RAILWAY NOTES.

Yesterday the representatives of the Brotherhood of Railroad Trainmen had a conference with Superintendent Leonard. Mr. Leonard's assistant stated that the men had gone away satisfied. One of the men was seen at the Palmer House later, but he refused to make any statement. The earnings of the Grand Trunk continue to increase. For the week ending May 7 the receipts were \$40,774, an increase of \$41,201 over the corresponding week last year.

At the meeting of the Executive Committee of the Transcontinental Road, held in Chicago to arrange the passenger rates, no representatives of the G. T. R. were present.

A party of about 40 French-Canadians passed over the G.T.R. yesterday on a tour to Seattle. The C.P.R. have arranged a series of homecoming excursions, as follows: June 28, July 12, 14, 18. The rates from any point in Ontario, to Winnipeg, D. L. railway, Estevan, Moosemin, and Dauphin, will be \$25; to Regina, Yorkton and Moosejaw, \$30; to Calgary and Prince Albert, \$35; to Edmonton and Red Deer, \$40. New regulations have been made by the G.T.R., which will be of interest to shippers of perishable goods. Butter, cheese, eggs, etc., may now be loaded at Sarnia, Tulse, East, Buffalo, Don, Montreal, Island Pond or Danville Junction. The C.P.R. summer train service will not be put into effect until May 23. The G.T.R. service will go into effect May 15.

Miss Held at the Grand Trunk.
The organization will present at the Grand Trunk railway and evening, two plays of more than ordinary interest, the famous study of American-Chinese life, "The Cat and the Church," and a short comedy, entitled "A Gay Deceiver."

Miss Held is now closing a ten thousand-mile tour. After playing here, she will appear for some weeks in the large eastern cities, and then go directly to Europe, sailing in May from New York, where she has contracts for appearing in Berlin, Vienna, Budapest and St. Petersburg. She will sing five or six songs in French and English, and we will then have an opportunity of judging what there is about her that has caused her to be the most talked-about artist who has come to this country for many years. Box office now open.

Let the Dandelion Die.
The clipping off of the heads of the dandelion weed will never rid the Queen's Park of the pest. The longer the weed remains unrooted, the deeper down will the roots run; and, no one ever heard of a dandelion dying of old age. A dozen men, employed for a week to root up the weed, would rid the lawn of this noxious plant, and would make the park a thing of beauty, without spot or blemish.

Steel Engravings or Photographs.
There are two, either steel engravings or photographs, made on small photographs, in Mr. Lyndon's window. The beautiful figure of a lady stands in bold relief on an apparently plain-covered wall. She is descending a flight of stairs after the Queen Louise style, and one can almost see movements in the figure. They are certainly de art's creation.

Preparing the Grand Reports.
Toronto Diocese Standing Committee met in the synod office yesterday to prepare reports which will be presented to the Synod. The committees were: Mission Board, Sec. Endowment, Land, Clergy, Trust Fund, Widows and Orphans Fund, Sunday School, Book and Tract. Another meeting will be held this afternoon.

Indians Killed to Eat.
Inspector Rogers and Game Warden Smith arrested one of the 20 Indians from Golden Lake, R. N. W., for killing moose. The lawyer defending the Indians claimed that the moose were shot to keep the red men from starving. Indian Agent Bennett promised to vouch for the future good conduct of his wards. The penalty imposed was remitted.

GRAIN AND LUMBER BURNED.

Over a Million Dollars' Worth of Property Destroyed in Chicago.

Elevator D. of the Chicago, Burlington & Quincy Railroad, gone up in smoke along with a lot of lumber—half a dozen lumber yards blazing at once—Armour owned the grain and it was fully insured.

Chicago, May 12.—Grain elevator D, belonging to the Chicago, Burlington and Quincy Railroad, was destroyed by fire this afternoon. Losses on building and contents will aggregate about \$1,200,000. The elevator contained 1,115,000 bushels of grain, valued at \$800,000, the property of P. D. Armour. The grain was fully insured.

