REACH HALIFAX ON DECEMBER 18

One Cruiser, Two Destroyers and Two Submarines Will Leave Portsmouth Tomorrow, Will Proceed via Southern Route, Touching at the Azores and Bermuda.

[Special to The Advertiser.]
Ottawa, Nov. 29.—Canada's new "gift" navy, consisting of one cruiser, two destroyers and two submarines, will leave Plymouth, England, tomorrow. The ships are expected at Halifax on December 18. The vessels, owing to the wintry weather in the northern latitude, will proceed via the southern route, touching at the Azores and Bermuda on the way.

The new fleet will be officially welcomed by His Excellency the Duke of Devonshire and Hon. C. C. Ballantyne, minister of marine and naval affairs. Sir Robert and Lady Borden will also be present, and on the same day Sir Robert will preside at the launching of the Canadian mercantile marine steamship "Canadian Explorer," a vessel of 8,400 tons, built by the Halifax Shipbuilding Company.

"Movie Mob" Creates

Alarm For Time in

London, Nov. 29.—What at first might have been mistaken for a genuine move upon the government buildings in Whitehall was made this morning, when a small crowd attempted to pass the barriers recently erected by the police at the entrance to Downing street and King Charles afreet. The crowd, however, it developed, was made up of about 150 supernumeraries sent by a moving picture company for photographic purposes only. The "mob," whose attempt at the barricade was a mild one, was dispersed by the police, the camera men meantime cranking vigorously.

ENGLISH PEOPLE "COMING BACK." SAYS LOCAL M.P.

No Grouching Over Terrific Income Taxes.

MEETING WAR DEBTS

Determined On Achieving Pre-War Financial Position Among Nations of World.

"They are going to get back!"
emphatically declared Major Hume
Cronyn, M. P., when speaking of the
British people and conditions in the
old country, in an interview with The
Advertiser today. Major Cronyn has
just returned from a business trip to
England, during which he not only business and industrial con-but was incidentally called the Canadian Government to place of Hon. Hugh Guthrie,

take the place of Hon. Hugh Guthrie, minister of militia, at the economic conference convened by the league of nations in Brussels.

Speaking of the financial conditions in Great Britain, Major Cronyn said the great problem that faces the Government and the people is the great public debt, and the incessant calls upon revenue. "But the British people are meeting the situation with a firm determination to place the country upon its old footing as the financial centre of the world's commerce," he said.

"The Government is using the most drastic measures, in the form of income tax, and, strange to say, the people are not grouching. They know the bill has to be paid, and paid it will

Answering a question as to the income tax, Mr. Cronyn said: "All incomes over £250 are taxed 6s in the pound (20s). This is the normal taxation, and it rises by very rapid grading. For instance, a man with an income of £15,000 must pay £6,000 to the Government, or, in other words, 40 per cent of his income. The tax is especially hard on people with fixed incomes, and many of them are facing appalling difficulties in meeting the country's demands. Large numbers ting appaining difficulties.

Large numbers have given up their motor cars and moved to cheaper residences in order to play their part in the sacrifices that have to be made.

Government Expenditures.

"While they are doing this without complaint, there is a rankling fear that the governmental expenditures are the complete of the co complaint, there is a ranking feat that the governmental expenditures are not being cut as closely as they should be. There are still huge governmental expenditures going on what may be called war expenditures, and while understanding that the works in hand must be completed, the people have a feeling that there should be an easing up in these expenditures.

"I was greatly surprised at the spirit of determination shown by all classes of the people to get the country back to its pre-war position among the nations of the world. And," added Mr. Cronyn, with emphasis, "they are going to get back."

Speaking of interest rates, he said: "They are from one-half to one per cent higher than in this country. British war bonds bring 6% to 7 per cent. There have recently been many issues of industrial bonds bearing 8 per cent. ttal be CONTROL OF PACKING

American Desperadoes Believed To Be Preparing For Assassinations.

LIVERPOOL INVADED?

Vicious Characters Suspected of Connection With Sinn Fein.

London, Nov. 29.—Gunmen from the United States are said to have made their appearance in Londonderry, Ireland, according to advices received here today. The presence of these mercenaries in Dublin and other Irish cities have previously been reported. The military authorities of Londonderry are taking all precautions in the event of attempted assassinations.

The police of Liverpool, dispatches from that city say, also believe that United States gunmen have invaded Liverpool. The police report that they have established connection between Sinn Fein headquarters and numerous strangers who are idling about the streets in groups of two and three, and having the appearance of desperadoes.

POLICEMAN FOILS ATTEMPT TO BURN LUMBER YARD

LUMBER YARD

London, Nov. 29.—Half a dozen men who were preparing to set fire to a large lumber yard in the district of Finsbury, an important section of the city of London less than a mile north of London Bridge, were surprised by a policeman on Saturday night. This attempt was almost coincident with the breaking out of incendiary fires in Liverpool. The police challenged a loiterer, who immediately attacked the officer and shouted for help. Five men, with revolvers, answered his call, emerging from behind some empty wagons and rushing the policeman, who was compelled to liberate the man he had caught. All the men escaped. Searching behind the wagons, the policeman found cotton waste soaked with gasoline had been pushed through a gateway of a lumber yard, and he also discovered two revolvers and 100 cartridges. One of the supposed incendiaries was later arrested.

