

ENGLISH GIRL S SWIMMING STAR

Phyllis Harding May Prove
to be Rival of Sybil
Bauer.

In Miss Phyllis Harding, a young London girl, England has found a swimmer, it is believed, capable of performing women swimmers of the U. S. from taking all the honors in the backstroke event in the Olympics. Miss Harding is said to bear a distinct resemblance to Miss Sybil Bauer of the Illinois A. C., one of the world's leading aquatic stars, in physical build and execution of stroke. In fact, "the arm movements," according to Valrus in the News of the World, "are identical, being characterized by a slow, upward lift of the elbow into the air during recovery, followed by a high, upward flick of the forearm and hand."

"Few people on this side of the Atlantic have realized the significance attached to the news that America's backstroke champion, Miss Sybil Bauer, of the Illinois A. C., Chicago, has officially recorded 72-4-5 seconds for 100 yards backstroke," continues the writer. "On this form alone Miss Bauer is entitled to be considered the world's best swimmer, irrespective of sex or style, for she is approximately ten seconds faster than any other swimmer represents the best backstroke performance by the English titleholder. Miss May Spencer. There is only one English male backstroke swimmer, Austin Rawlinson, capable of beating the young American over the sprint course."

"Judged by the time test alone, Miss Bauer is a certainty for the 100 meter backstroke at the Olympic games. She is a product of the famous Illinois A. C., an organization which has produced a host of champions. The foundation of the Illinois fame was laid by Frank J. Sullivan, nowadays coach to the Princeton University. On his retirement W. Backus took up the post of coach and has excelled even the wonderful record of his predecessor."

"When it was decided to include a ladies' backstroke race in the Olympic schedule there was high jubilation in American aquatic circles, for it was thought that America could count on Miss Phyllis Harding, a young London girl of exceptional promise."

"When the British Olympic swimming coach, W. J. Howcroft, made his first coaching visit to London, Miss Harding came forward for inspection as a free-style candidate, but did not impress as being likely to come up to Olympic requirements, and was, to all intents and purposes, left out of future consideration. She, however, happened to swim a few strokes on the back, and the coach directed her to practice at this stroke until the next visit. Since then Miss Harding has progressed in leaps and bounds, and it is now fairly safe to hope that the London girl will upset American plans and secure a place in the backstroke event in Paris."

RELIGIONS IN CANADA

Following are statistics from "Census Bulletin XII—Religions of the People." The figures show the total number of religious adherents in the Dominion, according to the Census of 1921:

Roman Catholics, 2,383,663; Presbyterians, 1,408,812; Anglicans, 1,407,989; Methodists, 1,158,744; Baptists, 421,738; Lutherans, 387,484; Greek Church, 163,822; Jews, 125,190; Mennonites (including Hutterites), 58,797; Protestants (unclassified), 12,489; Brethren, 11,629; Buddhists, 11,238; Disciples of Christ, 9,371; United Church, 8,728; Pagans, 7,226; Pentecostal, 7,043; International Bible Students Association, 6,878; Finnish Brethren, 4,492; Unitarians, 4,492; Christian Church, 4,223; Church of Christ, 3,740; Holiness Movement, 3,323; United Brethren in Christ, 3,228; Friends, 2,149; various sects, 2,340; Gospel People, 2,449; Christadelphians, 1,810; Church of God (New Dunker), 1,781; Mission, 1,763; Spiritualists, 1,588; Swedenborgian, 1,588; various sects, 1,588; Freeholders, 1,126; Universalists, 1,084; Athelists, 1,041; Dutch Reformed, 979; Non-Sectarian, 907; Sikhs and Hindus, 849; Apostolic Brethren, 849; Labor Church, 829; Moravians, 741; Non-Communitarians, 616; Agnostics, 584; Undenominationalists, 577; Mohammedans, 478; Deists, 477; Shintoes, 427; Theosophists, 386; Christian Reform, 313; Christian Alliance, 282; Catholic Apostolic, 271; New Thought, 258; People's Church, 108. Besides these there are the people of "no religion," numbering 21,728. These whose religion is "not given" numbered 19,351.

THIS STATEMENT WILL PLEASE YOU

Whether you are a business or professional man, if you were able last year to set aside a small amount of your earnings, and with the remainder of your income to put in a car, you feel rightly proud of yourself.

"The Y. M. C. A. feels some small pride in the fact that this year it is able to secure the first three places in this event. However, these calculations may easily go astray, for the British Olympic Committee has discovered that Miss Phyllis Harding, a young London girl of exceptional promise."

"When the British Olympic swimming coach, W. J. Howcroft, made his first coaching visit to London, Miss Harding came forward for inspection as a free-style candidate, but did not impress as being likely to come up to Olympic requirements, and was, to all intents and purposes, left out of future consideration. She, however, happened to swim a few strokes on the back, and the coach directed her to practice at this stroke until the next visit. Since then Miss Harding has progressed in leaps and bounds, and it is now fairly safe to hope that the London girl will upset American plans and secure a place in the backstroke event in Paris."

EIGHT CASUALTIES IN TRAIN WRECK

Baltimore, Md., March 3.—S. W. Gerhardt, of Lynsburg, Va., was killed and seven other persons, five of them women, were injured in an accident to a Pennsylvania R. R. train No. 709 near here. The train, bound from Buffalo to Washington and consisting of 10 cars, was partly derailed on the bank of Lake Roland, Brightside Station.

In Havana.

Trained by an impressive array of costume trunks, and carrying a wonderful (to her) starring contract in her possession, Renee Adoree, the petite French actress, has departed for Havana, Cuba, to play the leading role in Tom Terris' production of "Bandolero."

Of distinctly Latin type, she will be seen in two characters, playing first the wife and then the daughter of a daring, picturesque Spanish baron. Arthur Edmund Carew, Pedro de Cordoba and Gustav von Seyffertitz have the leading male roles.

Miss Adoree has won her stellar honors within the past year. Before that she was best known as Mrs. Tom Moore.

BEST LIVER AND BOWEL LAXATIVE

If Headachy, Bilious, Sick,
Constipated

WORK WHILE YOU SLEEP

If Pimples Mar Complexion

Drive Them Off With Stuart's
Calcium Wafer—Their Action
on the Skin is a Wonder of
Accomplishment.

Many girls with a pimpled skin do not realize that face creams and lotions are merely to protect, not to remove the skin. What you must do to supply the skin with its much needed calcium, this you do with Stuart's Calcium Wafer. They go directly into the blood and to the skin to clear away those embarrassing pimples, blackheads and such such blemishes. It is not a round-about way. You get results every minute. You are sure of it in a few hours. They clear the blood, and clear the skin. The calcium goes to the skin, acts as a tonic, stimulates the tiny nerves, pores, and blood vessels to renewed activity, and lo! before you realize it the skin is peachy, firm, clear, and the picture of a sweet, rosy complexion. Get a 60 cent box today of Stuart's Calcium Wafer in any drug store and you will have a real beauty maker to clear your skin of pimples, redness, roughness and such destroyers of beauty. A free sample package will be sent to you by mail if you will send your name and address to P. A. Stuart Co., 698 Stuart Bldg., Marshall, Mich.

RURAL DISTRICTS NEED INSTRUCTION

Nurses' Services Required
as Much as in
China.

The need in the rural districts of Canada for the ministrations and teachings of the public health nurse is as great as it is in China. Our own homesteaders who are building up the country in the northwest, in the recently settled regions of Quebec in northern Ontario and in the newly-opened regions of New Brunswick are as desperately in want of guidance as the Chinese in foreign lands. Mr. J. M. Macdonald, director of the Child Welfare Association of Montreal, when he set forth opportunities for training nurses last week at a meeting of the Committee of Public Health Service of the provincial Association of Registered Nurses held in Strathcona Hall, Montreal.

Miss Macdonald read extracts of letters received by her Association from rural parts of the province, asking for help in the form of a public health nurse. In addition to prenatal instruction there was a field as yet unopened for nurses to teach mothers not only how to guard the health of their children, but also the importance of good habits, self-control, order, frankness, and the forgetting of grudges.

Like A Scout

The industrial nurse who was on the alert for signs of disease which are prevalent in special trades, such as lead poisoning in pottery and enamel factories, arsenic poisoning among fur workers, mercury poisoning among those who make felt hats, was a scout gathering data which could be of great service.

An opportunity for valuable intelligence work which is being neglected was that of seeing the early symptoms of mental ill-health and referring such cases for treatment. The majority of nurses are chiefly with the condition of the patients' bodies. It was only the special ones which took an interest in the minds of the patients. The profession should have a sense of responsibility to seek out the people who needed treatment, and see that they received proper attention. This service would be most valuable not only as a precaution to the public, but to the patient as well, for much good resulted from early treatment. Seventy per cent of suicides would be avoidable if proper watch were kept, and danger signals recognized, she asserted.