The elevator stood at Lumber and Brown streets, on the west bank of the Chicago River, near the 22nd-street lumber district. It was used as a grain warehouse by P. D. Armour, and had a capacity of 2,800,000 bushels. The cupola of the elevator fell within an hour after the flames were discovered, and after that the fire department rapidly lost control.

Under the influence of a strong wind, the flames began to spread in every direction, and seized on the huge piles of lumber in half a dozen lumber yards within a few squares of the elevator. The Lord & Bushnell Lumber Company was the first concern whose property was set on fire from the elevator. The lumber yard of D. S. Tate & Company was next destroyed and 40 freight cars on their sidetracks were consumed, with their contents of finished lumber.

The yard of Arthur Goulet & Company caught fire, but quick work on the part of the firemen headed off the flames in this direction.

Francis Beldor & Company's yard, adjoining the Goulet property, caught next, and before the fire department steamers on the river could reach the Beldor plant, it was entirely destroyed.

A Most Exciting Fire.
The fire was a most exciting one. Railroad employees, with a battery approaching recklessness, took switch engines in on the sidetracks leading between the blazing lumber piles, and coupling to standing freight cars, dragged them, blazing, from the heart of the fire. The gravest apprehensions as the fire spread were confined for the great gas tanks of the People's Gas Light and Coke Company. A strong patrol of firemen, with two engines and a quantity of other apparatus, was detailed for duty in the vicinity.

At 1:45 p.m. the fire department believed they had the flames under control. There was an explosion of grain dust in elevator D, which wrecked the interior, before the flames had made much progress. The grain handlers at work in the elevator were compelled to slide down the chutes used for loading grain into the cars.

Elevator D, which was used by P. D. Armour as a storehouse, contained 100,000 bushels of wheat, 625,000 bushels of corn, 200,000 bushels of oats, 150,000 bushels of barley and 40,000 bushels of rye.

At 2 p.m., when the fire was practically under control, there were four acres of lumber piles still burning.

Dennis Swaminie, the veteran chief of the fire department, was seriously injured. His face was severely burned.

William M. Atherton, engineer of the elevator, and his fireman, Dennis O'Connor, are missing.

TELEGRAPHIC BRIEFS.
The British steamer Windward, which Lieut. Peary will use on his new Arctic expedition, arrived at New York yesterday.

The Prize Commission have decided to release the Spanish steamer Miguel Jover on the ground that she carried an American cargo. The Miguel Jover is valued at \$700,000. The Buena Ventura, the first ship taken, is to be held as a lawful prize.

The members of the American Bondan mission have retired to Sierra Leone, West coast of Africa, owing to the threatening attitude of the natives.

The United States Senate Committee on Finance have decided to increase the tax on manufactured tobacco to 10 cents per pound. The War Revenue bill drawn up by the House provided for a tax of 10 cents per pound. Tobacco on hand is to be exempt from the operation of the bill.

MOTHER AND CHILD BURNED.

Sad Affair Which Happened Yesterday at North Buxton, Ont., May 12.—At about 3 o'clock this morning the house occupied by Mrs. Henderson, a widow, and her 10-year-old daughter, took fire and was totally destroyed. Mrs. Henderson and the little girl were burned to death. No cause has yet been ascertained for the fire.

Departmental Store

DIRECTORS—H. H. Fudger, J. W. Flavell, A. E. Ames.

A New Clothing Store

We want the trade of men and young men, as well as the women and children, and we've started out in unusual fashion to get it. The clothing department has just been moved into the new Richmond street building, and surrounded with such room and light and facilities as make it the brightest and most attractive clothing store in town. The enthusiasm of that fact is the enthusiasm of success. The new addition means something more than a mere happen-so, and those who care to watch this business will find us ready at every point for all the trade there is.

To-morrow and Monday will be Reception Days in the new store. We've made it worth your while to come and see what we look like by making it possible for you to save money. We know enough of human nature not to ask your time and trouble unless we can reciprocate with some such values as these:
