

CANADIAN MINK SUPREME

No Fur So Good for Muffs and Scarfs

Of course, Canadian mink always was popular, but now, when the mink furnished by other countries, even the United States, is of a very light color, the real dark Canadian pelt holds the market as exclusive.

The best mink in the world comes from the frozen north of Canada. We have always bought direct from the trapper, and made the garments in our own workrooms. This exhibit to-day gives evidence of the high standard of our goods. Visit the showrooms and judge for yourself.

Here are a few items from the Mink Catalogue:

- 1956—Mink Throw Tie, three stripe, rounded ends and best satin lining \$85.00
- Medium size, seven-stripe Mink Muff to match, elderdown bed and satin lining \$45.00
- 1847—Mink Animal Stole, 1 stripe at front, head and tall trimming as shown, full size \$135.00, with roll collar \$10.00 extra.
- Muff to match \$75.00

TWO VERSIONS GIVEN OF INDIAN HOSTILITIES

One Story Says Preparations Are Being Made for Fight; Another Minimizes Affair.

VICTORIA, B.C., Nov. 8.—(Special.)—A special despatch from Hazelton, B.C., says that the trial of the seven Indian ringleaders in the Skeena River district was opened to-day and adjourned pending the arrival of witnesses from the Klappan Valley.

The natives are sending out runners to the mountains to gather in the fighting men, and meetings are being held in all villages.

The Indians are said to muster fully five hundred bow-brokers and fully armed men.

Serious trouble is anticipated. Settlers are sending in their families to Hazelton for protection. An armed guard has been placed on the jail to prevent the escape or rescue of the prisoners.

Several trenches were dug to-day in which guards are posted.

The people of Hazelton are fearful for the safety of ranchers scattered thru the country, who may be pounced upon and killed in revenge for Saturday's attack by police.

An Anglo-Indian missionary was so hounded by Indians that he was forced to make preparations to move out, but before this was accomplished, his house was set afire, and what was not burned was stolen by natives.

The present trouble really originated

Suffered Terrible Pains From His Kidneys.

Perhaps no other organs work harder than the kidneys to preserve the general health of the body, and most people are troubled with some kind of kidney complaint, but do not suspect it.

There is no way of getting the kidney poisons out of the system except through the kidneys, and no medicine so effective in taking them out as Doan's Kidney Pills.

They help the kidneys to flush off the acid and poisonous impurities which have collected, thus clearing out the kidneys, bladder and urinary passages.

Doan's Kidney Pills are entirely vegetable, and may be safely taken by old and young.

Mr. Douglas A. Melissae, Broad Cove Banks, N.S., writes: "I was troubled with my kidneys for nine months, and suffered with such terrible pains across the small of my back all the time that I could hardly get around. After taking two boxes of Doan's Kidney Pills I began to feel better, and by the time I had taken three I was completely cured."

Price 50 cents per box, 3 boxes for \$1.25, at all dealers or mailed direct by The T. Milburn Co., Limited, Toronto, Ont.

In ordering specify "Doan's."

BARRED WINDOWS CAUSE EIGHT TO PERISH IN FIRE

Unable to Escape From Flames That Spread Rapidly Thru a New York Comb Factory

NEW YORK, Nov. 8.—Iron barred windows prevented the escape of eight workers from death by fire in Robert Morrison & Son's comb factory on Columbus-street, in Brooklyn to-day.

These eight, while the tugged and tore at the barred windows, were burned to death, and five others were probably fatally injured in the panic.

William Morrison, sole owner of the plant, also lost his life in the flames while trying to reach the safe in his cellar. He was found among the injured.

There were only forty employees in the factory when the fire broke out, and the spread of flames in the inflammable comb material was instantaneous. Many jumped from the third floor windows and were injured.

Others were notified to get out their lives, but they were unable to do so.

Two Arrests.

This evening Detective Sayer arrested two men on suspicion of arson. One, formerly employed by Hendrie & Co., on a warrant charging him with setting fire to the factory. Onley left team in the stable Saturday afternoon and failed to come back, or to make a report of some bills he was alleged to have collected. The amount on the warrant is \$54, but the company claims that his shortage is more than that.

Terrence Scott, colored, was arrested this evening at 85 York-street, on the charge of keeping a common gaming house.

