

**FINED FOR HIRING CHILDREN.**  
ST. CATHARINES, Sept. 11.—The Independent Rubber Company of Merritt and Kinsella Paper Company paid fines of \$12 and \$10, respectively, today, for having children under 14 years of age in their employ.

### Catarrh Of the Stomach Is Dangerous

"Thousands Have It and Don't Know It," Says Physician. Frequently Mistaken for Indigestion—How To Recognize and Treat.

"Thousands of people suffer more or less constantly from furred, coated tongue, bad breath, sour burning stomach, frequent vomiting, rumbling in stomach, bitter eructations, gas, wind, and stomach acidity and all this indigestion when in reality they are suffering from catarrh of the stomach," writes a New York physician.

Catarrh of the stomach is dangerous because the mucous membrane lining of the stomach is thickened and a coating of phlegm covers the surface so that the digestive fluid cannot mix with the food and digest them. This condition soon breeds deadly disease in the fermented, unassimilated food. The blood is polluted and carries the infection throughout the body. Gastric ulcers are apt to form and frequently an ulcer is the first sign of a deadly cancer.

In catarrh of the stomach a good and safe treatment is to take before meals a teaspoonful of pure Bismarck Magnesia in half a glass of hot water as hot as you can comfortably drink it. The hot water washes the mucus from the stomach walls and draws the blood to the stomach while the Bismarck Magnesia is an excellent solvent for mucus and increases the efficiency of the water treatment. Moreover, the Bismarck Magnesia will serve as a powerful but harmless antacid which neutralizes any excess hydrochloric acid that may be in your stomach and sweeten its food contents. Easy natural digestion without distress of any kind should soon follow. Bismarck Magnesia is not a laxative, it harmonizes, it soothes, it takes and can be obtained from any local druggist. Don't confuse Bismarck Magnesia with other forms of magnesia, milks, citrates, etc., but get it in the pure Bismarck form (the hot water), especially prepared for this purpose.—Adv.

Face Peeling Easy—  
Blonde or Brunette

"The blonde complexion fades early, because her skin is so thin and fine," says Mme. Lina Cavallieri. The brunettes, as a rule, is the reverse. The skin is thicker and has a tendency to an oily appearance.

For either the faded blonde skin or the brunettes' oily or sallow complexion, the best remedy is ordinary mercurized wax. Used every day, this will give you an entirely new complexion within a week's time. The wax gradually peels off the old skin, and the new skin with all its defects, a little each day, without affecting the delicate under-skin in the least. The latter will have the exquisitely beautiful glow of youth—indeed, one may readily lose ten or fifteen years from her age, so far as appearance goes, by a course of this simple treatment. The wax, procurable at any drug store, is applied like cold cream.—Adv.

How to Rid the Skin  
of Objectionable Hairs

(AMIS to Beauty.)

A simplified method is here given for the quick removal of hairy or fuzzy growths and rarely is more than one treatment required. Mix a stiff paste with some powdered detolene and water, apply to hairy surface and after 2 or 3 minutes rub off, wash the skin and every hair has vanished. This simple treatment cannot cause injury, but care should be exercised to get real detolene.—Adv.

## Western Fair Visitors and Their Friends

Are cordially invited to visit the factories of the BATTLE CREEK TOASTED CORN FLAKE COMPANY, LIMITED, and see the process and packing of KELLOGG'S TOASTED CORN FLAKES—the kind everybody knows—in the Red, White and Green packages.

Open to visitors from 10 a.m. to 5 p.m. Thursday and Friday; 9 to 12 Saturday.

## BILL AND DAN WILL NOT LOSE GRIP ON C.N.R.

M. P. for Pontiac Is Out-spoken.

WHY NO NEW BOARD?

Why Is MacKenzie's "Man Friday" Still at Head of Road?

OTTAWA, Sept. 11.—F. P. Casill, M. P. for Pontiac, who last session assumed the role of railway critic on the Opposition side, is not impressed with the progress being made by the Government in the solution of the railway problem.

"Last session," he said today in the course of an interview, "I frequently asked the Government what its proposed railway policy was, but was unable to exact from them any information as to what they intended to do with regard to the management and operation of the Canadian Northern in particular. I felt convinced that it was not really the intention of the Government to take from the Mackenzie & Mann group control of the system and the frequent presence in the lobby of last session of the two railway knights and their henchmen, strengthened my conviction that these gentlemen had no intention whatever of losing their road."

