the available shipping space is being

There are several lots of export cattle

IS EXPECTED

The Situation at Bear Island Is Threatening.

More Hostile Indians Probably on the Warpath-Burial of the Victims.

Walker, Minn, Oct. 10 .- The situaion last night was more ominous than ever. At the agency a council was held between the Indians, Gen. Bacon, Col. Herbach, Indian Agent Sutherland and Marshal O'Connor. The result of the conference was not in any way unlike that of those previously held, except in the fact that not one of the leading men of the different bands were present.

There were, however, representatives present from Bear Island, Cass Lake, Otter Tail Point and Pine Point, but none of these have any influence with the tribesmen. The only conclusion to be drawn is that the leaders of the different bands sent men there merely as stool pigeons and that others of their number are now preparing for the war path. A most significent fact is this: Saturday 30 canoe loads of Bear Island Indians and their families, professing to be peaceful, arrived at the agency. Today every one of the bucks in the party left, but where they have gone is only to be surmised. There is little doubt, however, that they have left for Bear Lake to join those who are already prepared to fight.

There must be by this time several hundred armed men on the island, and from what can be learned today many more are on the road. Two or three of the Bear Island men, who are still on the agency, have been questioned in regard to last Wednesday's battle, but they positively stated they knew nothing whatever in regard to the dead and wounded among the Indians, and had seen none of those who were in the fight.

Gen. Bacon announced that the last council would be held Monuay and the Indians dispersed. That the Indians have been gather-

ing for several days past is a wellknown fact. Flatmouth and his band of 40 Chip-

pewa Indians may be on the war path before another day has passed. BY WAY OF PARIS

An Alleged Recent Statement Made by Mr. Chamberlain.

Paris, Oct. 10.-The Evenement today publishes the substance of an interview with Mr. Joseph Chamberlain, the British secretary of state for the colonies, who is now in America, in which the English statesman is quoted as saying he considers the United States, owing to the recent war, to be in the same position as Great Britain in Egypt, adding that the United States has the same imperative duty to keep the Philippine Islands. Chamberlain is said to have added: 'The moment has arrived for the United States to prepare for an extension of its territory, and in order to realize this ideal, she will not refuse Great Britain's support. United Great Britain, the United States and Canada will be invulnerable."

LEO XIII. TO WORKINGMEN

He Warns Them Against Revolution and Socialism-Misery and Ruin the Result.

Rome, Oct. 10.—The pope yesterday received a party of French pilgrims, who came to thank his holiness for confirming the traditional protection exercised by the French in the east. In the course of his address to the pilgrims the pope said:
"You who represent the France of

labor are not ignorant of the fact that upon you devolve important and grave duties affecting the whole of society. If the democracy draws its inspiration from the teachings of reason it is en-

lightened by faith. "If, while guarding against fallacious and subversive theories, it accepts with religious resignation and as a fact the diversity of classes and poli-cies; if in search of a solution of social problems it does not lose for an instant the sight of the human charity which Christ declared to be a characteristic note of his children; if it is willing to be Christian it will give your country future peace, prosperity

and good fortune.
"If, on the other hand, it abandons itself to revolution and socialism; if it is deceived by foolish Utopias; if it devotes itself to destructive demands upon the fundamental laws upon which rests all civil order, the immediate effect will be for the working classes

The address of his holiness was re-ceived with great enthusiasm by the pilgrims, who gave hearty cheers for the "pope of labor." The pope pro-nounced his benediction upon the pil-

TWO WATER MAINS

Connection of the West London Water Works System With the Chief Main-Water Off Nine Hours-Little Inconvenience to Consumers.

The connection of the West London water main with the chief main from the waterworks was accomplished Saturday night in less time than was antleipated by Foreman Alston and his men. Water was shut off in the city at 9 o'clock in the evening, and turned on again at 6 o'clock next morning. A cut-off valve was put in at the same time, and the job throughout was very successfully done. London has now a double main from a point just west of the west cove, and no danger need be feared of a water famine as a result of a break in the main.
