ON WHOLESALE MART

Best Raspberries This Season Sold Yesterday as High as Twenty Cents.

LEMONS ARE SOARING

Red Currants and Gooseberries Met With Very Light Demand.

Berries were only shipped in very lightly to the wholesales yesterday, and we've soon disposed of at good prices.

Strawberries were still quite soft, but commanded slightly higher prices, selling at 8c to 11c, and a very few at 12c per box, the bulk, however, going at 10c.

Raspberries—Some of the best perries seen on the market so far this season came in yesterday, altho there were still some very poor ones, the price ranging from 12½c to 20c per box. W. C. Oughtred and George Horne both of Clarks. For loading cars at Belle at 8c to 11c, and a very few at 12c per seen on the market so far this season came in yesterday, altho there were still some very poor ones, the price ranging from 12½c to 20c per box. W. C. Oughtred and George Horne, both of Clarkson, shipped in the choicest berries on the market, the first mentioned to Mc-William & Everist, and the second to Clemes Bros.

Cherries kept about stationary in price Lemons are still soaring, none being less than \$6 per case yesterday, and some reaching \$6.50 per case.

Gooseberries were only shipped in very lightly, some of the wholesalers not having any.

lightly, some of the wholesalers not having any.

Red currants continue to be low-priced, with very little demand.

Blueberries mostly sold at \$1 to \$1.50 per 11-quart, a few extra choice ones bringing \$1.75, while some in leno-covered baskets reached \$2.

Black currants of choice quality were offered, the six-quarts selling at 75c to \$1.25, and the 11-quarts at \$1.25 to \$2.

The first vegetable marrow for this season came in yesterday from W. C. Oughtred of Clarkson, and sold at 75c per 11-quart.

Carrots and beets are coming in freely, the carrots selling at 20c to 25c per dozen bunches, and the beets at 20c per dozen

bunches, and the beets at 20c per dozen bunches.

Cabbage remained about stationary, at \$2.75 to \$3.25 per crate.

Beans keep up in price, yesterday selling at 75c to 85c per 11-quart.

Green peas were exceptionally poor quality, selling at 25c to 35c per 11-quart.

New potatoes were a little firmer, quite a few selling at \$3.75 per bbl.

Cucumbers are still scarce, the Leamingtons selling at \$1 to \$1.50 per 11-quart.

A. A. McKinnon

had two cars of new potatoes, selling at

LONDON WOOL SALES. LONDON, July 21.—The offerings at the wool auction sales today amounted to 8000 bales. The demand was good, except for low cross-breds, which were slow and irregular. Tasmanian greasy merinos sold at 2s 3½d, and Queensland scoured at 3s 10½d.

A sale of sheepskins was held today. There was a good demand for the 4200 bales offered. Merinos were 5 to 7½ per cent. dearer, and good cross-breds unchanged at 5 per cent, higher, while coarse cross-breds declined 5 per cent. LONDON STOCK MARKET.

LONDON, July 21.-Money was scarce early today, but later eased off with dis-The stock market maintained yester-day's improvement, with a slight increase in business and a hardening tendency, in which shipping shares and glit-edged securities were prominent. Russian mines were better supported, and home rails were benefited by good dividends. American securities were moderately active

can securities were moderately around parity and closed steady. PAPER STOCKS HIGHER. Heron and Co. had the following at

he close:

MONTREAL, July 21 .- The paper stocks were easily the features of the market today. Laurentide was bid up sharply six and a half points and these stocks were bid up in order to facilitate the marketing of a block of Riordon stock. Canada Car stock were also strong and some favorable innouncement is expected to be made at Monday's meeting as to payment of referred back dividends. stocks that have not been dealt in for sometime changed hands today, among these being Lake of the Woods and Lyal. Ames pfd was a particularly strong stock and altogether the mar ket gave a very good account of it-

LONDON METAL MARKET. LONDON. July 21.—Spot copper, £21, up. 10s; futures, £89, up £1. Elec., £122, up £1. Spot spelter, £54, up £3; futures, £50, up £1. Lead, spot £28 12s £6d, up 2s £6d; futures, £26 10s, off 10s.

Harvest Help Excursions to Winnipeg and Northwest.
Grand Trunk Railway will run harvest help excursions to Winnipeg and the Canadian Northwest at same rates and conditions as last year. Dates and further particulars will be announced later.

Steel Stocks Strongly Held-Pool Operations Put Smelters at Higher Price.

Altho there was little business doing on the Toronto Stock exchange yesterday prices had a firmer tone and in nost instances transactions had to be made at advances. The only pool which was operative yesterday was that in Smelters, and the price of these shares was put up to 37. Dominion Steel and Nova Scotia Steel were inactive, but the quotations showed decided firmness with N. S. Steel held at 130 and Dominion Steel at 54½. Toronto Ralls showed firmness around 90 and this appears to be the spot at which investors are willing to take a hold pending some real infor take a noid pending some real information as to the future financing of the proposition. Outside of the stocks mentioned the few transactions had little significance. In the unlisted stocks there was a good demand for West Dome, which sold as high as 36%. The war loan bonds continued easy with sales from those who expect to get into a latter issue at a somewhat better price.