The noble part which had been played by nurses who turned their talents and experience to statesmanship was shown by the speaker, who mentioned the great contributions of St. Catherine, and Florence Nightingale. While all nurses could be statesmen they could get the broad point of view and the big picture of the vision. Montreal offered many opportunities for constructive work. Classes for defective children, and the need for garbage incineration, especially in the neighborhood of the Alexandra Hospital, was stressed.

The speaker was introduced by Miss Moss, chairman of the Public Health Service Committee, and a vote of thanks was moved by Miss Lawrence.

NIXON EXPLOSION GREAT MYSTERY

New Brunswick, N. J., March 3.—Investigation into the causes of Saturday's explosion at Nixon, four miles from here, which killed 18 persons and destroyed 40 buildings, has as yet revealed no chemical expert who can account for ammonium-nitrate causing all the damage of the explosion. Assistant Prosecutor J. E. Toolah, of Middlesex county, said tonight.

ORIENTAL ROMANCE ENDS IN THE COURT

Couple Married in Shanghai
Two Weeks After First
Meeting.

New York, March 4.—A romance that began in Shanghai and terminated with a separation suit in New York was disclosed in the Supreme Court here when papers were filed on an order of Justice Wagner granting \$20 a week alimony to Mrs. Margaret W. Hensler from Benno A. Hensler, formerly drug merchant in Shanghai, and now in a similar business here. Mrs. Hensler asked for \$50 a week.

Mrs. Hensler accused her husband of cruel treatment, assault and abandonment. He contended that she was to blame for their unhappiness. He said they were married fourteen days after they met in Shanghai, after she told him she had taken the trip to the Orient alone regardless of notice from her husband's family. She was in Redlands, Cal., that an income he was allowing her would cease if she went to the Orient.

Hensler asserted that he and his wife had no chance to learn whether they were suited to each other because of their hasty marriage. He said that his wife was suspicious of him and because of her attitude he was unable to conform to the custom of entertaining Chinese merchants, and his business fell off. He said:

"I was on the road to success when I was married to the plaintiff. It is with pain and sorrow that I describe that shattering of my hopes and business chances to the conduct of my wife."

Mrs. Hensler said that she and her husband came to New York from Shanghai in December, 1922, and that they separated soon afterward and he agreed to give her \$125 a month. They became reconciled, but Mrs. Hensler alleged, in May last her husband got a letter from a woman in Shanghai outlining a plan by which he could compel her to leave him. She said she would then come on from Shanghai and join him if he sent her the passage money.

"The plaintiff, who lives at 517 West 118th street, asserted that on July 16 she entered the hallway of the apartment house and learned at the telephone switchboard that a woman was talking to her husband in their apartment upstairs. She listened in, she said, and heard her husband talking to a 'wonderful lady' the night before and suggest that the woman with whom he was talking hang up before his wife returned. Mrs. Hensler said she knew how easy it is to get a divorce in New York.

"If the old wren does not treat you right, come over to my house and live for good."

STUBBORN COUGHS

Stop Quick With Home Made
Cough Mixture.

Not until you make your own cough mixture—a half pint of it for a small child, and a pint for an adult—will you stop any bad persistent cough as if by magic.

It's pleasant-tasting, but it doesn't stop a cough from coming back. It's quicker than anything else in the world. Children love it.

Get from any druggist one ounce of Paremit (dough strength)—this is a little granulated sugar and enough water to make one half pint—that's all there is to it.

Put the Paremit in the phlegm, stops the irritation, allays the inflammation, cleans out clogged nostrils, makes breathing easier, and causes sore throat to disappear.

With speed almost beyond belief this home made cough mixture stops the toughest hang-on cough, and all because it is a substance that is so costly for ordinary cough syrups that immediately covers the membrane like a soothing healing poultice and bleses the inflamed surface.

And it is always worth while to bear in mind that any remedy that overcomes catarrh, partially or wholly, is bound to be of benefit to those who are troubled with head noises and catarrhal deafness.

Get Paremit and get better.

