flat wooded valley] to the Little Falls at the Junction of Fire Steel River  This last portion navigable for light steamers	10	••	••	37½
by a dam about 36 feet high, above the Falls.	65	••	65	
7 From the Little Falls [24½ feet high] down the valley of the Seine, now bounded by low hills, of the primitive formation, to the upper entrance of Rainy Lake	••	66)	••	367
this portion of the river.  8 Down the upper and narrow portion of Rainy Lake, 20 miles; then through the main lake with its rocky shores, and 2 miles beyond, down Rainy River [with 6 feet fall] to Fort Frances, at Rainy Falls, in all  The islands in this lake [over 500 in number] are mainly composed of palo red granite and chloritic and greenstone slate, and though picturesque, present a barron and desolate appearance. The lake freezes over about the 1st of December. There is a population of 15,000 Indians here.  Portage at Rainy Falls, 171 yards, requiring	50			10
two locks  From Fort Frances down Rainy River [from 250 yards to a quarter of a mile wide, and very winding], through a beautifully fertile alluvial country, studded with maple, birch, poplar, and oak, and containing at least 260,000 acres of the very best soil, to the Lake of the Woods. There are two insignificant rapids 31 miles below the Fort, which a steamer of moderate power could stem with east.  Across the Lake of the Woods, 55 miles, and	74		••	23