Bill's Man Friday.

"My conviction in that respect has been confirmed by the report (not denied) that Mackenzie's 'Man Friday' is to be head of the so-called reconstructed management. Hanna's only qualification for the position known to the public is his knowledge of the most direct route to the Government to take the road over because it has been a failure, why take the man under whose guidance it was made a failure?"

"The premier," said Mr. Casill, "told us in the House last session that he was going to appoint a new board. He told us the same thing in Toronto a few days ago, and the public believed he meant what he said. Surely he cannot think that this deception of calling the old directorate a new board of management is a good thing for the public."

Evolved by Union Brains.

"It is hardly conceivable that the Government which lightly added an additional half a trillion-dollar burden to the gross debt of the Dominion and the taxpayers of the country would have done so without having given some consideration as to the management of the undertaking, and yet since the premier's return we are told that he and his bulky cabinet of the boasted best brains of the country have not almost continuously only to evolve what—simply to leave the management to all intents and purposes as it stood before, and Mackenzie & Mann are to be granted an additional gratuity of millions. Does the whole thing not seem absurd unless, I believe, this was the intention from the very start."

CHANGES IN FOE GOVT.  
MAY COME SOON AS  
RESULT OF PEACE PLAN

Reichstag Majority To Ascertain Feeling Concerning Policy.

Amsterdam, Sept. 12.—In view of the recent events, says the Berlin correspondent of the Frankfurt Zeitung in discussing rumored Government changes, it is highly probable that the Reichstag majority will ascertain definitely whether the Government is strong and bold enough to openly and honestly pursue the policy of peace by understanding based on the terms of the armistice, or whether it is large section of the Reichstag majority, the correspondent adds, regard internal reforms, especially equal Prussian suffrage, as an important means of maintaining the empire's strength in the war, and will, in the event of the Government proving too weak or otherwise unfitted to champion these reforms, insist upon personal changes in the Government.

## AN INTERNAL COMBUSTION NEAR THE RHINE

If every motor car in Canada were an armored tank and could drive its usual Sunday mileage into the heart of the enemy's line, there would be an internal combustion of some proportions near the Rhine!

And it is not all a dream. Gasoline as fast as it can be produced and transported is firing the pistons of thousands of engines near the battle line. Gasoline is the one power requirement that needs to flow in a constant stream. Check its source for an instant and some sector on the line, some fresh offensive suffers, and so the war drags on just that much longer. Our boys have to fight harder!

Now Canada is facing a shortage of supply. Business on farm and in factory must go on. Our fuel controller sounds the warning that war needs and necessary work at home in farm and factory are likely to run short of gasoline.

Unnecessary expenditure of energy can be stopped under such an appeal. Every patriot who sees that his extra motor ride is going to dip down into the reserves of gasoline will think twice before he throws his car into high gear. If every car, save the paltry few engaged in essential services, would stand still next Sunday, over \$150,000 worth of gasoline and motor wear and tear would be saved, to win the war. Save gasoline, money—make victory sure.

## Former Empress of Russia and Daughters Slain

London Daily Express Claims To Have Unquestionable Information.

London, Sept. 12.—The Daily Express claims to have unquestionable information that the former empress of Russia and her four daughters have been murdered by the Bolsheviks.

## ADVISES USE OF ARMORED CARS IN PETROGRAD STREETS

Soviet Government Issues an Order to All People Commissaries.

Amsterdam, Sept. 11.—The Soviet Government has issued a significant order to the all peoples' commissaries to take precautions for their personal safety, according to a Moscow dispatch to the Rheinische Westfälische Zeitung. The order urges the use of only strongly-manned armored motor cars in the streets of Petrograd and Moscow.

[Special to The Advertiser.]

Winnipeg, Sept. 10.—The funeral of William Dewar took place yesterday from his home in Minnedosa, Man. Mr. Dewar was formerly of Forest, Ont. He came to the West in 1899, and settled in Hazewood District, where he resided until three years ago, when he went to Minnedosa. Although in ill health for the past year his death came as a great shock to everyone. He is survived by his wife and four children, Athol of Basswood; Stanley of Markham; Mrs. L. Houston of Galt, and Miss Charlotte at home.