Villa Will Leave To Fight On Coast

New York, March 4.—Pancho Villa, sensational little chieftain, who holds the world's flyweight title, is about to forsake Eastern rings for a sojourn on the Pacific Coast. With his manager, Frank Chung, Villa is scheduled to leave tonight for California, where he plans to engage in a series of four-round bouts against the best fighters at or near his weight. Pete Sarmiento, light weight stablemate of Villa's, and Mike Ballerino, an Italian who is also under Churchill's management, will accompany him across the continent with the little flyweight titleholder.

On the journey West the party will drop off at Milwaukee, where Villa and Sarmiento are scheduled to engage in bouts. The champion has been signed for a battle with Bud Taylor, Terre Haute, Ind., boxer, who engaged the late Frankie Jerome in the bout which proved the Bronx Spider's last. The contest is slated for ten-round bouts at the Coneyman, Middle Western Boxer, in another battle on the same card. Following these bouts the party will proceed West for an indefinite stay in California.

In the four-round battles he has in prospect Villa plans to keep himself in fighting trim for a bout against

HERE'S WHAT PEOPLE SAY ABOUT TANLAC

"If it had not been for Tanlac I would still be a sick, discouraged woman, for nothing else seemed to do me any good," says Mrs. Edward Gibbs.

All the advertising in the world and all the sales efforts combined could not have made the great success for TANLAC that has been attained, unless this reconstructive tonic possessed merit of the greatest degree. Over 40 Million Bottles of Tanlac have been sold and the demand today is greater than ever before.

That TANLAC possesses merit and has brought relief to hundreds of thousands of persons is attested by the great number of testimonials that have been received by the company from people in every state of the Union and every province of Canada. There are over 100,000 such statements on file with the company, all ringing with sincere praise for TANLAC and what it has accomplished for them.

Here are excerpts from a few of the 100,000 statements on file:

Mrs. Edward Gibbs, Lancaster, Pa.: "For 2 years indigestion deprived me of nearly the pleasure of living. If it had not been for TANLAC I would still be a sick and discouraged woman, for nothing else seemed to do me any good and I became almost helpless. As a last resort I tried TANLAC. I began to improve from the very first, gained 20 lbs., and today am feeling fine."

O. E. Moore, Kansas City, Mo.: "My stomach seemed to pain me constantly, food seemed to do me no good, I would blot up with gas, lost my strength, and could not sleep or rest. I was on the downgrade all the time. Tanlac corrected my troubles and put me in excellent shape."

Thomas Lucas, Peterboro, Ontario: "Well, sir, buying TANLAC was the best investment I ever made, for it built up my health and strength to where I haven't a complaint in the world."

Mr. and Mrs. Joseph E. Kasse, Detroit, Mich.: "For more than a year our three children, age 2, 4 and 6, had been peevish and listless and we were worried about them. Their stomachs were upset, appetites poor, the color had left their cheeks, their nights were restless and during the day they would just moan around, taking no interest in play or anything else. They began to improve with the first bottle of Tanlac and today there are no more healthy children in Detroit."

Tanlac is for sale by all good druggists. Over 40 million bottles sold. Accept no substitute.

Take Tanlac Vegetable Pills.

HAS ROTARIANS AS DINNER GUESTS

Provincial Hospital Impress-
es Members of Club—To
Repeat Minstrels.

Members of the Rotary Club were guests at luncheon yesterday at the Provincial Hospital. The visitors were much impressed with the institution which they inspected.

Dr. Anglin was in the chair, and with him at the head table were Dr. H. M. Armstrong, Dr. Travers, County Secretary Kelly, District Governor Spangler and Canon Armstrong, president of the club. One of the guests was Robert Hetherington, brother of a former superintendent of the hospital.

Will Repet Minstrels.

Rotarians Clark and Foster reported that while the minstrel performances had been a great success it was doubtful if the receipts would more than meet the expenses. In view of the fact that it had been hoped to get a considerable sum toward erecting the pavilion at the Rockwood Park recreation grounds, the club members and other members urged further action.

Rotarian F. G. Spencer offered the Opera House free for a "midnight" performance by the minstrel company at a quarter past eleven. The offer was promptly accepted for some night next week.

"It was also suggested that a series of entertainments be given at a quarter past eleven. The offer was promptly accepted for some night next week."

The Touroing Club women swimmers broke their own national record in the 100-meter relay when they covered the distance in 3:25-5. The former record was 3:27-5.

