Mr. Cooper admitted that it was very hard for him to stick to his resolution not to run for the board of control next year, but stated that the decision had been made several months ago, and that it was prompted by a desire to rest. His recent defeat for the pro-vincial legislature, he declares, had nothing to do with the matter.

The controller's remarks were in reply to a complimentary vote of appreciation and thanks for his services this year on the works committee. Several members of committee expressed the hope that he would reconsider his decision, and again make the race for controller.

Chairman Wallace of the committee was also the recipient of several bou-quets from his fellow members on the efficient manner in which he had handled the business of the committee

In view of the great amount of public work done this year, however, this showing is considered very creditable. The order paper tonight was very short, and only a small amount of routine business was transacted. After the meeting the members of committee, city solicitor, employes of city engineer's office, and newspapermen, adjourned to an oyster supper, with Controller Cooper as host.

Mr. Robinson's explanation that the assessment of property had twice been doubled since it had been taken into the city, was accepted by the mayor, altho the assessor admitted that the assessment was considerably below what it should have been on the basis of its value.
