

Notes on some Canadian specimens of "*Lituities undatus*" (2 papers), by Dr. J. F. Whiteaves.

A Robin Story, by Emery Perrin.

The Lower Jaw of *Dryptosaurus incrassatus* (Cope), by Lawrence M. Lambe.

A Weed Worth Growing, by Dr. James Fletcher.

Biological Notes on Canadian species of *Viola*, by Theo. Holm.

Remarks on some Marsh Dwellers, by L. M. Terrill.

A Woman's Visit to a Peat Bog, by Miss M. McKay Scott.

Our Eagles and Ospreys, by Rev. C. J. Young.

President's Address, by W. T. Macoun.

Some Canadian Antennarias, by Edw. L. Greene.

A Night's Collecting for Moths at Meech Lake, by Arthur Gibson.

Besides several short articles, book reviews, etc.

An important series of articles on Nature Study, edited by Dr. J. Fletcher, have been published each month, beginning with May, 1903. They were written by Dr. James Fletcher, D. A. Campbell, Dr. S. B. Sinclair (2 papers), W. A. Dent, A. E. Attwood, Professor W. Lochhead, Dr. G. U. Hay, W. T. Macoun, L. A. DeWolfe, and J. W. Hotson. A large number of copies of each article was printed and distributed to teachers throughout the Dominion. These articles presented Nature Study from various points of view, and have doubtless proved of great value to those interested in the subject. They have proved so popular that a special committee of Council has decided to continue the publishing of these articles.

#### REPORTS OF BRANCHES.

The Botanical Branch reports as follows :—

" Good work has been done by the Botanical Branch during the past year. Professor J. Macoun, in his official capacity, spent the whole summer in Ottawa and vicinity studying the flora of the district, but especially the fungi for Part VIII of his Catalogue of Canadian Plants. He added over two hundred species to the Ottawa flora. Dr. James Fletcher has continued his studies of violets and has done good work in growing the different species