Mining Notes

WINZE BEING SUNK. A winze is being sunk at the Crown Reserve on the new veins from the 500-foot level and the values are as good and the vein as promising as on the 700-foot level. The National Mines are sinking the shaft to the under-lying contact at the rate of 100 feet per month and are now down 600 feet. They are altering the mill and installating a flotation system to treat the low grade ore on the dumps, and the mine with the flotation principle can now be treated at profit.

HUDSON BAY DISCOVERY.

The Hudson Bay were slashing down mill rock from the walls in their old vein and ran into an entirely new vein six inches wide high grade run-ing parallel with the original Hudson Bay vein, continuation of which is the amous Nipissing No. 64. This vein has a northeast strike and is a very mas a northeast strike and is a very important discovery indeed. It in all probability runs into the Nipissing and has a strike that should carry it thru the Genesee property.

DIAMOND DRILLING DONE.

It is reported that the American Goldfields, Limited, just north of the West Dome, is to be extensively diamond drilled almost immediately. ANOTHER GOOD FIND.

Boston Creek-The Miller Indepen-

dence has made a remarkably good discovery. A new vein, tweive feet wide, where trenched, shows considerable free gold and tellurides. It is 500 feet north of the outcropping of Novein. On the strength of the new find. George Miller has purchased the McConnell property adjoining on the cast in Catharine Township.

The C. P. R. is conducting an advertising publicity campaign across the border, and in a recent article says that it holds control of the Consolidated Mining and Smelting C.J., operating a smelter at Trail, which represents an investment of \$1,000,000 and which has been increased recent. ditional cost of \$750,000. The capacity this year will reach 70 tons daily. It is added that the company is the only one in the world which is turning out refined gold, silver, copper, lead WORKING ON SHAFT.

Contractor J. McGuire has got well under way with his contract with People's and Ophir Mining Companies in deepening the shaft to the contact. The third round was taken out Tuesday night, giving a depth of 18 feet on the new work. Three 8-hour shifts are now working and good progress are now working and good progress should be made from now on. The cost of this work, it will be remembered, is to be borne jointly by the two July ...13.40 13.40 13.40 13.40 13.92 companies. The work is being done in Sep. ...13.40 13.55 13.37 13.40 13.87 Wayago three. It would seem as if the shaft of the People's Mining Company and drifting and cross-cutting over to the Ophir boundary line will be commenced as soon as the contact is reached, at a depth of about 550 feet, after which each company will work Oats independently. " THE MARKET OUTLOOK.

R. E. Kemerer in his weekly mar-Receipts Shipments ket letter says: Reverting to the situation at large,

it has been a notable fact that American investors have been absorbing a much larger quantity of our securities | Receipts recently and are apparently preparing Shipments to take full advantage of the movement which is impending. Every indication points to the conclusion that this movement will be of tremendous proportions and, the the movement Minness may not be fully under way for another thirty days, it will be well to take instant advantage of prevailing low prices in order that opportunities may not be lost. Once again we say: Those securities which have proven remarkably high percentages of prointrinsic value behind them will bring

RUMORS OF PEACE UNSETTLE WHEAT

Chicago Market Closes Slightly Higher Than Previous

HAD STARTED TO RISE

Then Came Reports of Bulgarians Weakening, Upsetting Trade.

CHICAGO, July 21.—Peace rumors virmaily offset today the effect of increasing reports of crop damage in the northing reports of crop damage in the northwest. Prices closed unsettled with the market as a whole % off to %c up, as compared with yesterday's finsh. Comgained % to 1%c net, oats closed unchanged to %c lower and provisions varying from %c declins to a rise of 20c.

It was a big broad market in wheat, with burks and shorts purchasing on a large scale until shortly lefore midday, when wond be an to be created that Pulgaria was considering peace. Assertions that the Bullarian premier had summoned the sobranje to discuss the situation was lacking, many buyers quickly turned to the setting, side. During the rest of the session a majority of dealers paid little heed to the black rust developments which early in the day had completely monopolized attention. The most pronounced damage advices came from South Dakota, but predictions were current that the injury in North Dakota, would in due time become equally apparent.

would in due time become equally apparent.

Some of the best known experts in the country were quoted as authority for sensational estimates of the harm already in flicted on the spring sown crop of wheat. Near Aberdeen, S.D., the damage was figured at 50 per cent., with the blackmest still working and with the outlook that much of the crop would not be liarvested at all. Another authority put the total damage so far in the Dakotas and Minnesota at 25 per cent.

Corn bulged with wheat and was sustained later by placing of large European orders for alcohol from the United States. Country offerings were light. Oats failed to hold early strength. The weather was considered to be favorable for the filling of late planted fields.

Pork and ribs averaged higher as a result of speculative buying. A decline in lard was associated with a downturn in quotations at Liverpool.
