

SCHOOL CHILDREN BEING EXAMINED

Medical Inspection is Extended to City and County Institutions

This year, for the first time, the medical inspector of schools for Saint John county, Dr. Mabel Hanington, is carrying out an inspection of the children of school age who are in institutions in the city and county.

When asked yesterday regarding the results of her inspection in the New Brunswick Protestant Orphanage, which she has just visited, Dr. Hanington spoke most enthusiastically of the general good health of the children. She had examined more than 100 children of school age in the Manawagonish Road Home and found only three who were slightly below the normal weight. Of the three, two had only recently been admitted and could reasonably be expected to attain normal weight under the good care in the institution. The third child came from a delicate family and in consideration of the health history that child was surprisingly robust.

The doctor specially remarked the courtesy and pleasing manners of the

children and the happy atmosphere pervading the Home. She considered the health record of the Home exceptionally good.

Keeping your house clean "behind the ears"

Corners and recesses that "don't show," hard-to-reach ledges and moldings; under beds and low-built furniture; upholstered furniture—all these may be easily reached and thoroughly cleaned with The Hoover and its newly designed dusting tools.

Another hiding place for dirt is your rugs. Concealed in their deep, soft nap is grit which needs beating to dis-lodge. (You can

prove this.) The Hoover will keep this dirt beaten out and swept up.

Quickly, dustlessly, it will perform its every cleaning task. So choose now, between dirt and a Hoover. You can't have both! And remember! All you need pay to secure The Hoover is \$6.25 down. Let your Authorized Hoover Dealer make delivery to-day.

The HOOVER

It BEATS - as it Sweeps - as it Cleans

*To prove rugs need beating: Turn over a corner of a rug; with the handle of an ordinary table knife, or something of equal weight, give the under side 15 to 25 sharp taps and watch the dirt dance out from the nap deposits onto a piece of paper. Feel the destructive character of this grit. This is the dirt your present cleaning methods have missed, and that beating has dis-lodged. Correct use of The Hoover causes this embedded dirt to be vibrated to the surface as powerful suction lifts the rug from the floor and draws all the dirt into the dust-tight bag.
