## YORK COUNTY AND SUBURBAN NEWS

VALUE OF MILK AS  
A WHOLESOME FOOD

Dr. J. W. Robertson Tells of  
Its Nutritive Properties  
—Other News.

## EARLSCOURT

"Nutrition" was the topic of Dr. J. W.  
Robertson's address last night in Earl-  
scourt public school. The meeting, which  
was open to the public, was held under  
the auspices of Earlscourt G.W.V.A. and  
C. Johns, the president, occupied the  
chair.

Speaking briefly of the old-time cru-  
sades, in which the crusaders were in-  
spired by their passions for righteous-  
ness and honorable standards, Dr. Ro-  
bertson led up to the present milk cam-  
paign, which he called the "Crusade for  
Good Health." "By this crusade," he  
said, "we shall know more of health,  
especially public health." The war has  
brought many revelations, some impor-  
tant ones, being the worth and ability  
of the common man; the fact that the  
commonplace needs our care and above  
all the necessity of creating good health  
by decent, wholesome food.

"Right Kind of Food." "Does not  
determine consequences, but the right  
kind does, and milk is a food containing  
all desirable nutritive values, and has  
no value except as a food." The fact that  
different nations had their accepted diet  
from motives of habit and economy was  
pointed out—cattle and milk in Scotland;  
bread and cheese in England; pork and  
beans in New England, and rice and fish in  
Japan.

No National Diet in Canada.  
The speaker further pointed out that  
Canada was at a loss for a national  
diet, and he referred to the fact that  
from the recent medical examination of  
the schools, from 70 to 77 per cent of  
the children were found to be under-  
nourished. "It is the want of interest and  
knowledge," he stated, "not money that  
is the cause."

Various details in connection with milk  
and other foods and their benefit to the  
human body were explained by Dr. Ro-  
bertson.

MRS. KERSLAKE VERY ILL.
