MAY HAVE TO PART WITH THE WHOLE STAFF OF NURSES

And Dr. Atherton Will Likely Find His Resignation Accepted—Victoria Hospital Staff Now Favor the Matron

FREDERICTON, N. B., Sept. 12.—The Victoria Hospital trouble is the chief subject of discussion today. Up to last evening the feeling was no doubt strongly against the matron, and it was thought by many that her resignation would be asked for. After hearing Miss McCallum last night in her own defense opinion has very much changed, so much so that it is said that the whole hospital board without a single exception will decide in favor of the matron. Her explanation of the charges made and her description of all her actions seemed to make a most favorable impression on the trustees. The remark made by Mr. Barry at the meeting that he thought the chief seat of the trouble was intense jealousy among medical men many regard as hitting the nail pretty nearly on the head. If the board upholds Miss McCallum as it is expected it will, it means the withdrawal from the hospital not only of the nursing staff, but also of the leading surgeon, Dr. Atherton. The former difficulty was met, but no doubt Dr. Atherton's retirement means a blow to the institution. However, one of the trustees expressed himself this morning, the trustees must give a decision one way or the other since the medical staff will not accept the olive branch, and as no charge has been proved against the matron, the board cannot very well do anything else but support her.

A BAYONET CHARGE DEFEATED THE MOORS

A Carefully Planned French Attack Was Successful

CASABLANCA, Sept. 11, (Wednesday).—The allied Franco-Spanish army today made a sudden and successful move on Taddert, where the Moors were massed in force. The camp of the latter was destroyed by bombardment and the enemy was put to flight, leaving many dead on the field. The French lost one man killed and six wounded. The attack was carefully planned and was based largely on the observations of the Moors' position made from a military balloon. The allied army, which was divided into two columns, left the camp at six o'clock in the morning, leaving several companies of infantry to defend the base at Casablanca. The first column was composed of four companies of regular infantry, seven companies of sharpshooters, a battery of artillery, and all the cavalry. The march was skillfully carried out under the cover of a fog until within half way to Laddert, when the fog lifted and disclosed several large bands of the enemy. The allies then charged at the point of the bayonet, and although the Moors resisted with their old fire courage, they were finally compelled to retreat in the face of a superior force, and both of the columns of allied troops advanced on Laddert.

WELLMAN'S LATEST CABLE.

Despatch Dated Aug. 31 Said a Blizzard Was Then Raging; Desultion to Start.

CHICAGO, Sept. 11.—A special cable to the Record Herald from Spitzbergen dated Aug. 31, via Tromsø, Norway, Sept. 10, and signed by Welter Wellman, says: "The Irish America has been waiting a fortnight for an opportunity for a trial trip and a start for the pole. It is ready to depart at any moment, but the winds have been blowing constantly from the north for three weeks and it is impossible to take the ship from anchor without exposing its instant destruction. "This has been the stormiest summer known in Spitzbergen in 30 years. The winds during August have averaged three times the velocity of the average during August last year. Nearly all are from the north and a blizzard is now brewing. We shall wait a few more days for favorable weather before starting. After that the ship will be low to permit a voyage. If the America starts the crew will consist of three men—Wellman, Vaniman and Elsenberg. "The Hersey will be left out because of illness. The airship is in perfect condition. My confidence in the ultimate success of the plan to reach the pole is unshaken."

NEW YORK, Sept. 12.—Edward W. Vanderbilt, the aged retired merchant of Brooklyn, who married May S. Popper, the spiritualist medium, is incapable of managing his affairs because of lunacy, according to a verdict returned by a sheriff's jury in Brooklyn today. KISHINEFF JEWS BURNED TO DEATH

Taken From Their Beds and Driven Into the Flames

Horrible Outrages Perpetrated by Mob—Many Jewish Families are Fleeing.

VIENNA, Sept. 12.—According to the reports received here the disturbances which caused the circulation of alarming rumors in Roumania, began in Kishineff, Bessarabia, during the night of Sept. 8. A band of rowdies which arrived here from Odessa were joined by a Kishineff band and committed fearful outrages in the suburbs. They set fire to a lumber yard in which the Jews who were aroused from their sleep were driven. The police during the disturbance were entirely powerless. RUCHAIEST, Roumania, Sept. 12.—Numerous Jewish refugees including whole families from Kishineff, Odessa, have fled to the frontier at Urgent, and the villages along the river Pruth. The Roumanian authorities have issued the strictest orders to prevent their entry into Roumania.

INTERESTING CASES IN THE CIVIL COURT

The docket in the civil court was quite lengthy this morning. The fishing case of Logan vs. McLean in which the plaintiff sues for damages on a net was resumed. Common Clerk Wardroper and Engineer Peters gave evidence as to the fishing rights and the conditions of sale of fishing lots by the city. J.B.M. Baxter and Recorder Skinner the counsel in the case, were heard in argument and judgment was reserved. Manfred Day thought that the bill of \$15 from Dr. Scammell should be paid by James Miles, the contractor. It appears that Day was employed by the contractor and was badly injured by the falling of a staging. He was taken to the hospital and requested the services of Dr. Scammell and also requests that he be treated at home which requests were granted. He sued the contractor for damages and lost and now thinks that the contractor should pay the doctor's bill. The court explained that the contractor had nothing to do with the plaintiff's injury and that the plaintiff would have to pay the bill himself. Chris Nichols explained to the court that he did not intend to pay a rent bill of \$12 to Landlord Cunningham, because the house was cold and required more for coal, that snow and rain entered the house and the landlord refused a long oration, judgment was given in favor of the landlord.

Rumor That It Was Done Intentionally as an Attempt on the Life of the Czar Who Was on Board—No Reports Published

ST. PETERSBURG, Sept. 12.—No official announcement has been made here up to 1.30 this afternoon regarding the grounding of the Imperial yacht Standart off Horso, near Hangö, Finland, yesterday afternoon. The news has been withheld even from the embassies, no hint of the accident having been allowed to reach the public and the newspapers have been forbidden to publish a word on the subject under pain of heavy fines and imprisonment as provided for by the recent drastic prohibition preventing publication of official news regarding the Imperial family. The Associated Press however, learns that the grounding of the yacht on board of which were Emperor Nicholas and Empress Alexandra and their family produced a depressing effect upon Captain Stagin, the commander of the vessel. The Standart is in an unfavorable position upon some rocks which are submerged at high tide, but exemplary order was maintained on board, and news of the disaster was telegraphed to the naval authorities a number of warships and a salvage steamer was hurried to Horso. At ten o'clock last night the Imperial family left the Standart and were taken on board the despatch boat Asia which urgent orders were telegraphed to St. Petersburg to have the Imperial yacht Alexandra sent to Horso where she is expected in the course of the day. His majesty was urged to leave the vessel when she struck the rocks, but he refused to do so, and waited until the Asia was ready to take him and the Imperial family on board. Though it has been suggested that the accident to the Standart was due to members of her crew who purposefully ran her on the rocks, it is claimed in naval circles here that the disaster was due to the narrowness of the channel between the islands of the Finnish Archipelago near Hangö.
