USEFUL READING.

A gentleman in Utah thinks he has discovered a cure for cancer. It is a lemon poultice, applied twice a day.

A piece of vegetable charcoal laid on a burn soothes the pain, and of kept applied for an hour cures it completely.

There is no better remedy for cold feet than to slap the leg briskly just above the knee after raising the foot. The increased circulation induces immediate relief.

Always fill a coal-oil lamp every day before using. The bowl should never be allowed to get empty and be lighted in that condition. For the vacant space is always full of explosive gas.

Common salt is a valuable manure for most crops, and has been used from ancient times. Near the sea it is of no use, as the spray from the sea is carried inland and falls upon the soil; but out of the reach of sea vapor it is a useful application and ingredient of composts.

A female servant died suddenly a short time since in London. The doctor could not account for the death, and made a post mortem examination, which showed that the stomach had been reduced to the size of a little child's, and the heart pushed out of its proper place through tight lacing. FOR WASHING STRIPED STOCKINGS .- Make a jelly,

the dry before it is wanted, of the best yellow soap wash the stockings in warm water with a little salt in it, using the jelly instead of soap; rinse in clear water, also with a little salt in it; wring as dry as possible, and dry quickly.

Farmers' sons should be learned how to graft, and every spring change some varieties of fruit that have proved less than the first class into first class, either in quality or productiveness. There are but a few orchards that do not contain more or less trees that are unprofitable, because of the varieties they bear.

SIMPLE REMEDY FOR CROUP .- A lady correspondent of the Maine Farmer, says the following is an effective remedy for croup:—" Half a teaspoonful of pulverized alum in a little molasses. It is a simple remedy, one almost always at hand, and one dose seldom fails to give relief. If it should, repeat it after one hour.

To RELIEVE NEURALGIA .- A New Hampshire gentleman says: "Take two large tablespoonfuls of fine salt; mix them together in a small bottle; every time you have any acute affection of the facial nerves, or neuralgia, simply breathe the fumes into your nose from the bottle, and you will be immediately relieved."

A SIMPLE CURE FOR SORE THROAT .- A well informed friend sends us the following: Take the whites of two eggs and beat them in with two spoonfuls of white sugar; grate in a little nutmeg, and then add a pint of lukewarm water. Stir well and drink often. Repeat the prescription, if necessary. Our friend thinks it will cure the most obstinate case of hoarseness in a short time.

For damp closets and cupboards which generate mildew, a trayful of quicklime will be found to absorb the moisture and render the air pure, but it is necessary to renew the lime from to time as it becomes fully slacked. This last remedy will be found useful in safes and strong rooms, the damp air of which acts frequently most injuriously on the valuable deeds and documents which they con-

A HOMB MADE DISINFECTANT .- Dispolve a bushel of salt in a barrel of water; and with the salt water slack a barrel of lime, which should be wet enough to form a kind of paste. For the purpose of a dis-infectant, this home-made chloride of lime is nearly as good as that purchased at the shops or drug stores. Use it freely about sinks, cellers, gutters, and out-houses, and in this way prevent sickness, suffering and expense.

CARROT Sour .- Take two quarts of stock, and to this add from six to ten carrots, according to size, three turnips, three or four onions, and let them stew till tender. Then take out the vegetables, strain the soup, and with a spoon take off the red part of the carrots from the yellow center, and force it through a coarse sieve; add the pulped carrot to the soup, till it is as thick as good cream ; warm it and serve at once.

AUTUMN PLANTING OF POTATOES.—Experiments have been conducted in Paris with reference to a method of autumn planting of potatoes, by which new potatoes may be dug in January. The sets are planted in August on a thin layer of salt, which appears to be the special secret in the process, and the potatoes are earthed in September, the ground being cleared of weeds in October. The result is a crop of seven or eight fair-sized tubers to each root in January.

XYLINDEIN, A NEW DYE-STUFF.-The xylindein has been given to a green dye-stuff, examined by Fordos and Rommier, which results as a pathological effect of Peziza aeruginosa in dyeing wood of the beech, oak and birch, often to such an extent as to impart a dark blue-green appearance to large blocks. This coloring matter has been extracted from the greencolored wood, by Libermann, with carbolic acid, and has been precipitated from the dark-green solution in dark-green flakes, by the addition of alcohol or either. By recrystallization from the solution in carbolic acid it was obtained in small four-sided crystals of a high coppery lustre. These are insoluble in most solvents, except in concentrated sulphuric acid, with a grass-green color, and in carbolic acid and aniline, with a beautiful dark-green color. No formula can as yet be given for it.