Mile. Labrun, who set two new records, is hailed by most critics as the leading swimmer in France. She has improved to a great extent of late, the full coaching will doubtless make a strong bid for Olympic honors. It has been decided to have her specialize in the shorter distances such as 100 and 200 yards.

Nothing definite has been decided concerning the Olympic prospects of the men. In the last Olympic games France failed to place in any of the events, and this year efforts will be made to have the country score in one or two of the events. Coaches have been selected, with several of the stars for the last few months and they report that great progress has been made. They have not felt in a position to make a statement as to what candidates are showing the best form and at what distances. All they have stated is that the men are doing a lot better than they were last year and that a tentative line-up will be announced.

when You Catch Cold Rub on Musterole

Musterole is easy to apply and it gets in its good work right away. Often it prevents a cold from turning into a fever. It is applied with the fingers. It does all the good work of grandmother's mustard plaster without the blister. Musterole is a pleasant-smelling, non-irritating, non-toxic preparation of oil of mustard and other home simples. It is recommended by many doctors and nurses. Try Musterole for sore throat, colds, croup, rheumatism, lumbago, pleurisy, stiff neck, bronchitis, asthma, neuralgia, congestion, pains and aches of the back and joints, sprains, sore muscles, bruises, chilblains, frost-bite—colds of all sorts. Seldom fails to deliver results. 40c and 75c, at all druggists.

The Musterole Co. of Canada, Ltd., Montreal.

GREAT GAME AT SUSSEX TONIGHT

(Special to The Telegraph-Journal) Sussex, March 3.—Another record-breaking crowd is expected at the Royal Arena on Tuesday night when the Charlottetown Abbies and Sussex hockey teams cross sticks in the final game of the home and home play-off games in the championship series.

These teams have always furnished sensational hockey when they met in the past and as both are going very fast, tomorrow night's contest promises to be a thriller.

Large blocks of reserved seats have been taken from outside places, and much interest is being manifested in the outcome of the game.

Sussex will play in Charlottetown on Friday night.

3,000 Golfers Now In Hole-in-One Club

New York, March 5.—The present membership of the "Hole-in-One Club" is 3,000, according to statistics compiled by its founder, W. C. Sherwood of Newark, Ohio. When organized in April, 1921, there were only a few club members, but the end of the year found 500 enrolled by reason of having registered a hole in one. In 1922, the list climbed to 1,800 and this total was boosted to 3,000 last year. New York stepped to the front in competition among the larger cities last year by qualifying 80. Chicago taking second place with 57, Philadelphia following with 27, other large cities trailing in the following order: San Francisco and St. Louis, 23 each; Los Angeles, 21; Omaha, 12; Pittsburgh, 10. Hole in one cards have been received from Great Britain, Canada, the Philippines, China, Canal Zone, Porto Rico, Hawaii, Mexico and France.

MAY CROSS FUNDY IN WORLD FLIGHT

General Route of Cross-Canada
Section of Tour
Decided

An Ottawa despatch last night announced that the cross-Canada section of the British round-the-world flight had been mapped out by the staff of the Royal Canadian Air Force. Though the details of the route are not yet completed, the general line of flight from the Pacific coast to Newfoundland has been fixed.

The British airmen will probably touch Canada first at Prince Rupert after crossing from Japan via the Aleutian Islands and the Alaskan coast. They will follow the Yellow Head Pass to Edmonton, then to Regina, where they will swing slightly south to Victoria Beach, on Lake Winnipeg. They will then proceed over the Kenora Lake district to Fort William and cross the upper part of Lake Superior, keeping always in Canadian territory to Sault Ste. Marie. They will follow the North Channel and Georgian Bay to Lake Nipissing, then down the Ottawa River to Ottawa. The plane will go south to the St. Lawrence and there is an optional course from there to Newfoundland. They will go either via Fredericton, Bay of Fundy and Annapolis, or by Campbellton and the Magdalen Islands to the southern point of Newfoundland and thence to St. John's.

H. M. minesweeper Thorpal has already left to place fuel and supply depots along the Alaskan coast, among the Aleutian Islands and down the Siberian coast to Japan.

FRENCH SWIMMING MARKS BROKEN

Men and Women Set New
Records at Paris
Meet.

Eight French records were broken in a swimming meet held recently in Paris. Although most of the new marks are still quite a little slower than the world's standards, the Paris find them very encouraging and report that interest in swimming is at a higher level in France than it has been for many years.

