Rev. Father Maturin, the formor well-known Anglican clergyman, delivered his first sermon as a Catholic price in the Church of San Silvestre in Rome.

The Maturin's sermon was listened to in breathless silence. It began in cold, dispassionate terms and with a calmness in and subduced excitoment of those who understood the momentous change which had been operated in the great pulpit cator, and subduced excitoment of those who made statisfactory account of this sermon will probably be a simple statement of what it did not deal with. It did not treat of the preacher's personality. It was not an apologia for his action; it did not recount his mennal doubte, hestition, and recolutions. It was not may continue the summary of the sermon growing in warmth as it wont on, and of a passionate appealing nature at its close. The oracin combat was a longer of the continuence of the sermon growing in warmth as it was not used to consider on the other hand, as the beginning and end of human existence. In a similar manuer the Bible is not to be considered exclusively as a book of doath.

Man may die "downwards," or he may die "outpassionation of the audience. The sermon, though wanting in that personal and motional charactor that was anticipated, was, partly on this account, mach more impressive for the calm and dispassionation of the audience. It may be only a trifling cold, but neglect it and it will fasten its fange in your lungs, and you will soon be ear-fed to an untimely grave. In this country we have sudden changes and most expect to have coughs and colds. We cannot avoid them, but we can effect a cure by using Bickle's Anti-Consumptive Syrup, the medicine that has never been known to fall in curing coughs, colds, bronchitis and all affections of the throat, lungs and cheet.

### Oak Hall.

Always abreatt of the times, Oak Hall is just now making an extra push in view of the heavy demands that will be made upon its well-selected stock of clothing between this and the Queen's birthday. The Victorian anniversary never fails to draw out Toronto's population in large numbers; and on that day the male portion—both old and young—put on their best clothes as an indispensable adjunct in the proper enjoyment of the festivities. Those who propose replenishing their wardrobes, in this and other connections, will be served at Oak Hall in unexceptional manner, whether as to goods purchased or prices. In either case the Hall stands unrivalled,

WARSHNOTON, May 17.—The official bulletin boards to-day falled to yield any news of the 1 verments of the three fleets, Sampson's, Schley's and the Spanish flying quadron, and there is reason to believe that the department itself has received no information on that point. The department officials are beginning to show a little sensitiveness to criticism in the matter of delay in the engeging of the Spanish fleet, conceious as they are that they have made all despatch comparishe with due regard for the safety of American ports as well as of the lives of the crews of American warships.

### A New Hall for Ottawa.

We are pleased to learn that our fellow-countrymen at the Dominion Capital are about to remove a want, the existence of which has been long and seriously felt, by providing themselves with accommodation for holding Catholic and Irish national meetings. At the last regular monthly meeting of the St. Fatrick's Literary Association a thoroughly representative committee was appointed for the purpose of conferring with the leading members of kindred organizations with a view of reaching a besis upon which a building such as is needed may be constructed. We will watch the progress of this important project with deep interest, and in the meantime wish it every success.