COAL OIL AS A REMEDY .- There is no doubt of the efficacy of coal oil for hog cholera, quinsy and chicken cholera. Mr. Bazil Lisle, a well-to do farmer of this county, had about sixty hogs down with the quinsy and cholers, and had abandoned the hope of saving them especially those attacked with quinsy. His fat hogs, ready for market, where mostly helpless, when a friend proposed to drench them with coal oil, which relieved and cured them without loss of a hog. The remedy is given in this way: The hog is gagged, pulled up on the fence and about half a teacup full is poured down for the quinzy; the throat is rubbed externally. For the cholera or kidney disease, pour the oil along the back after drenching. Mr. Lisle also relieved his chickens and those of his neighbors by the same remedy. Your correspondent remained over night with Mr. Lisle and vouches for these facts, with similar cures in that and other sections by this application - Vancebury, Ky.

NEW PROCESS FOR THE PRESERVATION OF WOOD .-A new process for preserving wood from fire and decay has been invented by Messre. Weatherby and Moore. It consists first in kiln-drying the wood, which deprives it of all moisture and much of its volatile turpentine and other inflammable matters. It is then put into suitable cylinders, in which lime and water, with sulphurous acid gas, are forced into the pores of the wood under considerable pressure. The wood is removed, dried, and is then ready for use. The chemistry of the process consists in the formation of a soluble sulphate of lime by means of the sulphurous acid and the lime; this crystallizes as a bisulphite, which oxidizes and is converted into the sulphate of lime or gypsum. As this is an exceedingly insoluble salt, it is not easily removed from the pores of the wood, and not only hy its presence protects it as a non-conductor of heat, but deoxidizes all matters which are likely to prove objectionable as ferments.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable. healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color,

with the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre and a grateful

DE LA SALLE INSTITUTE, Nos. 18, 20 & 22 Duke Street,

TORONTO, ONT.

DIRECTED BY THE CHRISTIAN BROTHE 38. This thoroughly Commercial Establishment is un der the distinguished patronage of His Grace, the Archbishop, and the Rev. Clergy of the City.

Having long felt the necessity of a Boarding School in the city, the Christian Brothers have been untiring in their efforts to procure a favorable sitwhereon to build; they have now the satisfaction to inform their patrons and the public that such a place has been selected, combining advantages rarely met with.

The Institution, hitherto known as the "Bank of Upper Canada," has been purchased with this view and is fitted up in a style which cannot fail to render it a favorite resort to students. The spacious building of the Bank—now adapted to educational purposes—the ample and well-devised play grounds and the ever-refreshing breezes from great Ontario all concur in making "De La Salle Institute" whatever its directors could claim for it, or any of its patrons desire.

The Class-rooms, study-halls, dormitory and refectory, are on a scale equal to any in the country.

With greater facilities than heretofore, the Christ ian Brothers will now be better able to promote the physical, moral and intellectual development of the students committed to their care

The system of government is mild and paternal yet firm in enforcing the observance of established No student will be retained whose manners and

merals are not Eisfactory: students of all denominations are admitted. The Academic Year commences on the first Mon-

day in September, and ends in the beginning of COURSE OF STUDIES.

The Course of Studies in the Institute is divided into two departments-Primary and Commercial. PRIMARY DEPARTMENT.

SECOND CLASS.

Religious Instruction, Spelling, Reading Notions of Arithmetic and Geography, Object Lessons, Principles of Politeness, Vocal Music. FIRST CLASS.

Religious Instruction, Spelling and Defining 1th drill on vocal elements,) Penmanship, Geography, Grammar, Arithmetic, History, Principles of Polite ness, Vocal Music.

COMMERCIAL DEPARTMENT. SECOND CLASS.

Religious Instruction, Reading, Orthography Writing, Grammar, Geography, History, Arithmetic (Mental and Written), Book-keeping (Single and Double Entry), Algebra, Mensuration, Principles of Politeness, Vocal and Instrumental Music, French. FIRST CLASS.

Religious Instruction, Select Readings, Grammar Composition and Rhetoric, Synonymes, Epistolary Correspondence, Geography (with use of Globes) History (Ancient and Modern), Arithmetic (Mental and Written), Penmanship, Book-keeping (the latest and most practical forms, by Single and Double Entry), Commercial Correspondence, Lectures on Commercial Law, Algebra, Geometry, Mensuration, Trigonometry, Linear Drawing, Practical Geometry, Architecture, Navigation, Surveying, Natural Philosophy, Astronomy, Principles of Politeness, Elocution

Vocal and Instrumental Music, French. For young men not desiring to follow the entire Course, a particular Class will be opened in which Book-keeping, Mental and Written Arithmetic, Grammar and Composition, will be taught.

TERMS Board and Tution, per month, \$12 00 Half Boarders, 7 00 PREPARATORY DEPARTMENT. 2nd Class, Tuition, per quarter, ... 4 00 1st Class. " 5 00 1st Class, "

FITS! FITS! FITS!