GETS TWO YEARS FOR  
HIGHWAY ROBBERY

BRANTFORD, Sept. 11.—Clarence Brackenbury was sentenced to two years in the penitentiary at Kingston by Judge Hardy today on charges of highway robbery, while in possession of a large quantity of stolen goods and a revolver. He was a farmer near St. George, Ont., and a young lad set out "a la Dick" by his wife and four children. Brackenbury had previously broken jail at Simcoe, and was recaptured again at Burwash. He begged for an advance and to escape that day, but was refused he pleaded not to be sent to Burwash.

SUCCESSFUL SCHOOL  
FAIR AT DEREHAM

INGERSOLL, Sept. 11.—The school fair at Dereham Township was held today on the school grounds at Salford. Despite the inclement weather and the fact that so many of the district were at the Western Fair, it was a success in every respect. Exhibits in the majority of classes were of a high standard of quality. A number of the school children in the township were represented. The judging of sheep and pigs by boys was an interesting feature.

STORES CLOSE FOR  
CLERKS TO VISIT FAIR

ST. THOMAS, Sept. 11.—It is estimated that at least 2,000 persons from this city attended London fair today. Many of the stores closed in order to give their clerks an opportunity of visiting the great Western Ontario exhibition. Weather permitting, a large crowd is preparing to accompany the 25th Regimental Band, which will play in the Forest City Thursday. Extra cars were required on both the L. & E. and L. & E. E. convey the huge crowds to the fair today.

CORP. JAMES SUFFERING  
FROM GUNSHOT WOUNDS

ST. THOMAS, Sept. 11.—Corporal James has been reported admitted to the Duke of Connaught Hospital, France, on September 1, suffering from gunshot wounds in the left hand and fracture of the thigh bone. The message was received today by Mr. and Mrs. Frank James, city, parents of the soldier.

AMICABLE SETTLEMENT MADE.

ST. THOMAS, Sept. 11.—A settlement between the London and Lake Erie Traction Company and the township of Yarmouth has been effected without the advertised sale of two motors, seized by Bailiff Smiley last week under execution of a warrant for the collection of back taxes.

There is a possibility that the city may also authorize the seizure of property of the delinquent company for compensation for some \$8,000 alleged due in back taxes and rentals. A writ was issued against the Traction Company some days ago, and a warrant was sworn out several weeks ago, but the execution of the same stayed until further developments. It is stated that the Traction Company will dispute a portion of this account, claiming that it is excessive.

BUILD FIRES IN BRICKYARD.

ST. THOMAS, Sept. 11.—Summons will undoubtedly be issued this week against a number of young lads of the city who have been making a night practice of celebration every night in A. B. Edwards's brickyard, just north of the city, destroying a great deal of property in the yard which has not been in use for the past two years. The favorite pastime of the young miscreants is to make huge bonfires out of the wood that lies about in the yard. Chief Armstrong is in possession of several of their names, and will prosecute these in an endeavor to intimidate the others.

## MANY REPORTED KILLED IN LARGE MUNITION PLANT

PHILADELPHIA, Sept. 11.—An explosion occurred at the Eddystone munitions plant late this afternoon, and many are reported killed and injured. Eight are known to be dead. There was an explosion at this plant in April, 1917, in which 129 were killed and hundreds injured.

The cause of the explosion has not been determined as yet. Officials at the plant refused to make a statement. Hurried calls were sent out for medical aid, and physicians and nurses were rushed to the scene from all nearby hospitals.

## POLISH QUESTION REMAINS UNSOLVED

Question To Be Considered Again at Early Conference.

Copenhagen, Sept. 12.—No solution of the Polish question has yet been found, according to the Berlin Vossische Zeitung, and the whole matter will be taken up anew at the Berlin conference between Admiral Paul von Hintze, the German foreign secretary, and Baron Burián, the Austro-Hungarian foreign minister. Representatives of Poland will not be called into the conference until an agreement in principle has been reached.

Rumors of Baron Burián's impending resignation, says the Vossische Zeitung, are due to the determination to insist upon the registration of a union with the dual monarchy, a solution which, as is well known, finds no favor in Germany. There is no reason to expect Baron Burián's resignation, says the newspaper, until the Austro-Polish solution is finally rejected, if it is to be rejected.

U. S. CITIZENS NOW IN  
CANADA NOT OBLIGED  
TO REGISTER JUST YET

NEW YORK, Sept. 11.—The Canadian Press is informed by the United States war department that American citizens now in Canada are not required to register in the selective draft registration tomorrow. The United States regulations make no provision for the registration of Americans abroad, but require them to report to their respective draft boards within five days after their return to the country.

