Liquid Petrolatum, the Emollient and Lubricant

"Liquid petrolatum . . . when taken into the stomach passes into the intestinal tract unchanged; is not digested by the enzymes and is thus able to exert to the full its emollient and lubricating action. It is absolutely non-irritating."

From "Diseases of the Digestive Organs," by Charles D. Aaron, Sc.D., M.D., F.A.C.P., Prof. Gastroenterology and Dietetics, Detroit College of Medicine and Surgery.

NUJOL is the most suitable liquid petrolatum for use in intestinal stasis. The unexampled resources and experience of its makers, the Standard Oil Co. (New Jersey), guarantee its purity, wholesomeness and applicability to general requirements.

Nujol is scientifically adapted by both viscosity and specific gravity to the physiology of the human intestines. In determining a viscosity best adapted to general requirements, the makers of Nujol tried consistencies ranging from a water-like fluid to a jelly. The viscosity of Nujol was fixed upon after exhaustive clinical test and research and is in accord with the highest medical opinion.

Sample and authoritative literature dealing with the general and special uses of Nujol will be sent gratis. See coupon below.

Nujol

A Lubricant, not a Laxative

Nujol Laboratories, Standard Oil Co. (New Jersey),
Room 703, 44 Beaver Street, New York.

Please send booklets marked:

- "In General Practice" "In Women and Children"
 "A Surgical Assistant" Also sample.