Frank Roach, 63 Market-street, died to-night.

Fined \$200.

At the police court Billy Carroll was fined \$200 for driving a bet on a horse race. L. O'Kelly, 271 Mary-st., who claimed to have made a bet, made the charge. He said Carroll refused to pay after he had won.

William Macklem, who threatened to shoot Minnie O'Connor, who had a bottle of strychnine in his pocket, has been taken to the asylum.

People in the annex who installed water mains and sewers just previous to annexation have sent in bills to the council. The mayor says the city will not pay the bills.

There is some talk of Art Moore, right half-back of the "Tigers," retiring from the game. His marriage will take place in a short time. The management of the team claim, however, that he is available for the remaining games this year if needed.

A Man in Disguise.

A young man wearing a false moustache and who appeared to be very nervous held an arrangement with Mr. Stewart and W. M. Cameron of the insurance committee of the Manufacturers' Association conferred to-day unofficially with the minister of finance regarding the clause in the insurance bill about foreign mutual companies. It was suggested that representations be made to the senate committee.

WEIRD PROOF OF DOCTRINE

Christian Scientist Leaps Under Car as a Test

NEW ORLEANS, La., Nov. 8.—J. C. Wilson, formerly of Boston, Mass., a disciple of Mrs. Eddy's Christian Science doctrine, threw himself in front of a trolley car to prove his faith, and the fact that he is still alive convinces him that the strange test has justified his belief. He suffered no concussion of the brain and was a mass of bruises.

When he recovered consciousness to-day in the hospital he declared that he was not suffering any pain and said he hoped to be well enough soon to give further demonstration of his faith in the doctrine. He says he contracted tuberculosis and was cured by Christian Science in Denver. Wilson was born 23 years ago in Sherman, Texas.

Government Salaries Illegally Paid.

OTTAWA, Nov. 8.—The first volume of the auditor-general's report is ready for parliament. Mr. Fraser criticizes both the senate and the commons for giving leather trunks to a few officials when the service generally get no such perquisites. He also finds fault with increases in salary in convention of the act. In the case of the senate they have been blocked. The commons had paid them and a refund or legalizing legislation is demanded.

A complaint about indemnity being paid to three senators who did not attend, brought the explanation that they are ill.

Peterboro Firm Get Contract.

OTTAWA, Nov. 8.—The contract for the Kippewa dam has been formally awarded to Morrow & Beattie of Peterboro. The contract price is \$26,210. This dam is part of the government's great scheme for conserving the waters of the upper Ottawa River.

APPOINT A COMMITTEE TO MEET COMMISSION

Council Again Defer Signing Power Contract, Altho Minor Concessions Are Offered.

HAMILTON, Nov. 8.—(Special.)—The city council this evening decided to send a letter to Hon. Adam Beck stating that while the commission would decide almost unanimously in favor of a contract with the commission, Mayor McLaren stated that he had received a letter from Hon. Adam Beck stating that while the commission would not alter the contract, as submitted, it would agree to the clauses drawn up by the city manager, it clear that the charges for the various municipalities were to be ratable according to the distance from the Falls, and that Hamilton was to be free to buy all its power, with the exception of the 1000 horsepower ordered, on the open market. The letter stated that the commission was willing to agree to these two points, and that all that was apparently between the city and the commission was the wording of the clauses, and that the city manager refused to grant the request, and when the question came up later in the committee of the whole, a motion was carried on a division to appoint a small committee wait upon the commission at an early date.

Ald. J. E. Cooper moved in amendment to the contract as submitted by the commission be adopted. They argued that the commission's letter was final, and that there was no delay in the matter any further. Ald. Hopkins remarked that 12 aldermen and the mayor had been elected to the commission without asking for any concessions. They had met at the first of the year, and the mayor had advised them to go slowly, but promised he would bring them to the signing of the contract with the commission, but instead of that, he had led them to believe that the commission had not only deserted the hydro-electric supporters, but had joined the forces of the Cataract. He deserved a jolly good licking for that.

Ald. Cooper and Morris took the mayor to task for refusing to allow a committee to be appointed last Monday evening to wait upon the commission, and then turning around to-night and advocating that course.

Fate of Bylaws.

