15 months ago a certain maker of high-grade shirts agreed to deliver a large order to this store by a specified date.

Time passed and we received the major portion of the contract. The remainder, however (about 950 shirts), have just been delivered now.

The original special contract price holds good ---a price which is away less than what such good shirts could be made to sell for today.

So here you may buy shirts made of crepes, zephyrs, twills and English woven and bordered materials, which show the most attractive designs and colorings in style for fall and winter.

These shirts have sleeve lengths to fit short, average or long arms. 32 to 35 inches. Special today 2.98