It is a matter of official record that the increase in the amount paid in losses by burglary insurance concerns in 1919 over that of the previous year was more than 15 per cent, the Tribune says, and the increase this year, insurance men assert, will be even more imposing.

The Tribune has undertaken an investigation of the present organization of the police department, its general force, the patrolmen, whose duty it is to prevent crime, and the detective bureau, to which is given the task of running down criminals. The invistigation indicates: "First, that many sections of the city including the more important ones, are under-policed. Second, that the detective organization built up by former Police Commissioner Arthur Woods has been broken up.

"There's No Use of You saying Hard Things About the U. F. O.," Says Sir Henry Drayton to Manager of Condensed Milk Company.

Largely attended by manufacturers from Aylmer, London and surrounding towns, and a few editors, farmers and board of trade representatives of Western Ontario, the sittings of the Dominion tariff commission opened at the courthouse here this morning with Sir Henry Drayton, minister of finance, presiding, and Senator Gideon Robertson, minister of agriculture, as members. B. J. Roberts is the secretary of the commission, whose voluminous notes to date will constitute when published a small library in themselves.

City Clerk Baker was on hand early, and gave an unbiased presentation of local opinions on the tariff issue before the rush of high protection delegates began to crowd from Aylmer. Mayor Wagner led the delegation from this enterprising town, which according to its chief magistrate, wasn't thinking about the tariff whatever when it gave a good-sized majority-to the Liberal candidate, W. SINN FEINERS URGE **BOYCOTT OF ENGLAND** TO "FREE" IRELAND

BEFORE U. S. COURT Chicago, Nov. 29.—Canadian Press.—The latest thing in picketing or sign-carrying by Sinn Fein sympathizers took place here last night, when a party of them made up of both men and women, blockaded State street with signs advising a boycott of British goods. No attempt was made by the police department to stop this new form of anti-British manifestation. Some of the placards read:
"Buy Nothing Made in England." "The Blockade is England's Method—The Boycott Is Our Answer." "Buy Nothing in England Until Ireland Is Free."
The resolution to boycott England was passed on November 21 by the friends of the "Irish Republic" and accommittee headed by M. J. Flannery was appointed to list British scoods.

Boston, Mass., Nov. 29.—The controversies within the Christian Science Church came before the full bench of the supreme court of Massachusetts today for arguments on questions of law. The disputed points largely represented exceptions taken to the findings of Judge Frederick Dodge, who, as master in the original suit brought by the trustees of the Christian Science Publishing Society against the board of directors of the church, sustained the plaintiffs in their main contentions. Since the litigation began in March, 1919, it has assumed various phases through intervening suits, but broadly speaking, the outstanding issue is whether the authority of the board of directors of the Christian Science Church extends over the trustees of the publishing society, which publishes the Christian Science Monitor and other church periodicals. From Toronto On Board the Talk With Former Secretary of A. J. Small.

Formal arrest at Windsor on Sunday apparently had little effect on John Doughty, former secretary to A. J. Small, for when he passed through London at 4:50 o'clock this morning he was sleeping like a child. Accompanying him were Austin P. Mitchell, chief of detectives of Toronto, and Inspector of Detectives Wallace, also of Toronto. All was silent in "Molson," otherwise known as car 286, on C. P. R. train No. 20, except for one person, when The Advertiser attempted to get an interview. This one person was "George," the faithful colored porter who had been set the task of keeping the long-sought prisoner safe from those who would intrude.

"Yes, sir, Mr. Doughty's in this car," said the porter, in answer to the reporter's question.

George Was Firm.

Permission to see the man upon whom all eyes are turned for a solution of the Small mystery, was a thing which George could not grant, however.

"They'll all be about at breakfast, but I can't wake Mr. Doughty until seven o'clock, I was told," volunteered George, who had taken up his position in a small compartment directly inside the west door of the coach. And George refused to be moved. His work was cut out for him and he was going to fulfill his duty."

Three Toronto journalists, one an artist, boarded the train at London, but were forced to retire to a parlor car, which was attached to the rear of the train. Several other newspapermen were seated two coaches ahead of Doughty waiting for dawn and the possible revelations which might result from a breakfast table chat with the detectives' charge. Two of these, it is said, were side-tracked at Chicago, but caught up with Doughty, and met fellow-journalists, who had come from the Queen City, at Windsor. Doughty's half-day rest there made this possible.

Toronto, Nov. 29.-John Doughty, who was chased across the continent and was recently arrested in Oregon City in connection with the mysterious disappearance a year ago of Ambrose J. Small, missing theatrical magnate, today visited the home of his sister, Mrs. Lovatt, in this city, and revealed there to police authorities, who had accompanied him, the hiding place of Canadian Victory bonds which were missing. These bonds have been handed over to the police authorities intact. Recent reports from Oregon said that it had been intimated that the bonds had been deposited in care of a trust company in Chicago.

Doughty was to have been arraigned this morning in the police court here on charges of theft of \$100,000 worth of bonds and