It was as rapid as it has lately they think that France will not be left out of Olympic competition and may take more than one first place.

Permed swam 500 meters free style in 7:37-4-5, breaking the former record of 7:42-5-6, which was set on May 7, 1914. Robert did the 100-meter event in 1:16, cutting two seconds off the previous mark. Mile. Prost lowered the time for the 100-meter breast stroke to 14:1-3 from 14:4-5-6. Mile. Ernest, a fifth from his own previous national mark, Padou swam 300 meters free-style in 4:08-3-5, slipping seventeen seconds from the time established by Permed in December of last year.

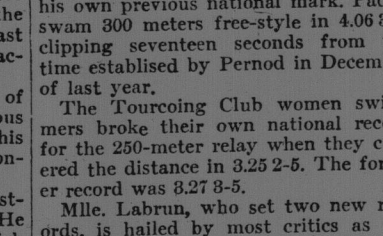

The Touroing Club women swimmers broke their own national record in the 100-meter relay when they covered the distance in 3:25-5. The former record was 3:27-5.

Mile. Labrun, who set two new records, is hailed by most critics as the leading swimmer in France. She has improved to a great extent of late, the full coaching will doubtless make a strong bid for Olympic honors. It has been decided to have her specialize in the shorter distances such as 100 and 200 yards.

Nothing definite has been decided concerning the Olympic prospects of the men. In the last Olympic games France failed to place in any of the events, and this year efforts will be made to have the country score in one or two of the events. LIFE BURDENED BY DYSPEPSIA

Health and Happiness Came
With "Fruit-a-tives"

Made From Fruit Juices and Tonics
"Fruit-a-tives," the wonderful medicine made from the juices of apples, oranges, figs and prunes, is one of the greatest means of doing good that this country of ours has ever known.

"Fruit-a-tives" is bringing health to hundreds and hundreds of people who suffer with chronic Constipation, Biliousness and Dyspepsia.

Mr. Frank Hall of Wyvalle, Ont., says, "I purchased a box of 'Fruit-a-tives' and began the treatment. My condition improved immediately. The dyspepsia ceased to be the burden of my life as it had been, and I was freed of Constipation."

Box a box, 60c; 25c, trial size 25c. At dealers or sent by Fruit-a-tives Limited, Ottawa, Ont.

A LEGEND OF HAFIZ

(Minna Irving in New York Herald.)
Three men are telling all day long. The Shaw came riding past; "Industrious ones, why do you work?" He cried, "so hard and fast?" "I weaved," the first replied, "a fine Rich tapestry of gold. And only to a mighty king The fabric shall be sold."

"I make a bracelet broad and bright. The second proudly said, "Set round with rubies red as blood. That noble Dustum shed." The third, of meditative mien, Answered in accents stern, "With mind intent upon his task, 'I frame a book of verse."

Dust is the royal Persian now. Lost are the rubies rare. And of the golden tapestry No shred is anywhere. But still the name of Hafiz lives. And still he weaves the magic Eastern moon Of music and romance.

Mentholatum

COLDS - CHAPPED HANDS - BURNS

Mother's Coughs and
Colds Go Quickly

She cannot afford to be sick and neglect her household. Mentholatum is the first remedy she prepares the way for quick recovery by the immediate use of a household preparation of sixty years standing.

GRAY'S SYRUP

RED SPRUCE GUM

Prepared by J. D. Watson & Co., New York

RED PEPPER FOR COLDS IN CHEST

Ease your tight, aching chest. Stop the pain. Rub up the chest with Red Pepper Rub. A hot cold loosed up in just a short time.

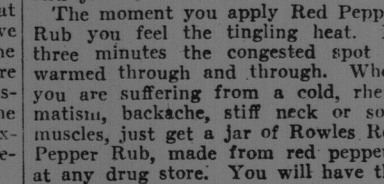

"Red Pepper Rub" is the cold remedy that brings quickest relief. It does not hurt you and it certainly cures the cold and tightness and drive the congestion and soreness right out.

Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down into colds, congestion, aching "stomach" and sore, stiff joints, relief comes at once.

The moment you apply Red Pepper Rub you feel the tingling heat. It increases the blood supply and the circulation, and when you are suffering from a cold, rheumatism, backache, stiff neck or sore muscles, just get a jar of Red Pepper Rub, made from red peppers, at any drug store. You will have the quickest relief known.
