## Annex to paragraph 2 of Article 4

- Designation (code name, nickname) and type of manoeuvre or other training exercise,
- time and date of the beginning and end of the manoeuvre or other training exercise, of assembly and departure, and of the preparatory measures,
- designation of the area in which the manoeuvre or other training exercise is to be conducted (to be accompanied by maps or sketches on a suitable scale),
- a) the total strength of the units engaging in the exercise (with units of a different nationality to be identified separately),
  - the total number of wheeled and tracked vehicles to be employed,
  - c) the number of wheeled and tracked vehicles classified in or above Class 24 pursuant to STANAG 2021 (including identification of the class of the heaviest vehicle),
    - the areas and roads where vehicles are principally to be employed,
- 5. number, type, employment area and flight altitude of aircraft to be employed,
  - off-base landings, parachute jumps, or cargo drops from aircraft, and where such exercises are probably to take place,
  - 7. envisaged earthworks by type and extent,
  - 8. requirement of camouflage material,
  - 9. employment of blank, simulator and/or smoke ammunition,
