101 before maturity, plus accrued interest. MONTREAL TRUST COMPANY, MONTREAL, TRUSTEE.

It is expected that application will be made to list these Bonds on the New York Stock Exchange. Mr. William H. Coverdale, President of the Company, has summarized his letter as follows

HISTORY AND BUSINESS: Canada Steamship Lines Limited, was formed in Canada in 1913, by the consolidation of ten steamship companies, and together with its predecessor companies, including the Richelieu and Ontario Navigation Company, has been established in successful operation for 80 years. Through extensions and additions, it has since become the largest company in the Dominion engaged in inland wafer transportation of bulk and package freight and passengers, with a fleet of 109 vessels.

The Company also owns valuable passenger and freight terminals, wharves, docks, warehouses, hotels and coal-handling facilities, at various places on the Great Lakes and the St. Lawrence River; also a four-million bushel grain elevator, situated on leasehold property. The Company is strongly entrenched by the ownership of terminal sites, chosen with great foresight many years ago, which could not be duplicated today. EARNINGS: The average combined net earnings available for interest and income taxes, as certified by Messrs. Peat, Marwick, Mitchell & Company, over the five-year period 1921-1925, inclusive, after depreciation and other reserves and after eliminating losses on ocean services, now abandoned, were \$2,732,526 per annum.

After giving effect to the earnings from additional facilities acquired during the latter months of 1925 and in 1926, and to the economies in operation which are being derived from the operation of the enlarged fleet, the net earnings available for interest and income taxes, after depreciation and other reserves, during the current year, 1926, with the last four months estimated, may be taken at \$3,500,000 as against total interest charges of \$1,320,000, after giving effect to the present financing.

ASSETS: The Consolidated Balance Sheet of the Company, as certified by Messrs. Peat, Marwick, Mitchell & Company, as at March 31, 1926, after giving effect to the present financing, shows fixed assets and

investments (after depreciation reserve of \$11,724,102) of \$35,895,076. Of such total assets \$10,409,921 are of \$35,895,076. Of such total assets \$10,409,921 are represented by real estate, buildings, grain elevator, docks, wharves, etc., and \$25,485,155 are represented by passenger and freight steamships; and in addition the Company has net quick assets of \$2,154,487, thus making total tangible assets of \$38,049,563 against outstanding 5% Debenture Stock and the new issue of \$18,000,000 Series A Bonds. From March 31, 1926 to July 31, 1926, the net quick assets were increased by over \$1,000,000, and there are also such other assets as prepaid expenses, insurance investments, funds in hands of Trustees, deferred payments on property sold, etc., aggregating \$781,948.

property sold, etc., aggregating \$781,948.

SECURITY: This issue will be secured by a first mortgage on recently acquired properties, having a total value, after depreciation, of \$14,000,000; and by a second mortgage on steamships, real estate, and other properties, having a total value, after depreciation, of \$21,895,076, as at March 31, 1926, and subject to a prior mortgage to secure the Company's 5% Debenture Stock outstanding in amount of \$4,853,278, thus leaving an equity of \$17,041,798. The Company is obligated to make sinking fund payments which will provide sufficient moneys to purchase all of the 5% Debenture Mortgage, the mortgage securing this issue will become a first charge upon all the properties of the Company. The mortgage to secure this issue will be closed at \$50,000,000, issuable in series. Only Series A will be presently outstanding. Other series with terms fixed by the Directors but with maturities not earlier than any series then outstanding may be issued against 75% of the cash cost or value, whichever is less, of property subsequently acquired, or to refund 5% Debenture Stock (and/or 5% Bonds) at par, provided net earnings, to be defined in the mortgage, are equal to twice the interest requirements upon funded debt of the Company, under appropriate provisions of the mortgage.

We offer these Bonds when, as and if issued and accepted by us, subject to the approval of our counsel, Messrs. Cotton & Franklin, of New York, who will rely upon Messrs. Brown, Montgomery & McMichael, of Montreal, as to all matters of Canadian law including the security. It is expected that delivery will be made in the form of interim receipts of Montreal Trust Company, or its Agency, or temporary Bonds, on or about October 1, 1926.
