# SEEK OUT DEFECTIVES IN TORONTO SCHOOLS

Proposal to Employ Staff of Physicians to Thoroly Examine Scholars.

An inspection of the children of the public schools to discover the number of defectives was decided upon by the management committee of the board of educa-

agement committee of the board of education yesterday.

Upon motion of Mr. Simpson, Dr. Sheard will be asked to report as to whether there are any "defective" children in the schools requiring special attention.

Dr. Bryans stated that at the next meeting of the committee he would give notice of motion regarding an inspection system for public schools. His scheme was, that a staff of three M.D.'s at a salary of \$400 each, with a chief in charge at \$700, be engaged to look after about six schools and make an examination of the special cases brought to his notice by a nurse who would make a hurried examination of each child daily. Special cases could then be followed up in the home. If this experiment proved successful the work could then be extended further.

Inspector Hughes suggested that two classes in Cottingham school should be doubled up and one extra be put in Jesse Ketchum School and another elsewhere to relieve the congestion in that district. Reports were read from Provincial Inspector Albert H. Leake on his visit to the manual training and household science centres in Toronto, and the attention of the board was directed to the following points: In manual training the nacessity for increasing the number of centres: the advisability of extending the works to the collegiate institutes: the provision of some elementary form of mets! work; the advisability of organized visits to factories and shops; that teachers should be allowed the opportunity of visiting other centres.

At a meeting of the management committee of the board of education the following transfers were granted; Miss Nettie Delyea, from Coleman-avenue to Kimberley-street school; Miss L. A. Price, Clinton to Annette. The following teachers were appointed to the temporary staff and assigned to the schools named: Miss M. Goodeve, Clinton-street; Miss E. B. Mayhee, Coleman-avenue.

The committee in charge of text books and supplies were authorized to advertise for tenders.

annual convention was ended to-night.
In announcing the judging results,
Robert Johnson of Woodstock stated that nowhere on the continent was the quality so fine all the way thru.

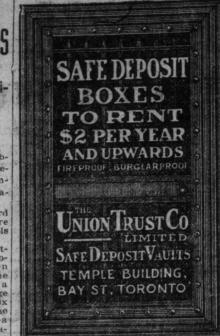

I. F. Stenhoff, another judge, said
this was the first exhibit he had been
proud of. In the afternoon, Prof. Dean of the O. A. C., and J. A. Ruddick, crossed swords, the former holding that dairying was not profitable, but that its importance was constantly increasing.
