A Pure Lead and Oil Paint at Last.

You can now obtain a pure mixed paint (pure lead and oil) for house and floor painting. Messrs. Parke & Parke, Druggists, 16 Market Square, have secured the agency for them, and will sell them almost as low as the inferior brands. Ask for the Island City brand of paints. Their floor paints are just lovely, wear well and dry well. 30c. a quart; \$1.20 a gallon.

Every Good Housekeeper

Should know how to make junket. This makes a delicious and easily digested dessert for anyone, and especially for invalids, children and dyspeptics. To one pint of sweet milk, flavored to suit, add one teaspoonful of Price's rennet wine. This forms a curd which should be served cold with cream, jelly or preserves. Sold by grocers and druggists and at PARKE'S new drug store, 16 Market Square.

The New Market Drug Store.

Messrs. Parke & Parke are doing a rushing business at their new stand, No. 16 Market Square. It is no wonder, for they have a justly earned reputation for selling the very best drugs, and being a wholesale house their prices are lower than other stores.

Do You Want to Brighten Up Your Floor?

We have succeeded in getting a perfectly pure lead and oil paint to sell at 30 cents a quart. This is as cheap as most of the lower grades of paint. Now if you want to brighten up your house inside and out get the Island City paints from PARKE & PARKE, druggists, No. 16 Market Square. The floor paint is extra, wearing well and drying in one night.

Don't Confuse It.

Do not confuse PARKE'S PICKLE MIXTURE with the mixed whole spices usually sold in grocery and other stores. Parkes' Pickle Mixture makes a - delicious pickle without a lot of trouble and bother. Every new purchaser this year increases the number next year.

PARKE & PARKE,
Druggists, 16 Market Square.
