TRINITY'S RECTOR TAKES UP DUTIES

Rev. L. R. Sherman Preaches on "The Companionship of Christianity."

FOUR REQUIREMENTS

Knowledge, Strength, Desire and Service Precede Fellowship With God.

Rev. L. Ralph Sherman, the new restor of Holy Trinity, preached in that church last evening, taking his text from St. John, first chapter, part of 39th verse, "And abode with Him that day." The main topic was that of the followers of the Lord Jesus Christ having companionship in Him. All manner of theories were abroad in the religious world, said the preacher, even that Jesus was a good man, but only a good man. If this be true our Christian religion fell to the ground. Only in the Christian religion did we get scope for companion ship with God. Taking human com hip, with which we are all acquainted, as a type, the preacher gave four simple tests by which men may know whether they have true compantonship with the Master. It must be based upon mutual knowledge. We may gain knowledge of Him in the house of God, in our prayers, communion and in our meditations. There must be strength and determination to let nothing come in between The longing to be with Him was men tioned in the third place, and the point-ed question was asked, "Do people know by the actions of Christians that they have Christ as their companion?" Mutual service, wherein one will defend the other, was given as a fourth test, and the death of Christ was re-ferred to as part of what He did for His own. A story was told of an ex-perience of the Bishop of Stepney on a bus top in East London, where a senger, hearing a blasphemer tak-

The financial situation has been pretty well clarified in direct conferences, and has been brought to a point where a general conference may be held.

"Northeast of Soissons the Germans launched during the night numerous counter-attacks with large effectives upon positions captured by us yester-day. The fighting was particularly fierce in the regions of Laffaux, north of Friedmont Farm, north of Brayeen-Laonnois, and northeast of Cerny.

"Everywhere the enemy's efforts were broken down and his forces dispersed, the assault being thrown back by our fire or at the point of the bayonet. We have fully maintained our gains. Our troops have organized the conquered territory, which gives evidence that the Germans suffered sanguinary losses during yesterday's fighting, as well as in the counterettacks during the night.

We captured seven cannon, of which several are of large calibre.

"Violent artillery actions occurred northwest of Rheims and in the Champagne, west of Mont Carnillet. We captured a fortified point of support and repulsed, after lively fighting, two German attacks upon our trenches in the region of Mont Haut. "An enemy supprise attack in the direction of Majsons-de-Champagne was likewise stopped.
"On the remainder of the front there was no important event to report.

"Aviation: On the night of May 3-4 and the night following, our bombarding squadrons dropped 8500 kilograms of explosives upon enemy military establishments, railroad stations and barracks, notably upon factories at Hagondange. Several fires were started at the places bombarded. "During the day of May 4 our pilots brought down three German airplanes. The probable length of the stay of the mission is increasing daily, and the original date for departure has been set back to probably May 12.

The mission probably will go in a body to New York for a two days' joint reception with the French on the return of the latter from the west, and then come back here for another week. After that Mr. Balfour and his party will go through the middle west and Texas, where they will spend a few days before sailing for England.
