BE HOLIDAY

IN ST. JOHN

It has been decided to proclaim a public holiday in St. John on Friday, May 20, the day of the funeral of King Edward. The mayor had been favorable to such action but thought it advisable to get the views of some of the leading business men This morning the matter was discussed at a meeting of the council of the board of trade and the members agreed that such action would be proper in view of the act that a public holiday has been prolaimed for the dominion.

President Estabrooks had a conference with the mayor after the meeting and informed him of the feeling of the members after the meeting and informed him of the feeling of the members at the mayor will issue a proclamation a few days.

It is probable that the man and the caused the trouble.

Mrs. Shekel, when she took the stand, worked her tongue at record breaking speed, and denied an accusation of Mrs. Tarrick had borrowed her frying pan, and she thereupon started to relate a tale of woe to the judge, who finally broke in on her address by telling her and her neighbor to clear from court, and tell their husbands to try to put a stop to their tongues and probably all would be well.

hen in the employ of the N. B. Telephone Co., had resigned, the superintendent said today that the trouble was caused because the girls would not submit to the orders of the company concerning regulations. The company was sending instructions to local branch managers to see that these regulations were enforced.

Richibucton Review:—The hen record is at present held by the recent importation of Frank Curran. He bought six biddies and one rooster, of the Wyandotte family. They arrived on Friday, and proceeded to business on Friday, the net returns being eight eggs at the close of the day's proceedings. As this is a rather unusual occurrence it can be attributed to the company to know as to that."

"Do you intend to retire from public life or from your constituency of North Toronto," was asked of Mr. Foster.

"I intend to remain in public life so long as my health remain in public life so long as my health remains good, and my friends stand by me," was the prompt and some what decided reply.

Asked if he thought it likely that there would be any changes among the party leaders or leadership, he said he thought not.

"You think Mr. Borden the right man in the right place" he was asked.

"We have chosen him and will keep him, I guess," was his reply.

Before Moving To Your Summer Home and Buying An Old Stove, Call and See What We Can Offer You in a New One.

When you move to the country for the summer you go for pleasure and recreation. In order to have that pleasure you must have a stove that will bake and not smoke, not one that a stove have a stove that will bake and not smoke, not one that a stove dealer has taken back when selling a new one, one that has been fitted up just to get clear of and will smoke or go to pieces before the time to return home has come or one that you will be always patching up. It will all lessen your comfort and take the pleasure off summering in the country, but if you take a new Range with you, not one of our most expensive ones, but a plain Range that has all the Glenwood attachments, you will have your meals cooked right, you will have a Range you will be proud of and it will make your stay in the country a happy one. For Every Need of Every Man We've The Right CLOTHES at Less Than They'd Cost Anywhere Else

When you buy Clothing here, you buy directly of the makers and you save the middleman's profit. This means that you pay us 1-4 to 1-3 less than you'd have to pay for the same grades at other stores.

But the economy feature is only one reason for buying Oak Hall Clothes. There are other reasons why this store would still be the Clothing headquarters for most Saint John Men, even if they had to pay as much here as elsewhere

No other store offers such a wide scope of choice to the careful dresser. No other store has better-made garments or smarter styles.

We know that the work which is put into the garments is the kind that counts. We know the cloths will wear well and that the fit will last as long as the goods. We are so sure that every garment is what it should be that we guarantee it for satisfactory service and stand ready to make right any defect which comes

And when in addition to these advantages you get clothes for a fourth to a third less than you'd have to pay in other stores—all of which facts can be verified by making comparisons—is there any reason under the sun why you or any other man should actually throw away good money by buying Clothing outside of Oak