CURE OF EPILEPSY; OR. FALLING FITS, BY HANCE'S EPILEPTIC PILLS.

Persons labering under this distressing malady, will find Hance's Epileptic Pills to be the only remedy ever discovered for curing Epilepsy or Falling Piles. The following certificates should be read by all the afflicted; they are in every respect true, and should they be read by any one who is not afflicted himself, if he has a friend who is a sufferer, he will do a humane act by cutting this out and sending it to him.

A MOST REMARKABLE CURE.

A MOST REMARKABLE CURE.

PHILADELPHIA, June 23th, 1857.

SETH HANCE, Baltimore, Md. — Dear Sir: Scenny your advertisement, I was induced to try your Epileptic Fills. I was attacked with Epilepsy in July, 1863. Immediately my physician was summoned, but he could give me ne relief. I then consulted another physician, but I seemed to grow worse. I then tried the treatment of another, but without any good effect. I again returned to my family physician; was supped and bled several different times. I was generally attacked without any premonitory symptoms. I had from two to five fits a day, at intervals of two weeks. I was soften attacked in my sleep, and would fall wherever I would be, or whatever be occupied with, and was severely injured several times from the falls. I was a flected so much that I lost all confidence in myself. I also was affected in my business, and I consider that your Epileptic Pills cured me. In February, 1865, I considered to use your Pills, and only land two netacks of a less serious character. With the blessing of Provider event medicino was made the instrument by which I was creed of that distressing affliction. I think that it. Pills and their good effects should be made known everywhere, that persons who are similarly affected may have the bonofit of them. Any person wishing further information can obtain it by calling at my residence, 10, 835 North Third St., Palladelphia, Ta.

VILLEAN ELBER.

is there a cure for epilepsu:

THERE A CURE FOR EPILIPSY:

The subjoined will answer.

Grenada, Miss., June 30.—Erm S. Harce.—Dear Sir:
Ton will find enclosed five dollars, which I send you for
two boxes of your Epileptic Pills. I was the first jerson
who tried your Pills in this part of the country. My son
was badly allieted with fits for two years. I wrote for
and received two boxes of your Pills, which ho took according to directions. He has never had a fit stuce. It
was by my persuasion that Mr. Lyon tried your Pills.
His case vras a very bad one; ho had fits nearly all his
life. Persons have written to me from Alabama and
Temessee on the subject, for the purpose of ascertaliting my opinion in regard to your Pills. I have alwars
recommended them, and in no instance where I have recommended them, and in no instance where I have had a change of hearing from their effect have they failed to cure. Yours, etc., C. H. Gry, Grenada, Yalabusha County, Miss.

ANOTHER REMARKABLE 💍 cure of epilepsy; or, falling figs. BY HANCE'S EPILEPTIC PILLS.

BY HANCE'S EPILEPTIC PILLS.

Montgomery, Tenas, June 20th, 1837.

To Seth S. Hance:—A person in my employ had been salicted with Pits, or Epilepsy, for this teen years; he had these extracks at intervals of two to four weeks, and oftentimes soveral in quick succession, sometimes continuing for two or three days. On several occasions they lasted until his mind appeared totally decaped, in which state he would continue for a day or two after the fits occased. I tried several renedies prescribed by our resident physicians, but without success. Having seen your advertisement I concluded to try your renedy. I obtained two boxes of your l'Ills, gave them according to directions, and they effected a permanent cure. The person is now a stout, hoalthy man, about 30 years of age, and has net had a fit since he commenced taking your medicine, ten years since. He was my principal variouer, and has, since that time, been exposed to the sevenest of wentler. I have great confidence in your remedy, and would like every one who has lits to give it a ten!

STILL ANOTHER CURE.

Read the following testimonial from a respectable citizen of Grenada, Massissippi. Read the following testimonial from a respectable citizen of Grenada, Massanjah.

SETH S. HANCE, Baltimore, Md.—Denr Sir: I take great pleasure in relating a case of Spassms, or Fits, cared by your hyalumble Fils. My brother, J. J. Ligon, has boug been afflicted with this awful disease. He was first attacked while quite young. He would have one or two spasms at one attack at first, but as he grew older they seemed to increase. Upto the time he commenced taking your Fills he had them very often and quite severe, prostraing him, body and mind. His mind had suffered scriously, but now, I am happy to say, he is cured of those fils. He has enjoyed fine health for the last five months. His mind has also returned to its original brightness. All this I take great pleasure in communicating, as it may be the means of directing others to the remedy that will cure them. Yours, respectfully, etc., W. P. Ligon.

Sent to any part of the country, by mail, free of postage, on receipt of a remittance. Address, SETH S. HANCE, 108 Extumore St., Baltimore, Md. Price, one box, 63; two, &: twelve, 52;
