

Exercise —————

# Judgment

Are you open to conviction?

We consider we have used **good judgment** in the selection of designs for Exercise Books and Scribbling Books for 1902. We have departed from the style hitherto used and **know** we have something that **will appeal** to the scholars and students as something new and novel.

We **challenge** the Trade as a jury to pass **judgment** on this splendid line and are confident of a **satisfactory verdict**. What we ask of you is to **reserve your decision** until you have seen our lines—To see will be to convince.

We Await Your Verdict.