The goods roads by-law to raise \$200,000 was given two readings, as was the by-law to reduce the number of aldermen in each ward to the number of the whole. It provides that manufacturers' rate shall be 12 and 1-2 cents a thousand gallons, according to the amount of business, and that \$1 a year shall be knocked off the charges for baths and closets. The by-law also provides for a contract to fix the salaries at \$1200 a year. Ald. Milne's motion to fix the amount at \$300 being defeated.

The evening session was devoted to the man with the false moustache and mysterious air, who caused some excitement around the city Sunday morning. He was charged with the murder of Grimesly later in the day, and that he had hired a rig and had driven east. In the evening he was looked upon as a lunatic. Others thought he was an amateur whiskey detective.

Onley left team in the stable Saturday afternoon and failed to come back, or to make a report of some bills he was alleged to have collected. MILITARISM IN SCHOOLS

Toronto Deputation Interview Premier and Minister of Militia.

OTTAWA, Nov. 8.—Inspector J. L. Hughes today applied to the minister for a deputation of marksmen rifles to the Teachers' League, and two for each company of cadets. The reply was encouraging.

Inspector Hughes, Col. Hamilton Merritt and C. H. Keating of Toronto, a provisional committee of the National Defence League, also saw the premier and minister of militia regarding the scheme of military training in the schools, and in the period after boys leave school and join regiments. The general principle was approved. The league will establish a branch in each province to urge the educational departments to give more encouragement to training of cadets in the schools.

TREASURER \$643,000 "SHORT"

Loss to the Big Four Railway Will Be Half-a-Million.

NEW YORK, Nov. 8.—The loss to the Big Four Railway by defections of C. L. Warriner, local treasurer of the road at Cincinnati, will ultimately amount to about \$600,000, according to a statement issued in New York by Albert H. Harris, vice-president of the N. Y. C. line, including the Big Four.

"The amount of the defections," says the statement, "has been ascertained to be \$643,000. Warriner has turned over to the company property amounting to more than \$100,000, and there will be received from the American Surety Co. on its bonds, \$75,000.

"The method which Warriner adopted was to cover his defections in the item of 'cash in transit'."

CATHEDRAL FOR PORT ARTHUR

Congregation of St. Andrew's Catholic Church Have Adopted Plans.

PORT ARTHUR, Nov. 8.—(Special.)—The congregation of St. Andrew's R. C. Church have decided to adopt the plans of G. E. Tanquary of Quebec for a new cathedral on the corner of Arthur and Algoma-streets, subject to the approval of Bishop Scholard. The plans call for a building in Gothic style, with two slender spires at the west end, each 180 feet high; length of church 162 feet, width 77 feet, height from floor to roof 88 feet, to be constructed of white cut stone and to cost from \$35,000 to \$100,000.

FORMER ONTARIO MAN LEAVES LARGE ESTATE.

LAPORTE, Ind., Nov. 8.—Dr. Albert Reynar of Coventry, Ont., has advised the Indiana relatives of his brothers and sisters of the death at Glenwood Springs, Col. of Henry Reynar, who disappeared a number of years ago, leaving no trace of his whereabouts, and of the fact that a large fortune is waiting their disposition.

Henry Reynar, it develops, disappeared from Coventry, Ont., a number of years ago, and as time passed he was mourned as dead.

Not Entitled to Money.

"She ought to have some amount to know she is not entitled to the money," said Judge Morson, speaking of Mrs. Margaret Bannister, in his court yesterday.

Miss Amelia Barrett owns a house at 129 Spitzer-street, on which Mrs. Bannister held a second mortgage. She sold the mortgage to C. R. Beswick. When the interest came due Miss Barrett paid \$36.56 to the bookkeeper of the firm of which Reginald Eyre was a member. Mr. Eyre was acting for Mrs. Bannister as her agent, and when she said the money was hers under an arrangement with Mr. Beswick's lawyer he paid it over. Miss Barrett had to pay the money out a second time, and she is suing Mr. Eyre for the money paid into his firm.

The case was adjourned in order to have Mrs. Bannister as a witness.

Still Opposing the Insurance Clause.

OTTAWA, Nov. 8.—W. H. George, J. F. Stewart and W. M.
