A Splendid Gift.

An anonymous friend, vice-president of one of Toronto's large hardware firms, during a conversation with some of the officers of the 180th Battalion, heard that they were in need of a field kitchen. "Well, if the Sportsmen need one, they had better have it," said he. Yesterday he sent up to the Exhibition a splendid \$500 field kitchen, with the request that his name should not be made public.

This splendid gift was presented to the battalion and received by Lieut.-Col. Greer.

The public holiday will be observed by the overseas troops stationed in Toronto. Over one hundred men in the camp hospital are out on leave over the holiday. Every effort is being made to reduce the number of patients in the hospital in order to facilitate moving.

Commencing Thursday the 201st and No. 1 Construction Battalions will alternately furnish the downtown picquet, beginning with the 201st. All prisoners will be taken to the nearest police station. draft that left here a few nights ago for Ottawa has gone into camp at Rockcliffe for the summer. This camp provides all the facilities for complete training, an important part of which consists of instruction on the cable wagons, from which the telephone and telegraph lines are laid.

The depot in Toronto now requires fifty men to bring it up to strength. Telegraph operators, students and clerks are best suited for this work. In the last draft there were two men who had qualified for the rank of lieutenant and one for that of captain, but on account of the interesting nature of the work, decided to enlist as privates in the Divisional Signal Corps.

The Engineers require at once forty tradesmen, such as carpenters, brick-