APPLE EMBARGO IS  
NOT TO BE REMOVED

OTTAWA, Sept. 11.—A definite announcement is made by the department of agriculture that there is no possibility of removal or modification of the embargo on the shipments of apples and other fruits to Great Britain until shipping conditions change for the better. "Every foot of available steamship space," says the department, "is required for the transportation of men, munitions and food. The Canadian apple, as well as many other articles of food, is not considered essential, and until shipping facilities are in a much more stable condition than at present, all efforts to modify the apple embargo must be futile."

HIS LINES ESTABLISH  
RECORD IN RUSHING OF  
GRAIN TO THE SEABOARD

HOWARD G. KELLEY,  
President G. T. R. and G. T. P.

MONTREAL, Sept. 11.—A new record for grain handling has just been established by the Grand Trunk on its lines in Eastern Canada. During the month of August that railway transported the great total of 8,271,221 bushels of grain, carrying the bulk of this vast tonnage from Great Lakes ports to Montreal for export. The cars required to move this traffic numbered 4,653, showing the remarkable loading average of 1,799 bushels per car. The amount of grain transported by the road in August surpassed the best previous record by about half a million bushels.

## IF YOUR EARS RING WITH HEAD NOISES

If you have ringing, buzzing noises in your ears, are getting hard of hearing and fear Catarrh of the ears, go to your druggist and get 1 ounce of Farinell (double strength), and add to it 3/4 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should be opened by breathing become easy and the mucus stop dropping into the ears. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrh trouble of the ears, is hard of hearing or has head noises should give this prescription a trial.—Adv.

VISITORS TO THE FAIR speak with surprise and pleasure of the wonderful new phonograph—the Aeolian-Vocalion—which is attracting so much attention to the Nordheimer exhibit.

It is a remarkable instrument. Not only does it call forth the hidden beauties from a record, but it has a wonderful new feature, the Graduola—which enables you to play the music yourself and vary it just as a musician varies in detail every performance. The use of the Graduola means that one does not tire of records—they are always new. You will want to hear this new and better phonograph, which is shown in the Nordheimer exhibit.

## The Aeolian-Vocalion SPECIAL OFFER GOOD UNTIL SEPT. 21

These Special Price Offers make it highly important for you to purchase your Aeolian-Vocalion NOW

Invest \$15.30 in Records—Own an Aeolian-Vocalion

The mere purchase of our special group of 24 "recommended" record selections (or substitutes if you wish) amounting to \$15.30, places in your home our style F or style G Vocalion (mahogany or oak) or our "Colonial" Phonograph, as per description below, for a period of ONE MONTH. A greatly reduced payment of \$7.00 each following month, until full amount is paid makes you full possessor of instrument.

At present regular prices, the Vocalion is a good buy just now—for the cost of manufacture is rising rapidly, and no one can safely say what the prices of phonographs will be in the near future.

SPECIFICATIONS of the three instruments on which we offer these Extra Special Terms

**Style "F" Aeolian-Vocalion**  
CABINET MEASUREMENTS—Height, thirty-nine and one-eighth inches; width, sixteen and three-quarters inches; depth, nineteen and three-quarters inches.  
CASE WOODS—Selected Mahogany or Oak.  
FINISH—Standard piano, dull finish.  
MOTOR—Multiple-spring, constant-speed, non-vibrating, and mounted free from contact with resonating parts. Equipped with speed regulator.  
VOCALION AUTOMATIC STOP—Of an entirely novel and improved type; superior to and simpler than any other on the market.  
REPRODUCER—The Aeolian Improved Sound-Box and tone-arm. Plays all makes of records.  
NEEDLES—200 Aeolian-Vocalion needles.  
RECORD SPACE—Cabinet affords liberal space for record albums.  
Price of Instrument, \$137.00

**Style "G" Aeolian-Vocalion**  
CABINET MEASUREMENTS—Height, forty-nine and one-eighth inches; width, seventeen and seven-eighths inches; depth, twenty and five-eighths inches.  
CASE WOODS—Selected Mahogany or Oak.  
FINISH—Standard piano, dull finish.  
MOTOR—Multiple-spring, constant-speed, non-vibrating, and mounted free from contact with resonating parts. Equipped with speed regulator.  
VOCALION AUTOMATIC STOP—Of an entirely novel and improved type; superior to and simpler than any other on the market.
