

EVERY DAY the conviction comes home to more physicians that Kasagra is the dependable aromatic fluid extract of Cascara.

Occasionally one is tempted to experiment on some other preparation for the purpose, but soon returns to Kasagra.

Nearly twenty years of unswerving fidelity to a standard of quality and strength, is a record worthy of your consistent patronage.

Kasagra is most economical in use, do not employ it in large doses, five to fifteen minims well diluted will give you better results.
